The Great Ideas Today 1970:

The Great Ideas Today, 1970 Robert Maynard Hutchins, Mortimer Jerome Adler, 1970 *The Great Ideas Today*, 1972, 1972 *The great ideas today*. 1993 [Anonymus AC01257279], 1993 *The Great Ideas Today* Robert Maynard Hutchins, 1970 *Jeremiah* Jack R. Lundbom, 1997-01-01 Originally presented as the author's thesis Graduate Theological Union Berkeley 1973 *Contemporary Perspectives on Rhetoric* Sonja K. Foss, Karen A. Foss, Robert Trapp, 2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory I A Richards Ernesto Grassi Cha m Perelman and Lucie Olbrechts Tyteca Stephen Toulmin Richard Weaver Kenneth Burke J rgen Habermas bell hooks Jean Baudrillard and Michel Foucault The brief biographical sketches locate the theorists in time and place showing how life experiences influenced perspectives on rhetorical thought The concise explanations of complex concepts are clear engaging insightful and highly accessible serving as an excellent primer for reading the major works of these scholars The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context Each chapter ends with a complete bibliography of works by the theorists **Modern Dogma and the Rhetoric of Assent** Wayne C. Booth, 1974-10-15 When should I change my mind What can I believe and what must I doubt In this new philosophy of good reasons Wayne C Booth exposes five dogmas of modernism that have too often inhibited efforts to answer these questions Modern dogmas teach that you cannot reason about values and that the job of thought is to doubt whatever can be doubted and they leave those who accept them crippled in their efforts to think and talk together about whatever concerns them most They have willed upon us a befouled rhetorical climate in which people are driven to two self destructive extremes defenders of reason becoming confined to ever narrower notions of logical or experimental proof and defenders of values becoming more and more irresponsible in trying to defend the heart the gut or the gonads Booth traces the consequences of modernist assumptions through a wide range of inquiry and action in politics art music literature and in personal efforts to find identity or a self In casting doubt on systematic doubt the author finds that the dogmas are being questioned in almost every modern discipline Suggesting that they be replaced with a rhetoric of systematic assent Booth discovers a vast neglected reservoir of good reasons many of them known to classical students of rhetoric some still to be explored These good reasons are here restored to intellectual respectability suggesting the possibility of widespread new inquiry in all fields into the question When should I change my mind **Practical Reasoning in Human Affairs** J. L. Golden, J. J. Pilotta, 2012-12-06 This anthology of original essays has been nearly two and one half years in the making and reflects the generous effort of many persons To begin with we thank the contributors to the volume who not only cooperated with regards to their own works but who also provided valuable advice concerning the over all volume One of the contributors was outstanding in his assistance and warrants special mention we thank Professor Michel Meyer for his encouragement counsel and dedication to see this project to comple

tion We would also like to thank Professor Jaakko Hintikka for his encouragement and Mrs Kuipers of Reidel for her patience and understanding along the way A project such as this could never have been completed without the unique assistance of members of the Department of Communication Ohio State University Ms Kimberly Pasi and Mr Charles Mawhirtcr Also special thanks are due to our graduate research assistant Ms Susan Jasko for her proofreading and bibliographic work The pressures of developing a Festschrift are considerable and could not have been met without the cooperation and enthusiasm of Mrs Perelman especially in allowing us to publish Professor Perelman s address to Ohio State University as our introduction The New Rhetoric and the Humanities Ch. Perelman,2012-12-06 Modern logic has Wldergone some remarkable developments in the last hun dred years These have contributed to the extraordinary use of formal logic which has become essentially the concern of mathematicians This has led to attempts to identify logic with formal logic The claim has even been made that all non formal reasoning to the extent that it cannot be formalized no longer belongs to logic This conception leads to a genuine impoverishment of logic as well as to a narrow conception of reason It means that as soon as demonstrative proofs are no longer available reason will no longer dominate Even the idea of the reasonable becomes foreign to logic and such expres sions as reasonable decisions reasonable choice or reasonable hypotheses would be put aside as meaningless The domain of action including method ology and everything that is given over to deliberation or controversy i e foreign to formal logic would become a battleground where necessarily the reason of the strongest would always prevail

Evolution-Revolution Ervin Laszlo,Rubin Goetsky,2019-07-18 Originally published in 1971 Evolution Revolution is an interdisciplinary volume examining inquiry around the central topic of evolution and revolution Containing contributions from a number of eminent academics of the time the book addresses the meaning and application of evolution and revolution in the context not of what things are or even how they behave but how they become The broad interdisciplinary range of essays explores this concept through the idea of development and change and argues that both change and development must be measured against concepts of flux and that which endures The editors of the book suggest that these are the invariants which contemporary thinkers are beginning to accept as the process counterparts of Platonic immutables Thus this volume examines the two immutables of evolution and revolution The book covers the concept through essays in science philosophic concepts of rationalism and existentialism art and religion **Black Men from behind the Veil** George Yancy,2022-01-14 The Black male scholars within this important book are painfully aware that the brutal murder of George Floyd was not due to a few bad apples They understand that they are perceived as threats and criminals within a distorted white imaginary that is embedded with processes of mythopoetic construction racial capitalism and a deep anti Black male social ontology Edited by prominent philosopher George Yancy Black Men from behind the Veil Ontological Interrogations emphasizes the importance of Black male epistemic agency and the courage to speak the truth regarding an America that values Black male life on the cheap and that attempts to control the movement of Black men their capacity to breathe and

their being through anti Black technologies of surveillance confinement policing and white nation building There is no single monolithic Black male voice that dominates this crucial and necessary text Each voice speaks of pain behind the Veil revealing narrative specificity and an important recursive truth Black men within the white American psyche are both necessary and yet disposable The existential and sociohistorical weight of this truth is made painfully clear through the voices of these Black men

Perelman's New Rhetoric as Philosophy and Methodology for the Next Century M. Maneli, 2013-03-14 Both Perelman's collaborators Professors Haarscher and Ingber shared with me their deep personal insights about origins birth and phases of the development of the New Rhetoric Without their good will advice and creative comments my personal knowledge would have been narrower I am grateful to the Chaim Perelman Foundation for their grant which enabled me to cover my expenses of collecting materials editing and preparing the manuscript Professor Michel Meyer was very instrumental in the negotiations with the publisher Mr Raphael Lipski treasurer of the Perelman Foundation spent many hours with me and shared his remembrances of Perelman's personality his social and political activity I owe special thanks to Dr Richard Kramer whose friendship I cherish for a quarter of a century He read and edited not only the entire text of the book but he offered many critical remarks and constructive suggestions which helped me to revise my own ideas and to formulate them more clearly and precisely The first critical reader and editor was as usual Mrs Elizabeth Previti Professor Elzbieta Ettinger Chodakowska MIT read this entire manuscript and shared with me her impressions I owe special gratitude to my dear friend Mrs Stephanie Silvers for her steady help and moral support Needless to say I am solely responsible for all the deficiencies of this book

The Intellectual and Cultural Origins of Chaim Perelman and Lucie Olbrechts-Tyteca's New Rhetoric Project Michelle Bolduc, David A. Frank, 2023-04-12 Chaim Perelman alone and in collaboration with Lucie Olbrechts Tyteca developed the New Rhetoric Project NRP which is in use throughout the world Sir Brian Vickers in his historical survey of rhetoric and philosophy for the Oxford Encyclopaedia of Rhetoric states that the NRP is one of the most influential modern formulations of rhetorical theory This book provides the first deep contextualization of the project's origins offers seven original translations of the writings of Perelman and Olbrechts Tyteca from French into English and details how their collaboration effectively addresses then philosophical problems of our age

Pragmatics of Natural Languages M. Bar-Hillel, 2012-12-06 In June 22-27 1970 an International Working Symposium on Pragmatics of Natural Languages took place in Jerusalem under the auspices of The Israel Academy of Sciences and Humanities and the Division of Logic Methodology and Philosophy of Science of the International Union of History and Philosophy of Science Some thirty philosophers logicians linguists and psychologists from Israel U S A West Germany England Belgium France Scotland and Denmark met in seven formal and a number of informal sessions in order to discuss some of the problems around the use and acquisition of language which in the eyes of an increasing number of scholars have been left under treated in the recent upsurge of interest in theoretical linguistics and philosophy of language

More specifically during the formal sessions the following topics were discussed The validity of the syntactics semantics pragmatics trichotomy The present state of the competence performance issue Logic and linguistics The New Rhetoric Speech acts Language acquisition The participants in the Symposium distributed among themselves reprints and preprints of relevant material partly in advance of the meeting partly at its beginning Each session was introduced by one or two moderators and summaries of each day's proceedings were prepared and distributed the next day The participants were invited to submit papers after the symposium written under its impact The eleven essays published here are the result

Buy what Eleanor F. Ballou, 1971 **Noam Chomsky** Carlos Peregrín Otero, 1994 2 volumes Augustine and Rhetoric, 2023-11-27 This volume examines the place of classical rhetoric in Augustine's theology Rather than seeing rhetoric as a matter only of style the authors examine the argumentative techniques that Augustine would have learned and taught as a professional rhetorician Essays pay particular attention to the rhetorical practice of invention in order to uncover the ways in which Augustine's thought is not only expressed rhetorically but constructed rhetorically as well If you want to know what kind of rhetoric Augustine used in the actual practice as a Christian writer and preacher this volume will answer your question **Centrist Rhetoric** Antonio de Velasco, 2010-03-08 What exactly is happening when politicians evoke a center

space beyond partisan politics to advance what are unmistakably political arguments Drawing from an analysis of pivotal speeches surrounding Bill Clinton's 1992 presidential campaign and first term in office *Centrist Rhetoric: The Production of Political Transcendence in the Clinton Presidency* takes an extended look at this question by showing how the possibility of political transcendence takes form in the rhetoric of the political center Faced with a divided and shrinking party and later with a pitched battle against a resurgent conservative movement Clinton used the image of a political center a third way beyond liberal and conservative orthodoxies to advance his strategic goals define his adversaries and overcome key political challenges As appeals to the center helped Clinton to achieve these advantages in specific cases however they also served to define the means ends and very essence of democracy in ambiguous and contradictory ways Touching on controversies from the early 1990s over the future of the Democratic Party racial identity in American politics the threat of rightwing extremism

and the role of government Antonio de Velasco show how centrist rhetoric's call to transcendence weaved together forms of identification and division insight and blindness so as to defy the conventional assessments of both Clinton's supporters and his detractors Centrist Rhetoric thus offers general insight into the workings of political rhetoric and a specific appreciation of Clinton's attempts to define and adjust to the political exigencies of a critical period in history of the Democratic Party and politics in the United States
