**Marvin Suesse**

## **The Great Betrayal:**

**The Great Betrayal** Ian Douglas Smith, 1997 Ian Smith former president of Rhodesia spares few of his opponents as he gives a forthright account of one of Africa's most controversial political careers. Smith details his boyhood in Southern Rhodesia, his enlistment into the Royal Air Force and his active service during World War II. After the war, he joined the United Federal Party and initiated moves with various British governments under Macmillan and Douglas Home. This resulted in the unilateral Declaration of Independence and then Britain led the world in adopting sanctions against Rhodesia. He also tells how the British government's poor handling of the Rhodesian situation led to unrest in the area which Henry Kissinger tried unsuccessfully to quell. Eventually, their majority elections were held, the results of which Margaret Thatcher refused to recognise, leading to the Marxist orientated rule of President Mugabe. This autobiography deals with many political events that have been conveniently glossed over. It presents a fascinating portrait of one of the 20th century's most distinguished political figures.

**The Nationalist Dilemma** Marvin Suesse, 2023-05-11 Nationalists think about the economy. Marvin Suesse argues and this thinking matters once nationalists hold political power. Many nationalists seek to limit global exchange but others prioritise economic development. The potential conflict between these two goals shapes nationalist policy making. Drawing on historical case studies from thirty countries from the American Revolution to the rise of China, this book paints a broad panorama of economic nationalism over the past 250 years. It explains why such thinking has become influential despite the internal contradictions and chequered record of many nationalist policy makers. At the root of economic nationalism's appeal is its ability to capitalise upon economic inequality both domestic and international. These inequalities are reinforced by political factors such as empire building, ethnic conflicts and financial crises. This has given rise to powerful nationalist movements that have decisively shaped the global exchange of goods, people and capital.

**Intimate afterlives of empire** Astrid Rasch, 2025-09-02 Through close readings of almost twenty autobiographies written after the break up of the British Empire, the book examines how individuals engage with the changing narrative landscape brought about by decolonisation. It considers the autobiographies less for what they may teach us about the moment remembered and more as windows on the act of remembering. This adds a crucial dimension to our understanding of the legacies of colonialism and how the ongoing process of decolonisation is reflected on the level of the individual. It argues that autobiographers are at once influenced by and seek to influence the cultural memory of empire and its legacies and the authors' own position in both. Situated at the intersection of imperial decolonisation history, memory studies and life writing studies, the book uncovers this intimate afterlife of empire.
