Strategic Issues And Options For The Quadrennial Defense Review:

Strategic Issues and Options for the Quadrennial Defense Review Paul K. Davis, Richard L. Kugler, Richard John Hillestad, 1997 This paper develops and examines a wide range of strategic options for the defense program and posture

American Strategy: Issues and Alternatives For the Quadrennial Defense Review Steven Metz, 2022

Quadrennial Defense Review: Future Reviews Could benefit from Improved Department of Defense Analyses and Changes to Legislative Requirements , Quadrennial Defense Review Henry L. Hinton, Jr., 2002 Congress mandated that every 4 years the Dept of Defense DoD conduct a review to examine the national defense strategy and its implications for force structure modernization infrastructure and the budget Because the 2001 review which was issued on Sept 30 2001 will have a significant impact on the DoD s planning and budget the General Accounting Office GAO was asked to assess 1 the strengths and weaknesses of DoD s conduct and reporting of the review and 2 whether changes in the Quadrennial Defense Review QDR legislation could improve the usefulness of future reviews Charts and tables **The Quadrennial Defense Review** United States. Congress. House. Committee on National Security, 1997 **Defence Planning as Strategic Fact** Henrik Breitenbauch, André Ken Jakobsson, 2020-06-04 Defence Planning as Strategic Fact provides and elaborates on an upstream focus on the variegated organizational political and conceptual practices of military civilian administrative and political leaderships involved in defence planning offering an important security and strategic studies supplement to the traditional downstream focus on the use of force The book enables the reader to engage with the role of ideas in defence planning of organizational processes and biases path dependencies and administrative dynamics under the pressures of continuously changing domestic and international constraints The chapters show how defence planning must be seen as a constitutive element of defence and strategic studies that it is a strategic fact of its own which merits particular practical and scholarly attention As defence planning creates the conditions behind every peace upheld or broken and every war won or lost Defence Planning as Strategic Fact will be of great use to scholars of defence studies strategic studies and military studies This book was originally published as a special issue of Defence Studies *Report of the Quadrennial Defense Review* William S. Cohen, 1997 Every five years DoD prepares a review of global defense capabilities extending to 2005 the global security environment defense strategy alternative defense postures forces force readiness transforming U S forces for the future achieving a 21st century defense infrastructure comments by the chairman of the Joint Chiefs of Staff Glossary Assessment by the Nat Defense Panel *The Revolution in Strategic Affairs* Lawrence Freedman, 2020-10-28 Rapid developments in information technology and precision weaponry are said to herald a revolution in military affairs RMA making possible quick and decisive victories with minimal casualties and collateral damage But has such a revolution taken place The issues that drive conflict will persist and many of the technical advances associated with the RMA will not necessarily produce a transformation in the nature of warfare The end of the Cold War has highlighted

another revolution one in political affairs Major powers appear less likely to go to war with one another than they are to intervene in conflicts involving weak states with potential opponents including militia groups drug cartels and terrorists RMA technology may be less suited to conflicts such as these If the cumulative effect of these changes has produced a revolution it is a revolution in strategic as much as military affairs This paper argues that the RMA is the practical expression of a Western Way of Warfare the key features of which are professional armed forces intolerance of casualties and intolerance of collateral damage the key technological and conceptual components of the RMA were in place by the early 1970s The trend has therefore been evolutionary rather than revolutionary The significant difference is in the new political setting of the end of the Cold War and the revolution in perceptions of Western particularly US conventional military strength brought about by the Gulf War of 1991 the Gulf conflict could mark the start of a true revolution if future battles offer similar opportunities to exploit the RMA s technology However since the US and its allies appear unbeatable when fighting on their own terms future opponents will fight differently the West will therefore face opponents who will follow strategies that contradict the Western Way of Warfare They will avoid pitched battles will exploit the West s reluctance to inflict civilian suffering and will target their opponent s domestic political base as much as its forward troops The problem for the West is not how to prevail but how to do so in an acceptable manner The more warfare becomes entwined with civilian activity the more difficult it is to respond with the type of decisive and overwhelming military means embodied in the RMA The RMA does not create a situation in which information is the only commodity at stake and so does not offer the prospect of a virtual war The new circumstances and capabilities do not prescribe one strategy but extend the range of strategies available The issue underlying the RMA is the ability of Western countries in particular the US to follow a line geared to their own interests and capabilities

The Uncertainty Doctrine Alexandra Homolar,2023-09-14 The first account of narrative politics in US defense policy surrounding the end of the Cold War This book will appeal to a broad readership group including Foreign Policy Analysis Critical Security Studies and International Relations It will also be useful for courses on American politics

Managing Quadrennial Defense Review Integration John Y. Schrader,Roger Allen Brown,Leslie Lewis,2001 The problems and issues that the research team tracked during QDR 1997 are far from being resolved and there is no clear guidance on what will be demanded in QDR 2001 The services remain skeptical of the Joint Staff dealing with tough issues that could redirect their own programmatic decisions Although there is promise of improvement in organization and process the most glaring problems are the lack of a comprehensive approach to treating resources and understanding the effects of resources on strategy adn transformation alternatives It is essential that good working relationships be established now with a clear understanding of the different responsibilities and capabilities of the Joint Staff and the Office of the Secretary of Defense OSD It will be important to identify an appropriate set of mega issues with an appropriate set of supporting specific issues and initiate studies and analysis on the most important ones

Societal Adaptation to Climate Variability and Change Sally M. Kane,Gary W.

Yohe,2000-05-31 Changes in climate and climate variability have an effect on people s behaviour around the world and public institutions have an important part to play in influencing our ability to respond to and plan for climate risk We may be able to reduce climate risk by seeking to mitigate the threat on the one hand and by adapting to a changed climate on the other Another theme of the book is the integrated role of adaptation and mitigation in framing issues and performing analyses Adaptation costs fall most heavily on the poor and special attention needs to be paid to adaptation by the poorest populations An integrating framework is also presented to provide the context for an expansive typology of terms to apply to adaptation The 12 papers collected here use methods from a variety of disciplines and focus on different time frames for decision making from short term to the very long term Readership Technically trained readers familiar with the policy issues surrounding climate change and interested in learning the scientific underpinnings of issues related to societal adaptation

Quadrennial Defense Review 2001 John Y. Schrader,Leslie Lewis,Roger Allen Brown,2003 As an After action report this documented briefing summarizes analysis performed for the Joint Staff in preparation for and in support of the second Quadrennial Defense Review QDR The authors concluded that QDR 2001 like QDR 1997 was useful in providing information on requirements for military capabilities and resource The report recommend that the Chairman of the Joint Chiefs of Staff use existing processes to routinely address cross cutting issues from a military perspective

Implications of Modern Decision Science for Military Decision-support Systems Paul K. Davis,Jonathan Kulick,Michael Egner,2005 A selective review of modern decision science and implications for decision support systems The study suggests ways to synthesize lessons from research on heuristics and biases with those from naturalistic research It also discusses modern tools such as increasingly realistic simulations multiresolution modeling and exploratory analysis which can assist decisionmakers in choosing strategies that are flexible adaptive and robust

Exploratory Analysis of "the Halt Problem" Paul K. Davis,Manuel J. Carrillo,Rand Corporation,1997 This briefing describes a simple model for aggregate level capabilities analysis of halt phase issues the aim is to accomplish an early halt in the defense of Saudi Arabia

Department of Defense Appropriations for 2003 United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense,2004 QDR 2001: Strategy-Driven Choices for America's Security , **Prevention, Pre-emption and the Nuclear Option** Aiden Warren,2012-02-20 This book seeks to analyse the Bush Doctrine s controversial preemption prevention policy and its willingness to place the nuclear option to the fore of US security strategy Additionally it will evaluate the first two years of the Obama administration and its attempts adjust and refine US nuclear strategy if at all

Nuclear Transformation J. Wirtz,J. Larsen,2016-04-30 As part of its general rethinking of America s global strategy the Bush Administration initiated a re examination of America s nuclear doctrine that has generated considerable controversy with its focus on maintaining a reliance on nuclear weapons and potentially increasing willingness to use them Here a group of leading strategic analysts examine the background to the re evaluation issues of implementation and potential implications

internationally *Handbook of Defence Politics* Isaiah "Ike" Wilson III, James J.F. Forrest, 2011-03-28 Issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs However the dramatic changes to the global system that have taken place since the end of the Cold War and particularly since the terror attacks on the USA on 11 September 2001 have amplified the world's attention toward political and policy issues of national regional and global security The focus of this volume is on examining the fundamental causes of and defence policy responses to this new post 9 11 security environment Edited by Isaiah Ike Wilson III and James J F Forest of the US Military Academy West Point USA this volume is international in scope with pieces written by experts in the field offering a collection of up to date and balanced insights on key contemporary issues of concern to defence policymakers The book will be an invaluable reference tool for academics and students researchers in international relations policymakers media professionals and government officials *Major management challenges and program risks Department of Defense.* , 1999 This report addresses the major performance and management challenges confronting the Department of Defense DOD Taken together these challenges if not addressed can adversely affect the Department's operational effectiveness The report also addresses corrective actions that DOD has taken or initiated on these issues including DOD's blueprint for a strategy based balanced and affordable defense program as outlined in the May 1997 Report of the Quadrennial Defense Review and the reforms described in its November 1997 Defense Reform Initiative Report and further actions that are needed For many years we have reported significant management problems at DOD These problems can be categorized into two areas 1 systemic management challenges dealing with financial management information management weapon systems acquisition and contract management and 2 program management challenges dealing with infrastructure inventory management and personnel These problems cut across DOD's program areas
