Literary Anthropology Fernando Poyatos, 1988-01-01 The traditional gulf between the theory and practice of literature and the various areas subjoined under anthropology has hindered the development of some very fruitful perspectives in the realm of poetics and the general theory of literature particularly in its narrative forms Poyatos' initial idea of literary anthropology as the study of people and their cultural manifestations through their national literatures without doubt the richest source of documentation of human life styles and the most advanced form of our projection in time and space and of communicating with contemporary and future generations has been enriched by the thoughts of a multi cultural group of scholars from both anthropology and literature who at a first symposium on the subject attempted to define this area leaving the way open to many more research possibilities

South Slavs in Michigan Daniel Cetinich, 2003-07-31 The South Slavs of Michigan Slovenes Croats Serbs Macedonians and Bosnian Muslims are a microcosm

of the immigration waves of southern and eastern Europeans who came to the United States between 1880 and 1924 History has almost forgotten these immigrants who were instrumental in developing the large urban centers of Michigan and the United States and who specifically contributed to development of the auto industry and struck in 1913 1914 for better working conditions in the copper mines of the Upper Peninsula While labor problems were the primary obstacles confronting Michigan's South Slavs the painful process of acculturation has since dimmed their very real accomplishments As Daniel Cetinich shows South Slavs helped shape both a regional and national civilization in North America with their hands backs feet and the labor organizations they helped create

Slovenes in Michigan James E. Seelye, 2017-11-01 The Slovenes represent a small but important microcosm of Michigan history Thousands followed the pioneering missionary Frederic Baraga and settled in the mining regions and forests of the Upper Peninsula before many of them scattered to the auto industry of the Lower Peninsula in the early twentieth century Everywhere they traveled and settled they left a detectable imprint that was clearly Slovene The first Slovene in Michigan Bishop Frederic Baraga traveled extensively throughout the state In his wake families such as the Vertins and Ruppes followed each playing an important role in their communities In many regions of the state the most recognizable names buildings and businesses bear their names and illustrate the long lasting influences of Slovenes on the history of Michigan To understand the history of Slovene immigration in the Great Lakes is to better understand Michigan history
