International Bibliography of Business History

Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years. There is less interest in the traditional company centred approach and more concern about the wider business context. With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance. In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook. The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field. The Bibliography is a unique volume which covers the depth and breadth of research in business history. This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians.
