Scissors, Paper, Stone Martha Langford, 2007-06-27 Finalist Raymond Klibansky Book Prize Humanities and Social Sciences Federation of Canada 2008 Making a connection between photography and memory is almost automatic Should it be In Scissors Paper Stone Martha Langford explores the nature of memory and art She challenges the conventional emphasis on the camera as a tool of perception by arguing that photographic works are products of the mind picturing memory is first and foremost the expression of a mental process Langford organizes the book around the conceit of the child's game scissors paper stone using it to ground her discussion of the tensions between remembering and forgetting the intersection of memory and imagination and the relationship between memory and history Scissors Paper Stone explores the great variety of photographic art produced by Canadian artists as expressions of memory Their work including images by Carl Beam Carole Cond and Karl Beveridge Donigan Cumming Stan Denniston Robert Houle Robert Minden Michael Snow

Diana Thorneycroft Jeff Wall and Jin me Yoon is presented as part of a rich interdisciplinary study of contemporary photography and how it has shaped modern memory **American Photo** ,1989-05 **Photography and Its Publics**

Melissa Miles,Edward Welch,2020-08-05 Photography is a ubiquitous part of the public sphere Yet we rarely stop to think about the important role that photography plays in helping to define what and who constitute the public Photography and Its Publics brings together leading experts and emerging thinkers to consider the special role of photography in shaping how the public is addressed seen and represented This book responds to a growing body of recent scholarship and flourishing interest in photography s connections to the law society culture politics social change the media and visual ethics Photography and Its Publics presents the public sphere as a vibrant setting where these realms are produced contested and entwined Public spheres involve yet exceed the limits of families interest groups identities and communities They are dynamic realms of visibility discussion reflection and possible conflict among strangers of different race age gender social and economic status Through studies of photography in South America North America Europe and Australasia the contributors consider how photography has changed the way we understand and locate the public sphere As they address key themes including the referential and imaginative qualities of photography the transnational circulation of photographs online publics social change violence conflict and the ethics of spectatorship the authors provide new insight into photography s vital role in defining public life **Photography and Germany** Andrés Mario Zervigón,2017-05-15 The idea of photography in Germany evokes everything from the pioneering modernist pictures of the Weimar era to the colossal digital prints that define art photography today But it also recalls horrifying documents of wartime atrocities and the relentless surveillance of East German citizens Photography and Germany broadens these perceptions by examining the medium s multi faceted relationship with Germany s turbulent cultural political and social history while rethinking the notion of German photography with fresh insights on its historical context Andr s Mario Zervig n covers this history from the region s pre photographic experiments with light sensitive chemicals to today s tension between analog and digital technologies Rather than simply providing a survey of German photography however he focuses on how the medium as a product of the modern age has intervened in a fraught project of national imagining often to productive ends but sometimes to catastrophic results Richly illustrated with numerous previously unpublished images Photography and Germany is the first single authored history of photography in Germany ever published one that deepens our broader understanding of how photography cultivates notions of a nation and its inhabitants
