Josephine-De-France, 2016-04-30 What Makes a Bitch or a Bully I have to ask the question The bitch versus the bully or are they one of the same thing So let's start to think take a moment and assess what's it all about well here we go the bitch the one big thing that gives a bitch away is the huddles in the corner of the room or office whispering and looking across at you making you feel intimidated don't you just hate that As an individual you become paranoid for a while however I was slightly deaf when I was younger I had learnt a little skill of lip reading so I could tell every word the huddles were saying Not many people know I can do this and sometimes it is an advantage but actually on this occasion it was not as what I heard was a lot crueller than what I could have ever imagined This is what inspires me to write this book and include some descriptions of bullies because I really feel that the bitch is a form of bullying in disguise You will see that I sense that bullying does not have to be physical as you will hopefully become aware as it can be mental and or verbal causing much more upset not just at the time but for some time going forward into the future Flying Squirrels Marcia Zappa, 2015-08-01 Ever heard of a squirrel

**Digging the Seam** Ian W. Macdonald, Simon Popple, 2012-11-15 The 1984 5 Miners Strike was one of the most important political events in British history It was a bitter dispute that polarised public opinion divided nation and families alike and the results in terms of the destruction of centuries of industrial and cultural tradition are still keenly felt The social and political consequences of this dispute which have resonated for the past quarter century have been subject to detailed analysis and reflection The consequences for the arts and popular culture are less clearly mapped This book attempts to begin to redress this imbalance and signal the importance of popular cultural activity both during and after the strike The essays that appear in this book represent diverse and multidisciplinary responses to the questions raised by the strike and its relationships to a broad range of cultural forms which include literature film photography music theatre television drama and documentary painting public art and heritage interventions These responses are organised around four themes that map the interrelatedness between cultural representation cultural intervention and historical memory The first deals with the idea of mining culture and pre strike representations in popular sentiment film and literature The second examines the role cultural forms played directly in the context of the strike as a means of political commentary activism and fund raising The third looks at subsequent cultural renderings or reconstructions of the strike and the final section looks at the current process of memorialisation and commemoration The book draws together a range of voices from academia heritage cultural and mining backgrounds and offers both a historical perspective on the range of cultural activities in the course of the dispute and subsequent readings and re readings It aims both to provide a record of cultural intervention and stimulate new dialogues and perspectives
