Lancaster, Morton Manus, 2005-05-03 Alfred's Top Hits series has overwhelmingly been accepted by students and teachers. This series combines just the right combination of hits from Broadway, Hollywood, television, and recordings. As you might expect from Alfred, this series offers a rare combination of great music arranged with care and creativity. Your beginning and intermediate students can savor the excitement of playing pop music and reap the benefits from making practicing more fun and rewarding. *Why Regions Matter: Small Worlds in Comparative Perspective* Ailsa Henderson, 2014-06-11 Bringing together experts on regionalism and federalism, this collection explores the impact of legislative regions on parties and voters. It reflects on the 1980 publication of *Small Worlds* by David Elkins and Richard Simeon, which outlined how and why voters and policies differ across Canadian provinces. Using recent data, the essays in this collection provide a comparative re-examination of the impact of regions. The book explores attitude divergence in Canada and in the US, the role and impact of regional parties in Quebec, Scotland, and Bavaria, the impact of multi-level governance on how citizens understand and discharge their duties, and the capacity of sub-state political systems to influence general political attitudes. The result is an empirical and analytical contribution to regionalism and federalism studies that demonstrates how and why regions matter. This book was published as a special issue of *Regional and Federal Studies*. **The Book of Circles** Manuel

Lima, 2017-05-02 In this follow-up to his hugely popular *The Book of Trees* and *Visual Complexity*, Manuel Lima takes us on a lively tour through millennia of circular information design. Three hundred detailed and colorful illustrations from around the world cover an encyclopedic array of subjects: architecture, urban planning, fine art, design, fashion, technology, religion, cartography, biology, astronomy, and physics, all based on the circle, the universal symbol of unity, wholeness, infinity, enlightenment, and perfection. Clay tokens used by ancient Sumerians as a system of recording trade are juxtaposed with logos of modern retailers like Target. Venn diagrams are discussed alongside the trefoil biohazard symbol, symbols of the Christian trinity, and the Olympic rings, and a diagram revealing the characteristics of ten thousand porn stars displays structural similarities to early celestial charts placing the earth at the center of the universe. Lima's introduction provides an authoritative history of the circle, and a preface describes his unique taxonomy of the many varieties of circle diagrams.
