Strategic Information Systems Henry E. Firdman, 1991-06-01 **Strategic Information Systems** Genrikh Romanovich Firdman, 1991 Strategic Information Systems SIS information management programs based on a carefully defined corporate vision are likely to play an increasingly important role in industry *Computerworld*, 1992-04-27 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network Engineered in Japan Jeffrey K. Liker, John E. Ettlie, John Creighton Campbell, 1995 Engineered in Japan presents a unique and comprehensive examination of technology management in the most successful Japanese companies unique in that all chapters go beyond superficial descriptions of stylized practices to look in depth at particular issues often contradicting or qualifying the conventional wisdom comprehensive in that it covers the entire technology life cycle from basic R D to development engineering to manufacturing processes to learning from the Japanese Each chapter is based on original research by noted scholars in the field and identifies technology management practices that have become a major source of competitive advantage for highly successful Japanese companies Engineered in Japan documents the best practices from such companies as Toyota Hitachi Toshiba and Nippondenso and discusses how these technology management practices can be usefully adopted in other cultural contexts Going beyond past observations the authors all delve below the surface of Japanese management approaches They look more closely than has been done before at how particular methods are applied and they identify some new practices that have not yet been highlighted in books on Japanese methods Presenting recent data that contradict some conventional thinking about U S Japanese differences they look at old techniques from a new perspective U S managers can perhaps learn more from the process of creation in Japan and the organizational structures that support innovation say the editors in their introduction than from the particular approaches tools and technologies created A running theme throughout the book is that Japanese managers and engineers tend to think in terms of systems focusing not just on the parts but on the connections between them Engineered in Japan is must reading for technology managers and engineers along with anyone interested in Japanese business engineering and management Evolution and Challenges in System Development Jozse Zupancic, W. Gregory Wojtkowski, Wita Wojtkowski, Stanislaw Wrycza, 2012-12-06 This book is a result of the Seventh International Conference on Information Systems Development Methods and Tools Theory and Practice held in Bled Slovenia September 21-23 1998 The purpose of the conference was to address issues facing academia and industry when specifying developing managing and improving information computerized systems During the past few years many new concepts and approaches emerged in the Information Systems Development ISD field The various theories methods and tools available to system developers also bring problems such as choosing the most effective approach for a specific task This conference

provides a meeting place for IS researchers and practitioners from Eastern and Western Europe as well as from other parts of the world. An objective of the conference is not only to share scientific knowledge and interests but to establish strong professional ties among the participants. The Seventh International Conference on Information Systems Development ISD 98 continues the concepts of the first Polish Scandinavian Seminar on Current Trends in Information Systems Development Methodologies held in Gdansk Poland in 1988. Through the years the Seminar developed into the International Conference on Information Systems Development. ISD 99 will be held in Boise Idaho. The selection of papers was carried out by the International Program Committee. All papers were reviewed in advance by three people. Papers were judged according to their originality, relevance, and presentation quality. All papers were judged only on their own merits independent of other submissions.
