Strategic Planning And Control A New Dimension To Asian Business:

Strategic Planning and Control Terence Hon H. Kwai, 1986 New Dimensions of Economic Globalization Ramkishen S. Rajan, Rajiv Kumar, Nicola Virgill, 2008 The phenomenon of South South foreign direct investment flows particularly those arising from multinational companies from China and India has generated considerable interest among policymakers academics and the press This book consists of a set of papers dealing with this area *A Bibliography of Asia-Pacific Studies: China and Hong Kong* Pai-nan Rashid Wu, 1992 *Risk Management Strategies of Japanese Companies in China* Kristin Vekasi, 2019-06-14 In the context of political tensions and rising economic interdependence between Japan and China this book studies how Japanese multinational companies try to minimize damages and manage their own fear and uncertainty to sustain their business interests Using a qualitative approach including over 150 interviews with Japanese and Chinese business and industry leaders combined with statistical analysis of unique firm level data this book brings a firm level view to this crucial case of political conflict amid economic interdependence It argues that there is wide variation in the degree of material damages Japanese multinationals sustain in the aftermath of political disputes and how threatening they perceive the risks of political conflict to be This book then goes on to evaluate the different responses to risk from promoting Japan's culture through privately funded tactics and building common cause with the government to diversifying a portion of assets abroad and even leaving China entirely Presenting a new angle on economic globalization in the Asia Pacific region *Risk Management Strategies of Japanese Companies in China* will be useful to students and scholars of Asian politics business and economics as well as international political economy **New Dimensions Of Economic Globalization: Surge Of Outward Foreign Direct Investment From Asia** Rajiv Kumar, Ramkishen S Rajan, Nicola Virgill, 2008-05-27 The phenomenon of South South FDI flows particularly those arising from multinational companies from China and India has generated considerable interest among policymakers academics and the popular press in recent times This phenomenon raises several questions such as What is behind the rise of such intra regional investment flows What is the magnitude of such flows and can they be expected to persist accelerate over time What are the challenges faced by emerging market multinationals and the future prospects of intra Asian FDI flows This book written by top scholars from academia international organizations as well as think tanks consists of a set of papers focusing on these issues The book is unique in its coverage focusing on China India and Southeast Asia rather than limiting itself to a sub regional or country specific focus The chapters in this book highlight important policy issues but are supported with relevant data and empirics with rigorous empirical analysis being applied to important practical policy issues The book also provides pertinent overviews of recent research on the questions explored While the chapters have been crafted to be able to stand up to academic scrutiny they are also written in a manner that makes them easily accessible to all policymakers students and business financial journalists who are interested in Asia and in the emergence of South South FDI flows Global Strategic Management Gerardo R.
