## **The Great Religions Pathways To Our Innermost Being:**

**The Great Religions** Pietro Archiati,1998 Taking a radical departure from the usual comparative study of religion Pietro Archiati shows that the various religions represent stages in each individual s path of development In this sense the Great Religions create an absolute unity not in what they say or teach but in their contribution to each of us becoming ever more human Beginning with the Flood of Atlantis Archiati places the religions in the context of human evolution taking us through the development of Buddhism Zarathustrianism Judaism Christianity Islam and onwards to the future of religion based on spiritual reality For example Archiati considers how the founders of the various religions are working today Are the Buddha Krishna Moses and Zarathustra doing and telling us the same things now as they were in the past even though humanity has undergone considerable changes since

Rudolf Steiner,2020-09-16 In these much valued lectures Rudolf Steiner begins by posing the question Why investigate the spiritual worlds at all He goes on to explore the contemporary need for spiritual knowledge and the authentic paths that can lead to it Speaking in Torquay England at the International Summer School organized by his friend and colleague D N Dunlop Steiner surveys the differences in various types of consciousness from ancient to modern times in waking and dreaming from space into time and the changes that have taken place in relation to knowledge and science in the course of history He goes on to discuss the Mystery nature of crystallized minerals and metals such as copper and silver and their relationship to the planets He also describes how the ages of life can become organs of perception In a dramatic conclusion Steiner explains the role of moon beings ahrimanic elemental beings and the true nature of mediumship ectoplasm and spiritual possession

**Dark Path** William H. Shannon,1987-03-01 In the mystical tradition the dark or apophatic way has a long history It is the way of John of the Cross of Master Eckhart of Juliana of Norwich of the anonymous author of The Cloud of Unknowing and of Thomas Merton This dark path of contemplation that Merton followed wrote about extensively and considered the focal point of his life is the subject of William H Shannon s book      The Theosophical Path Katherine Augusta Westcott Tingley,1920

The great lie of life Davide Aggio,2025-02-11 Dear reader It is a pleasure to share with you some indications that I hope can be useful in making you glimpse a glimmer of light beyond the dark veil of the lie of life and thus be able to bring out what we are in reality What we are is eternally present without form and without space in the substratum of every manifestation To enter into this liberation from the false self the conditioned mind must disappear and as also expressed by the cardinal principles of Advaita Vedanta you must no longer see yourself as the agent of what happens but become as impersonal as possible until you merge in the absolute consciousness where peace reigns eternal happiness and we are all one An invisible divine force will take care of the actions to be performed in this life without the intervention of the ego or illusory person The book is made up of chapters each structured into three main parts such as reflections practices and some reference texts Happy reading      **Your Daily Life is Your Temple** Anne Rowthorn,2006-04-01 Your Daily Life Is Your

Temple will challenge your preconceived notions of what spirituality is where you find it and how you practice it Gregory F Augustine Pierce Spirituality at Work Ten Ways to Balance Your Life On the Job      **The Powers Latent in Man** Dr. Douglas

M. Baker, 2014-04-11 *The Powers Latent in Man* A minority of psychically gifted people exercises the powers discussed by Dr Baker in this book but they are latent in all of us They include hypnosis telepathy psychokinesis and healing Dr Baker presents scientific and mystical evidence for the existence of these mysterious but natural forces and documents their operation in contemporary society Amongst the amazing subjects covered are super gifted children auric manipulation for intellectual power continued youthfulness and mental brilliance and much more Dr Baker's exciting proposition in this book is that the esoteric and occult truths of the ages are being verified by science      **The Spiral Path** Theresa King, 1992-09 This treasure of diverse and visionary writings explores the sacredness of women's everyday lives Twenty two contemporary spiritual teachers including Irina Tweedie Brooke Medicine Eagle Swami Radha Bernadette Roberts and Mary Giles probe aspects of their lives from sexuality work and cooking to relationships prayer and mysticism A vision then emerges of women as extraordinary sacred beings their lives sources of personal and community transformation This book is a guide for those seeking a practical workable spiritual life      Century Path , 1902      **Many Paths, Many Truths** Leo Rastogi, PhD, 2021-08-30 Have you ever wondered why there is so much religious diversity in the world How did this story of humanity begin and what ancient wisdom has been lost along the way Can you believe in God and not be religious Or simply put why do human beings have a need to believe in something anything This book is a journey through the genesis of faith the evolution of ancient spiritual practices the dawn of major world religions and an exploration of the emerging frontiers of New Age spirituality      Paths To The Heart: Sufism And The Chris James S. Cutsinger, 2010-08-01 Despite the long and well known history of conflict between Christians and Muslims their mystical traditions especially in the Christian East and in Sufism have shared for centuries many of the same spiritual methods and goals The purpose of this book the first major publication of its kind is to promote precisely this more inward kind of ecumenical perspective These essays point to a spiritual heart in which the deeper meaning of Christian and Muslim beliefs and practices come alive and where spiritual pilgrims may discover beyond the level of seemingly contradictory forms an inner commonality with those who follow other paths      Inner Paths to Outer Space Rick Strassman, Slawek Wojtowicz, Luis Eduardo Luna, Ede Frecska, 2008-03-27 An investigation into experiences of other realms of existence and contact with otherworldly beings Examines how contact with alien life forms can be obtained through the inner space dimensions of our minds Presents evidence that other worlds experienced through consciousness altering technologies are often as real as those perceived with our five senses Correlates science fiction's imaginal realms with psychedelic research For thousands of years voyagers of inner space spiritual seekers shamans and psychoactive drug users have returned from their inner imaginal travels reporting encounters with alien intelligences Inner Paths to Outer Space presents an innovative examination of how we can reach these other dimensions of existence and contact otherworldly beings Based on their more than 60 combined years of research into the function of the brain the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock

a multidimensional realm of existence where otherworldly communication occurs They contend that our centuries old search for alien life forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds The authors show that these alien worlds encountered through altered states of human awareness either through the use of psychedelics or other methods possess a sense of reality as great as or greater than those of the ordinary awareness perceived by our five senses *Steps on the Path to Enlightenment* Geshe Lhundup
