Economics of Child Support Payments William S. Comanor, 2004-01-01 This urgently needed groundbreaking book provides solid data that coincides with the real life stories I have been hearing for years from men and women nationwide regarding unfair child support laws and policies that have resulted in adverse effects on their children and families I anticipate that this book will have a major positive impact on social policy and the general collective attitudes toward families in today's society The information presented in this book must be read and understood by every policymaker to insure that child support policies are made just and fair so that all families can prosper Dianna Thompson National Family Justice Association US The delinquent payment of child support by non custodial to custodial parents is a major problem throughout the United States To many observers the problem is one of deadbeat dads men who simply will not make the required payments The solution has been to enforce payment by the imposition of increasingly stringent civil and criminal penalties Despite these efforts the percentage of single mothers receiving child support has changed very little over the past twenty five years The Law and Economics of Child Support Payments investigates why this is and approaches the payment of child support as an economic problem Child Support and Child Well-being Irwin Garfinkel, 1994 **Child Support and the**

multi case study of academic literacy is the first research to assume the premises of the Multiliteracies Project of the New London Group of literacy researchers It takes a multimodal view of literacy not limited to reading and writing and sets about to uncover the Design the flexible structuring of rules and principles that students and teachers both follow and create in college courses This Design takes the form of a game in which students channel content from sources such as texts and lectures to assessments of various kinds Students are then rewarded in the form of grades to the extent that the content they

display matches the criteria the professor sets up The students in this study had to determine which content would or would not match these criteria which of six types of information facts concepts connections processes principles or metainformation e g rhetorical patterns were desired and how best to supply them To move content from source to target they used four operations These include exposure making themselves conscious of the information extraction a process of selecting information manipulation changing or synthesizing information and display showing the information Greater awareness of this Design led to greater success Pedagogical implications of this model include establishing a more realistic curricula for academic literacy programs and educating professors to better match grading criteria with learning goals **Killing the**

Handbook of Measurement Issues in Family Research Sandra L. Hofferth, Lynne M. Casper, 2013-04-15 Dramatic societal changes have reshaped America's families Young adults have delayed marriage and cohabitation before marriage has become commonplace One in three women giving birth is unmarried and the proportion of children under 18 living in single parent families rose from 23 to 31 percent between 1980 and 2000 reflecting increased rates of both nonmarital childbearing and divorce This authoritative volume offers a blueprint for addressing some of the most important measurement issues in family research and it points out potential pitfalls for researchers and students who may not be familiar with data quality issues The Handbook of Measurement Issues in Family Research will appeal to scholars in the departments of psychology sociology and population studies as well as researchers working in governmental agencies [The Case for Marriage](#) Linda Waite, Maggie Gallagher, 2002-03-05 A groundbreaking look at marriage one of the most basic and universal of all human institutions which reveals the emotional physical economic and sexual benefits that marriage brings to individuals and society as a whole The Case for Marriage is a critically important intervention in the national debate about the future of family Based on the authoritative research of family sociologist Linda J Waite journalist Maggie Gallagher and a number of other scholars this book's findings dramatically contradict the anti marriage myths that have become the common sense of most Americans Today a broad consensus holds that marriage is a bad deal for women that divorce is better for children when parents are unhappy and that marriage is essentially a private choice not a public institution Waite and Gallagher flatly contradict these assumptions arguing instead that by a broad range of indices marriage is actually better for you than being single or divorced physically materially and spiritually They contend that married people live longer have better health earn more money accumulate more wealth feel more fulfillment in their lives enjoy more satisfying sexual relationships and have happier and more successful children than those who remain single cohabit or get divorced The Case for Marriage combines clearheaded analysis penetrating cultural criticism and practical advice for strengthening the institution of marriage and provides clear essential guidelines for reestablishing marriage as the foundation for a healthy and happy society A compelling defense of a sacred union The Case for Marriage is well written and well argued empirically rigorous and learned practical and commonsensical William J Bennett author of The Book of Virtues Makes the absolutely critical point that marriage has been misrepresented and misunderstood The Wall Street Journal www.broadwaybooks.com **Challenging the Public/private Divide** Susan B. Boyd, 1997-01-01 Feminist scholars in disciplines ranging from law to geography

challenge our traditional notion of a public private divide in legal and public policy in Canada and internationally *Making the Best of Semen* Anita Bernstein, 2025-12-02 Making the Best of Semen shows how and why regulation can manage the only substance that both makes people and makes people sick an urgent American imperative especially with the constitutional right to abortion now gone and a national government inclined to enlarge semen's two superpowers The Rights Revolution Samuel Walker, 1998 Walker offers a vigorous defense of the rise of personal rights in America conceding that the expansion of individual rights does present problems but insisting that the gains far outweigh the losses
