Strindberg George Bernard Shaw and Eugene O'Neill seminal figures in the modern drama's evolution and avowed Nietzscheans all came away from their encounters with Nietzsche's writings with an impassioned belief in the philosophical potential of the live theatrical event coupled with a reestimation of the dramatist's power to shape that event in collaboration with the actor. In these playwrights' reactions to and adaptations of Nietzsche's radical rethinking of the stage lay the beginnings of a new direction in modern theater and dramatic literature.

**An International Annotated Bibliography of Strindberg Studies 1870-2005: Autobiographies, novels, poetry, letters, historical works, natural history and science, linguistics, painting and the other arts, politics, psychopathology, biography, miscellaneous, dissertations**

Michael Robinson, 2008. This copiously annotated bibliography documents and examines the whole range of commentary on Strindberg's works and activity in many fields besides the plays for which he is internationally best known. These include his prose fiction and poetry, his work as an historian and natural historian and his relationship to the other arts, most notably his painting. It is concerned with both lasting works of literary and dramatic criticism as well as reviews of his books and plays in the theatre and some more ephemeral material, all of this in several languages. Organised generically and by subject and individual work, the bibliography enables the reader to trace the changing impact of Strindberg and his works in various countries and during different periods. It is thus very much a study in reception as well as a bibliographical record of published material. It traces the developing image of Strindberg and his writing both during his lifetime and in subsequent years and with frequent cross-reference offers a comprehensive overview of a literary and existential project that has rarely been matched for its multifaceted diversity. The bibliography is published in three parts: Volume 1 General Studies 978 0 947623 81 4 and Volume 2 The Plays 978 0 947623 82 1 are also now available. Michael Robinson is Emeritus Professor of Drama and Scandinavian Studies at the University of East Anglia, Norwich.

**Modernism in European Drama** Frederick J. Marker, Christopher Innes, 1998-01-01. **The Modern Stage and Other Worlds (Routledge Revivals)** Austin E. Quigley, 2015-08-11. Modern plays are strikingly diverse and as a result any attempt to locate an underlying unity between them encounters difficulties. To focus on what they have in common is often to overlook what is of primary importance. In particular, plays that focus on their differences are to note the novelty of the plays without increasing their accessibility. In this study, first published in 1985, Austin E. Quigley takes as his paradigm case the relationship between the world of the stage and the world of the audience and explores various modes of communication between domains. He asks how changes in the structure of the drama relate to changes in the structure of the theatre and changes in the role of the audience. Detailed interpretations of plays by Ibsen, Strindberg, Brecht, Ionesco, Beckett and Pinter question principles about the modern theatre and establish links between drama structure and theatre structure, theme and performance space.
