Strategic Renewal:

Strategic Renewal Michael Mische, 2001 For undergraduate Executive Education and MBA BMBA courses in Strategy Organizational Management Organizational Development Strategic Planning and Competitive Strategy This text focuses on the critical aspects and qualities that high performance companies share irrespective of industry and examines how these qualities can be used as a basis for strategic renewal revitalization and high performance **Strategic Management** Henk W Volberda, Rick M. A. Hollen, Joana R. Pereira, Jatinder S. Sidhu, Kevin Heij, 2024-01-10 In the quest for competitive advantage navigating change can be daunting Following a unique four part structure focussing on and confronting strategic issues sensing opportunities and threats choosing strategies and transforming organizations this essential textbook offers a fresh and provocative perspective on strategic management *Strategic Renewal* Aybars Tuncdogan, Adam Lindgreen, Henk W Volberda, Frans van den Bosch, 2019-03-15 Strategic Renewal is an original research anthology offering insight into a subject area which although critical for the sustained success of organizations has received relatively little attention as distinct from the more general phenomenon of strategic change Firstly by providing a summary of the literature this research anthology helps graduate students and new researchers grasp the current state of affairs in the field Secondly this research anthology will help update the knowledge base of the existing researchers in the field By bringing together various studies the research anthology determines the core concepts of the field and elucidates the key gaps and future research areas Through contributions building on the knowledge bases of other disciplines this research anthology develops an interdisciplinary research agenda giving the reader an in depth understanding of the mediating moderating and antecedent variables concerning strategic renewal Strategic Renewal aims to provide a state of understanding to the subject as well as a clear picture of the cross disciplinary landscape that informs the subject Thus this research anthology is essential reading for managers consultants and other practitioners as well as students and scholars of business **Elgar Encyclopedia of Family Business** Carole Howorth, Allan Discua Cruz, 2024-03-14 The intertwining of family relationships with business imperatives provides a fascinating but complex arena for study This Encyclopedia is a valuable resource because family business studies are necessarily multi disciplinary and wide ranging drawing on entrepreneurship management governance economics ethics business history as well as family studies Governing Continuous Transformation Bijan Khezri, 2022-05-19 This book transposes the free energy principle as espoused by the neuroscientist Karl Friston to strategic governance and forming the new concept of Free Energy Governance FEG This concept lays the foundation for a new logic of governing continuous transformation In addition to guiding the structure cognition and capabilities of success in strategic renewal FEG provides a systematic and practice relevant approach to predicting a firm s potential for entropy Using this new concept the author shows that the success of continuous strategic renewal and business innovation elements crucial for firm survival are determined by the triplet of a firm s structure cognition and dynamic board capabilities How to govern large

organizations in times of high uncertainty and permanent change To answer this pressing question Bijan Khezri has been the first to apply the free energy principle to management science This book is an eyeopener for every reflective leader Professor Oliver Gassmann Director of the Institute of Management and Technology University of St Gallen I really enjoyed reading this book It was both exciting and reassuring to see how the same fundamental ideas can be found in fields as disparate as nonequilibrium steady state physics and theories of governance Professor Karl J Friston Director of the Wellcome Centre for Human Neuroimaging Using a term often applied to best selling novels it is a page turner in which I learned something new in every chapter Every board member all executives and scholars interested in strategic leadership and governance must read this book if they wish to remain relevant in the coming transformational decades Michael A Hitt University Distinguished Professor Emeritus Mays Business School Texas A M University Former President Academy of Management and former Editor Academy of Management Journal We could not ask for a better author to initiate this new conversation in the board research community and convey its merits to the world of board practice Martin Hilb Professor Emeritus University of St Gallen Founder and Managing Partner International Board Foundation and President of Swiss Institute of Directors Set against a wide swath of literature the book impressively makes the case for a new logic of strategic renewal in which the board of directors plays a central role Professor Constance E Helfat Tuck School of Business at Dartmouth

Entrepreneurship Álvaro Cuervo, Domingo Ribeiro, Salvador Roig, 2007-05-26 With so many theories and so many scientific bodies implicated in its study Entrepreneurship can at times seem like a veritable jungle where finding one's way can prove to be difficult This book functions as a map locating the most important issues those where an acceptable consensus already exists and those that remain open to discussion In so doing we have presented the accounts of distinguished explorers in their own words The book contains three parts reflecting the synergistic approach opted for by the editors Concepts Theory and Perspective that correspond to previously published academic articles that were either important in the scientific consolidation of Entrepreneurship or that present challenges for the future Strategic Alliances, Mergers and Acquisitions J. M. Ulijn, Geert Duysters, Elise Meijer, 2010-01-01 Organizational flirts and marriages alliances mergers and acquisitions are dramatic examples of how soft cultures can produce hard facts of success or failure Decisions born from human vanity can lead to destruction of human capital The chapters selected by Ulijn Duysters and Meijer illustrate the many facets of organizational family life for the scholar and hopefully for the decision maker who considers another move Geert Hofstede author of Culture's Consequences This unique book focuses on the link between different types of culture national corporate professional and the success of strategic alliances mergers and acquisitions Over the past decades we have seen a significant increase in the number of strategic alliances mergers and acquisitions Despite this proliferation many recent studies have reported high failure rates This failure is often attributed to cultural differences between partners which has led to a growing body of literature on the subject To date most of these studies have focused on

national and corporate culture whereas this book also places particular emphasis on the importance of culture at the professional level The authors clearly show that all three levels of culture may have a profound impact upon the ultimate success or failure of alliances mergers and acquisitions Researchers in the field of international business strategic management and strategic alliances mergers and acquisitions will find this book to be of invaluable interest Managers in multinational corporations and international business students should also not be without this important resource

Contemporary dilemmas of management Magdalena Władysława Dołhasz,2012 Business Transfers, Family Firms and Entrepreneurship Bérangère Deschamps,Audrey Missonier,Catherine Thévenard-Puthod,Paulette Robic,Dominique Barbelivien,2020-12-13 Business transfer refers to the transfer of ownership and leadership from one or more outgoing owner manager s to one or more incoming owner manager s Apart from all the company s material assets it presupposes that

information relationships know how and social capital are also transmitted from one to the other While much of the research on entrepreneurship has focused on new business ventures few studies have considered business transfers as an alternative way of embarking on entrepreneurial activities Business Transfers Family Firms and Entrepreneurship provides the international community with a more comprehensive state of the art of business transfer studies which will enrich readers understanding The business transfer is examined through different prisms family businesses internal business transfers to employees external business transfers and woman in business transfers This book deals with business transfer as a whole following a logic of continuity and sustainability for the transferred firm It offers a refreshing point of view on business transfers in terms of both the process and the actors and from both the seller s and the buyer s sides It presents the research on all types of business transfer including internal and external transfers and will be of interest to researchers academics and students in the fields of entrepreneurship small business management family business and strategic management It can also be instructive for practitioners and stakeholders involved in a business transfer **Entrepreneurial Strategic Content** G. Hayton,2016-12-30 Corporate entrepreneurship is about remaking organizations it affects organizational cultures and systems which in turn influence the magnitude direction and content of corporate entrepreneurship activities This Handbook hopes to synthesize what we know and clarify what we need to know about key issues such as strategic renewal innovation and venturing activities within established companies giving direction to future research Innovating Strategy Processes Steven W. Floyd,Johan Roos,Claus D. Jacobs,Franz W. Kellermanns,2009-02-09 Innovating Strategy Process presents a series of reflective essays by established and emerging scholars on the subject of innovation considering it both as an outcome of strategy and as a process in itself Contains new ideas and rich case descriptions that will trigger creative thinking about how to design a more innovative strategy process Offers new conceptual frameworks for analyzing and designing strategy process Addresses cutting edge topics such as play as the means and art as the impetus for strategy making the role of emotion in new venture decision making and science and entrepreneurship as a source of innovative strategies Signals the future direction of the field **Building Strategy from the Middle** Steven W. Floyd,Bill Wooldridge,2000-03-15 For much of its history the academic literature in strategy has focused on the actions and decisions of top managers The argument of Building Strategy From the Middle is that rapidly developing technologies and competitive dynamics heighten needs for enhanced organizational competencies which puts a premium on new ideas generated at the operating level and creates a shift in the strategic responsibilities within organizations Strategic leadership now occurs not only at the top but at all levels

of the organization This ground breaking new book reframes the perspective taken in most strategy research in two key ways by describing organizational renewal from a middle level perspective and by reconceptualizing the theoretical basis for strategy process research Part I of the book Foundations reviews the existing literature on the strategy process including recent literature on strategic change renewal Part II New Theoretical Horizons builds the theoretical basis for a middle level perspective focusing on knowledge development social network analysis and organizational trust Part III Middle Level Perspective moves from synthesizing existing research toward the development of a model for conducting research from a middle level perspective

Transformative Strategies Brian Tjemkes,Oli Mihalache,2021-04-29 Transformative Strategies is based around the idea that strategic thinking is critical for organizational success in today s environment The financial crisis continuing economic uncertainty digitalization environmental issues and social issues involved in globalization present strategic problems for enterprises Unlike other textbooks that take a standard solutions based approach Transformative Strategies provides readers with a way to develop strategies that fit their own complex situations and shows how models may be applied in different ways to different problems Each of the four key elements affecting the business environment globalization disruption collaboration and responsibility are addressed as a set of tensions in eight areas global competition business model innovation digital strategizing business eco systems corporate social responsibility top management teams and trans cultural leadership in a globalized world This tension based pedagogy enables readers to shift from dichotomized thinking such as exploring or exploiting to transformative thinking such as exploring and exploiting exploring through exploiting and readers are challenged to solve real problems that companies face encouraging them to acknowledge the broader context in which organizations operate and to analyze the problem from multiple perspectives Each chapter is structured to aid engagement and discussion including a discussion of the tension tied to the chapter s topic learning objectives theoretical frameworks real life case studies exercises and reflective questions A highly practical book that encourages readers to develop solutions that fit their own complex problems it will be particularly suitable for those studying strategic management as part of an MBA MA or MSc in Management as well as those in executive education It will also appeal to all those interested in learning how to lead and transform organizations towards impact purpose and relevance Online resources include discussions of the case studies supplementary problems for class discussion and an instructors manual outlining the pedagogical approach

Determinants of the Performance of Strategic Initiatives Wolfgang Kaltenbrunn,2009-11-02 Foreword Since the first studies by Bower and Burgelman in the early 1980 s on the phenomenon of strategic initiatives the use of strategic initiatives in the strategic management of diversified organizations now is omnipresent Strategic initiatives are seen as efficient answers of management teams for pressing challenges By making use of strategic initiatives managers can proceed flexibly and with entrepreneurial vigor from broad ideas toward specific commitments Managing initiatives is perceived as a complex challenge by most managers Empirical studies show that about

70% of all strategic initiatives fail to reach their goals This statistic shows us that successful management and implementation of strategic initiatives requires a multitude of diverse managerial skills To date the complexity of strategic initiatives is most often not fully taken into account in strategic management research Almost all studies investigating strategic initiatives have concentrated either on the external or internal organizational context or have solely identified contextual factors that undermine the successful implementation of strategic initiatives This underscores the fact that most prior research on the relationship between the organizational context and strategic initiatives is too narrow and suggests the need for a more holistic approach
