Victorian Studies Sharon W. Propas, 2016-06-17 First published in 2006 this work is a valuable guide for the researcher in Victorian Studies Updated to include electronic resources this book provides guides to catalogs archives museums collections and databases containing material on the Victorian period It organizes the vast array of reference sources by discipline to help researchers tailor their investigations

Sound, Sin, and Conversion in Victorian England Julia Grella O'Connell, 2018-04-19 The plight of the fallen woman is one of the salient themes of nineteenth-century art and literature indeed the ubiquity of the trope galvanized the Victorian conscience and acted as a spur to social reform In some notable examples Julia Grella O'Connell argues the iconography of the Victorian fallen woman was associated with music reviving an ancient tradition conflating the practice of music with sin and the abandonment of music with holiness The prominence of music symbolism in the socially committed quasi-religious paintings of the Pre-Raphaelites and their circle and in the Catholic Wagnerian novels of George Moore gives evidence of the survival of a pictorial language linking music with sin and conversion and shows even more remarkably that this language translated fairly easily into the cultural lexicon of Victorian Britain Drawing upon music iconography art history patristic theology and sensory theory Grella O'Connell investigates female fallenness and its implications against the backdrop of the social and religious turbulence of the mid-nineteenth century

Stonewall Jackson and Religious Faith in Military Command Kenneth E. Hall, 2005-05-03 The relationship between war and religion is nothing new For millennia humankind has waged war over religion and derived religion from war It is not surprising then that military leadership and religious conviction frequently coincide This study documents the long tradition of the religious warrior in Western history and literature with a special focus on Civil War general Thomas J. Stonewall Jackson It also provides a general survey of the religious antecedents of Jackson and other more modern American military heroes The book begins with an introduction to the Confederate general largely from the perspective of those who lived with and served under him whose testimonies attest to his courage initiative innate tactical talent deep religious faith and eccentric personal habits The author analyzes the extent to which Jackson's national zeal has elevated him to the status of a religious martyr remembered today within an epic frame of sainthood and heroism Concise comparisons are drawn between Jackson and his Old World predecessors including Ulrich Zwingli John Knox and Oliver Cromwell Similar associations are made between Jackson and such Civil War contemporaries as William Dorsey Pender and Oliver Otis Howard A chapter addressing the representation of Stonewall in modern Civil War literature and film particularly in the novel and subsequent motion picture

Gods and Generals provides an insightful juxtaposition of Jackson's status among the gods of the Civil War and his own reverence for the God of his Presbyterian faith **National Union Catalog** ,1973 Includes entries for maps and atlases

Subject Guide to Books in Print ,1997 **Embracing the East** Mari Yoshihara,2003 As exemplified by Madame Butterfly East West relations have often been expressed as the relations between the masculine dominant West and the feminine submissive East Yet this binary model does not account for the important role of white women in the construction of Orientalism Mari Yoshihara's study examines a wide range of white women who were attracted to Japan and China in the late nineteenth and early twentieth century and shows how through their engagement with Asia these women found new forms of expression power and freedom that were often denied to them in other realms of their lives in America She demonstrates how white women's attraction to Asia shaped and was shaped by a complex mix of exoticism for the foreign admiration for the refined desire for power and control and love and compassion for the people of Asia Through concrete historical narratives and careful textual analysis she examines the ideological context for America's changing discourse about Asia and interrogates the power and appeal as well as the problems and limitations of American Orientalism for white women's explorations of their identities Combining the analysis of race and gender in the United States and the study of U S Asian relations Yoshihara's work represents the transnational direction of scholarship in American Studies and U S history In addition this interdisciplinary work brings together diverse materials and approaches including cultural history material culture visual arts performance studies and literary analysis *Embracing the East* was the winner of the 2003 Hiroshi Shimizu Award of the Japanese Association for American Studies best book in American Studies by a junior member of the association

Commodity Culture in Dickens's Household Words Catherine Waters,2008 From 1850 to 1859 Charles Dickens conducted *Household Words* a weekly miscellany intended to instruct and entertain predominantly middle class readers He filled the journal with articles about various commodities many of which raise questions about how far society should go in permitting people to buy and sell goods and services Although studies of Victorian commodity culture have tended to focus on the novel scholarly interest in Victorian periodicals and material culture has been prompted by recognition of the major role the press played in disseminating knowledge and information about the proliferating world of goods At the same time periodicals like *Household Words* were themselves commodities that relied on their marketability for survival This book provides a cultural study of the journal's representation of commodities that records the changing relationship between people and things exposed in the contributors' attempts to come to terms with the development of urban commodity culture at mid century **The National Union Catalogs, 1963-** ,1964 **The National union catalog, 1968-1972** ,1973

Van Vuuren,2010-11-19 The diverse literatures of Victorian and Edwardian Britain have provided a wealth of research materials for novice and expert researchers alike Although the body of scholarship for the Edwardian Age is smaller than that of the Victorian researchers
