

Strategic Planning Policy

1. Introduction

The purpose of this policy is to establish a structured and systematic approach to strategic planning at <Company Name> that aligns with the organisation's mission, vision, and objectives, particularly in risk management. The policy ensures that strategic plans consider potential risks and opportunities, facilitating informed decision-making and long-term resilience.

2. Scope

This policy applies to all strategic planning activities conducted by <Company Name>, including the identification, assessment, and mitigation of risks. It covers all departments and business units, ensuring a consistent approach to strategic planning across the organisation.

3. Policy Statement

At <Company Name>, strategic planning is a continuous, dynamic process to assess and address risks that may affect our goals. The planning process is integrated into our risk management practices to ensure that risk assessments inform both short-term and long-term objectives. This approach supports <Company Name>'s commitment to operational excellence, compliance, and sustainable growth.

4. Guiding Principles

The following principles guide the strategic planning process at <Company Name>:

- **Alignment:** Strategic planning must align with the organisation's mission, vision, and core values, ensuring that all activities contribute to the overall strategic direction.
- **Risk Awareness:** Embedding risk assessments into all phases of the strategic planning process to anticipate and mitigate potential challenges.
- **Integration:** Integrating strategic planning with other key business processes, such as financial planning and operational planning, to ensure a holistic view of the organisation's future.
- **Transparency:** Providing clear communication and documentation throughout the planning process, ensuring all stakeholders are informed and engaged.
- **Flexibility:** Maintaining the flexibility to adapt the strategic plan as market conditions and internal capabilities evolve, ensuring the organisation remains agile and responsive.

Strategic Planning and Policy William Richard King, David I. Cleland, 1978 Planning strategy and policy Strategic planning systems Outputs of the planning system The planning process The planning decision subsystem The strategic information subsystem The planning organizational subsystem The planning management subsystem Management Policy and Strategy George Albert Steiner, John B. Miner, Edmund R. Gray, 1986 **Strategic Planning & Policy** 3G E-learning LLC, 2023 *Strategic Management* Dan Schendel, Charles W. Hofer, 1979 *British Planning Policy in Transition* Mark Tewdwr-Jones, 2003-09-02 First Published in 1995 This book aims to consider the statutory planning policy system in Britain at the present time 1995 and predominantly takes as a starting point the development of the current processes in the period since 1989 90 The choice of time period for the study is deliberate and has been governed by two main issues First it coincides with the publication in 1989 of a government White Paper on the future of development plans This paper had immense implications for the statutory planning system and effectively precipitated a new era for the future framework of planning policy Secondly 1990 marks the end of Margaret Thatcher's period as Prime Minister and since we are discussing British planning policy within the context of changing political climates it is appropriate to assess the statutory planning process under John Major's administration The resultant essays which have been assembled therefore take the planning policy changes of the last five years as the focus of study and provide a context within which an in depth analysis of inter governmental planning relations may occur **SME Policy Index Latin America and the Caribbean 2019 Policies for Competitive SMEs in the Pacific Alliance and Participating South American countries** OECD, CAF Development Bank of Latin America, 2019-04-24 This first application of the Index methodology in the Latin American and Caribbean region covers the four Pacific Alliance member countries Chile Colombia Mexico Peru and three participating South American countries Argentina Ecuador Uruguay **The Planning Polity** Mark Tewdwr-Jones, 2005-06-27 Planning is not a technical and value free activity Planning is an overt political system that creates both winners and losers The Planning Polity is a book that considers the politics of development and decision making and political conflicts between agencies and institutions within British town and country planning The focus of assessment is how British planning has been formulated since the early 1990s and provides an in depth and revealing assessment of both the Major and Blair governments terms of office The book will prove to be an invaluable guide to the British planning system today and the political demands on it Students and activists within urban and regional studies planning political science and government environmental studies urban and rural geography development surveying and planning will all find the book to be an essential companion to their work *The National Planning Policy Framework* Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2011-12-21 This report recommends that a default answer of yes to development should be removed from the National Planning Policy Framework NPPF The phrase significantly and demonstrably must also be removed from the

presumption that all planning applications should be approved unless the adverse effects significantly and demonstrably outweigh the benefits because it adds a further barrier to the achievement of truly sustainable development The definition of sustainable development is inadequate and often conflated with sustainable economic growth The framework gives the impression that greater emphasis should be given in planning decisions to economic growth undermining the equally important environmental and social elements of the planning system The NPPF should require local planning decisions to be taken in accordance with the presumption in favour of sustainable development consistent with Local Plans It is unacceptable that so many parts of England have yet to develop and adopt a new Local Plan Clarity within the NPPF has suffered in the pursuit of brevity Inconsistent drafting could create gaps in planning policy or guidance that could lead to a huge expansion in the size of Local Plans as local authorities attempt to plug those gaps The test for viability as currently worded risks allowing unsustainable developments to go ahead if measures to make them sustainable are deemed to make them unviable for the developer MPs also call for a sensible transition period to give local authorities time to put Local Plans in place where they have not already done so

Planning in Britain Peter Roberts, Kevin Thomas, Gwyndaf Williams, 2014-02-04 Metropolitan Planning in Britain is the first comparative analysis and assessment of metropolitan areas and their strategic planning for almost two decades. Changes in population distribution, styles of local government, business practices and attitudes to the environment have all had an impact on cities in recent years which planners and other policy makers must take into consideration. Based on a series of research projects and the activities of a study group supported by the Regional Studies Association, the book examines in detail nine major urban areas, their specific characters and requirements, and how metropolitan planning is adapting to fulfil those requirements. It also discusses the possible future evolution of metropolitan planning, especially in the light of new regional arrangements and devolution. *Federal Yellow Book*, 2005.
