Carlton, 2005-09-08 The West s Road to 9 11 offers a detailed explanation of the handling of the challenge of terrorism by the USA the UK and the West over the last thirty years David Carlton contends that anti terrorist rhetoric by the Governments of the West frequently masked indifference to the activities of many practitioners of non state violence and that in the case of the United States it did not hesitate even to sponsor those terrorist movements if deemed supportive of its wider geopolitical objectives **Special Bibliography Series**, 1957 *The Diplomatic Record 1991-1992* Hans Binnendijk, Mary Locke, Alan Wm Wolff, Flora Lewis, 2019-07-11 This volume reveals to readers the impact of recent events on diplomacy a year or so into the post Cold War world describing disintegration in the East integration in the West new relations with old allies changes in the Third World and multilateral diplomacy Power Rules John S. Library, 1993 *The Peacemakers* Hugh Miall, 2016-07-27 The UN Charter commits member states to settle their disputes by peaceful means but despite this there have been only 26 days since 1945 in which armed conflict has not been underway Nevertheless many conflicts have been settled without war since 1945 Drawing on case studies interviews with mediators contemporary theories of conflict resolution and a comparative analysis of over eighty peaceful and armed conflicts this book asks what can be learned from this historical experience **The New European Security Calculus** Thomas-Durell Young, 1991 The author of this report argues that while there has been considerable attention in the public domain about the fundamental changes which have recently transpired in Europe very little has been written concerning the effect these political and security changes will have

on the U S Army The Seventh Army in Germany has been a symbol of the U S commitment to NATO for over 40 years Now that the threat to our allies in Central and Western Europe has diminished at best or become ambivalent at worst just where does the Army fit in the future of the European security environment The author contends that there continues to be a need for a U S Army presence in Europe for security and political reasons however only if it is willing and capable of changing in terms of its structures and attitudes

Beyond Deterrence Hugh Miall, Oliver Ramsbotham, 2016-07-27 The collapse of communism in Eastern Europe the unification of Germany the withdrawal of Soviet troops the possible disintegration of the Soviet Union disengagement of the United States and creation of a federal Europe all this has changed the security context in Europe and stimulated a Europe wide debate about the future Deep questions about the nature of security itself have been raised This book will add fuel to the debate

Clausewitz and African War Isabelle Duyvesteyn, 2004-09-30 Oil diamonds timber food aid just some of the suggestions put forward as explanations for African wars in the past decade Another set of suggestions focuses on ethnic and clan considerations These economic and ethnic or clan explanations contend that wars are specifically not fought by states for political interests with mainly conventional military means as originally suggested by Carl von Clausewitz in the 19th century This study shows how alternative social organizations to the state can be viewed as political actors using war as a political instrument

The U.S.-South Korean Alliance Doug Bandow, Ted Galen Carpenter, 1992-01-01 The inconclusive outcome of the Korean War left a peninsula divided between two nations engaged in a deadly cold war An important aspect of the continuing hostilities was America s security guarantee to South Korea Despite enormous geopolitical changes brought by the accelerating collapse of communism the United States has a standing pledge to go to war if necessary to thwart a North Korean attack This volume assesses the current and future viability of the U S South Korean alliance from military political and economic perspectives

The Shape of the New Europe Gregory F. Treverton, Council on Foreign Relations, 1992

Changing Threat Perceptions and Military Doctrines Laszlo Valki, 1992-06-18 Owing to the revolutionary changes in Eastern Europe and the Soviet Union the threat perceptions of the East and West have vanished The contributors to this volume report this social process and try to identify some of the new threat perceptions which will arise

Warlords in International Relations Paul B. Rich, 2016-07-27 This timely collection investigates the meaning of the widely used term warlordism in contemporary global politics The introduction develops an analytical framework in order for scholars to understand the range and differing intensity of differing types of warlordist and sub state conflict The volume then proceeds to an examination of warlordism in relation to the international markets in light weaponry and narcotics It also includes a series of case studies such as Somalia Rwanda Kashmir and Albania

The Politics of Insecurity Jef Huysmans, 2006-09-27 The act of violence of 9 11 changed the global security agenda catapulting terrorism to the top of the agenda Weapons of mass destruction grabbed public interest and controlling the free movement of people became a national security priority In this volume Jef Huysmans critically engages with theoretical developments in

international relations and security studies to develop a conceptual framework for studying security. He argues that security policies and responses do not appear out of the blue but are part of a continuous and gradual process pre-structured by previous developments. He examines this process of securitization and explores how an issue on the basis of the distribution and administration of fear becomes a security policy. Huysmans then applies this theory to provide a detailed analysis of migration, asylum and refuge in the European Union. This theoretically sophisticated yet accessible volume makes an important contribution to the study of security, migration and European politics.
