Experiencing Digital Discourses Camilla Vásquez, Jan Chovanec, 2025-05-14 This edited book addresses current trends in digital discourse analysis. The central theme of the volume is the notion of digital experiences in other words how users rely on mediating technologies both to communicate and bond with others and to organize themselves for joint action. The chapters are grouped into three overarching themes: user engagement, multimodal communication, and online activism. Topics covered include memetic and multimodal humor on the internet, sticker use on WeChat, language ideology debates on YouTube, covert communication in QAnon forums, COVID narratives on Korean vlogs, and political activism on Twitter among others. The book will be of interest to scholars in the broadly defined field of digital discourse analysis. It will be relevant to linguists, social media researchers, communication scholars, and media and cultural studies specialists.

The Man Who Could Fly Michael Grosso, 2015-12-14 St. Joseph of Cupertino began having mystical visions at the age of seven but it was not until he began practicing his faith as a Franciscan priest that he realized the full potential of his mind's power over his body; he was able to levitate. Throughout his priesthood, St. Joseph became famous for frequent levitations that were observed on hundreds of occasions and by thousands of witnesses, including many skeptics. Michael Grosso delves into the biography of the saint to explore the many strange phenomena that surrounded his life and develops potential physical explanations for some of the most astounding manifestations of his religious ecstasy. Grosso draws upon contemporary explorations into cognition, the relationship between the human mind and body, and the scientifically recorded effects of meditation and other transcendent practices to reveal the implications of St. Joseph's experiences and abilities.

Processes of Cultural Change and Integration in the Roman World, 2015-06-29 *Processes of Cultural Change and Integration in the Roman World* is a collection of studies on the interaction between Rome and the peoples that became part of its Empire between c. 300 BC and AD 300. The book focuses on the mechanisms by which interaction between Rome and its subjects occurred, e.g., the settlements of colonies by the Romans, army service, economic and cultural interaction. In many cases, Rome exploited the economic resources of the conquered territories without allowing the local inhabitants any legal autonomy. However, they usually maintained a great deal of cultural freedom of expression. Those local inhabitants who chose to engage with Rome, its economy, and culture could rise to great heights in the administration of the Empire.
