Shoot for the moon even if you miss you'll land up amongst the stars Women of the 1900s gave us much to aspire for almost causing a metamorphosis in the way we viewed our ambitions It became a birth right rather than unconventional From Indira Gandhi's ferocious reign over India to Queen Elizabeth's ascetic rule over the throne to Mother Teresa's gentle ways we got to see the many facets of successful women So then the eager unchaste and rebellious women of the millennium decided to take their career ambitions a step ahead but also a step back and include the joys of motherhood and domestication When a bird is given the chance to flee the nest it always flies back because the warmth and protection of a home and family is encouraging So as much as we women love to conquer new feats in our careers we love coming back home to the familiarity and love of a home and family We make sure that the dinners on the table are as crisp and well turned out as the products at work and this balance makes us feel invincible It's a high like no other However the struggles to create that balance often begins with the change in mindset So rather than being all feminist about it and tipping the scales to a one-sided bias let us accept and give credit to the those fathers husbands partners uncles and brothers that sowed these seeds of aspirations and acceptance into former patriarchal societies Let's not make it a power struggle and give importance to each other towards our success This work life balance and all the sha bang that is attached to it is an accumulation of hardwork meticulous planning open mindedness towards criticism and accepting eminent changes in life to become better more resilient and more fabulous version of ourselves

examined how the poverty got accentuated by migration of labour and the rich engaging them on security of contract basis for longer periods either paying measly compensation or with no wages They also restricted their mobility to leverage from their cheap labour This is reflected even in the new millennium in the form of denial of industrial democracy by some gigantic corporations to annihilate the bargaining power of the labour The book also mentions how disengaged nature of the democratic politics of the poor in the developed world kept them poorer and wanting in confidence Remedial measures have also been discussed in this study which as stressed by the author need to be continent specific rather than one cloth size fits all approach of the multilateral Institutions The book has not examined and researched poverty as one blanket entity but researched poverty at multi layered level and at each level the author got to the bottom of the issue and provided unique solutions The study suggests need for a gesture of benevolence of the developed world keeping in mind the downsides that resulted from colonization The book goes into the question of emergence of avoidance of practical education science and engineering education lack of interest in academic rigour in several industrial countries in the recent years which could be heavily challenging for future generations The book is unique in its dealing with remedial measures to which the book has considerably dedicated [Following the Money in Yemen and Lebanon](#) ,2010 [Technical Analysis of Stock Trends](#) Robert D.
