Strategic Survey 1991 92:

Strategic Survey International Institute for Strategic Studies, 1979 Strategic Survey, 1991-1992, 1992 **Strategic Survey, 1991-92** Intl Institute for Strategic Studies, International Institute for Strategic Studies Staff, 1992 An annual review presented by the International Institute for Strategic Studies of international security related events It analyzes the world's military hot spots and evaluates present and likely future international developments The Iraqi Aggression Against Kuwait Wolfgang F. Danspeckgruber, Charles Tripp, 2019-07-11 The war for the liberation of Kuwait following the Iraqi invasion in 1990 rekindled the international community's geopolitical interest in the Gulf and helped define a new regional order This book analyzes the political strategic and economic dimensions of the second Gulf War with particular focus on military aspects An international roster of experts treats issues of strategy weapons technology arms transfers and the impact on the Arab state system Of special interest is the exploration of the implications of the war for Japan Germany Russia and Europe **The Muslim-Croat Civil War in Bosnia** Charles R. Shrader, 2003 Although Shrader's work is a detailed meticulous analysis by a neutral expert not everyone will find his conclusions comfortable But every serious student of the conflict in Bosnia will have to take his history into account Enhanced by maps useful appendices and a glossary this should become the standard work on military operations in Central Bosnia and a useful case study of internal warfare and ethnic conflict Intelligence Analysis and Assessment David Charters, Stuart Farson, Glenn P. Hastedt, 2013-11-05 These essays cover assessment systems now in place in Britain the USA Germany and Australia the bureaucratic dynamics of analysis and assessment the changing ground in intelligence and the impact of new technologies and modes of communication on intelligence gathering and analysis *The West's Road to 9/11* D. Carlton, 2005-09-08 The West's Road to 9/11 offers a detailed explanation of the handling of the challenge of terrorism by the USA the UK and the West over the last thirty years David Carlton contends that anti terrorist rhetoric by the Governments of the West frequently masked indifference to the activities of many practitioners of non state violence and that in the case of the United States it did not hesitate even to sponsor those terrorist movements if deemed supportive of its wider geopolitical objectives **The Ethical Dimensions of Global Change** Barry Holden, 2016-07-27 We are currently in a period of rapid global change that is of profound importance but the nature of which is difficult to comprehend A crucial element in any such comprehension must be an understanding of its ethical dimension since ethical ideas enter into the structure of international orders Particular ethical questions are also of course of great intrinsic interest and importance This book covers both aspects through an analysis of key concepts and issues *Social Mobility in Europe* Richard Breen, 2004-11-25 Social Mobility in Europe is the most comprehensive study to date of trends in intergenerational social mobility It uses data from 11 European countries covering the last 30 years of the twentieth century to analyze differences between countries and changes through time The findings call into question several long standing views about social mobility We find a growing similarity between countries in their class structures and rates

of absolute mobility in other words the countries of Europe are now more alike in their flows between class origins and destinations than they were thirty years ago However differences between countries in social fluidity that is the relative chances between people of different class origins of being found in given class destinations show no reduction and so there is no evidence supporting theories of modernization which predict such convergence Our results also contradict the long standing Featherman Jones Hauser hypothesis of a basic similarity in social fluidity in all industrial societies with a market economy and a nuclear family system There are considerable differences between countries like Israel and Sweden where societal openness is very marked and Italy France and Germany where social fluidity rates are low Similarly there is a substantial difference between for example the Netherlands in the 1970s which was quite closed and in the 1990s when it ranks among the most open societies Mobility tables reflect many underlying processes and this makes it difficult to explain mobility and fluidity or to provide policy prescriptions Nevertheless those countries in which fluidity increased over the last decades of the twentieth century had not only succeeded in reducing class inequalities in educational attainment but had also restricted the degree to which among people with the same level of education class background affected their chances of gaining access to better class destinations

The Psychology of Strategic Terrorism Ben Sheppard, 2009 This new volume explores terrorism and strategic terror examining how the public responds to terrorist attacks and what authorities can do in such situations The book uses a unique interdisciplinary approach which combines the behavioural sciences and international relations in order to further the understanding of the terror generated by strategic terror The work examines five contemporary case studies of the psychological and behavioural effects of strategic terror from either terrorist attacks or aerial bombardment It also looks at how risk communication and public health strategies can amplify or reduce psychological and behavioural responses and considers whether behavioural effects translate into political effects and what governments can do to relieve this Ultimately the study argues that the public is not prone to panic but can change their behaviours to reduce their perceived risk of being exposed to a terrorist attack This book will be of much interest to students of terrorism studies homeland security social psychology and politics in general

After Empire Jed C. Snyder, 1997-02 When the Soviet Union collapsed no states were less prepared for independence than the 5 republics of Central Asia Kazakhstan Kyrgyzstan Uzbekistan Turkmenistan and Tajikistan This book includes papers and discussions presented at a conf of scholars from the U S Russia Europe and the Middle East who gathered to examine the region's political economic social and security evolution since 1989 The papers are arranged by themes the struggle for identity the roots of Islam in Central Asia a brief primer Moscow's security perspective the commonwealth and interstate relations and security implications of the competition for influence among neighboring states

After The Storm Anthony H Cordesman, 2019-08-19 This comprehensive new analysis goes far beyond today's headlines and the basic facts and figures on the military forces in the region Tracing the origin of the military forces in each Middle East country Tony Cordesman discusses current security developments and provides a

qualitative and quantitative analysis of the strength and effectiveness of **The Treaty of Versailles** Manfred F. Boemeke, Gerald D. Feldman, Elisabeth Glaser, 1998-09-13 This text scrutinizes the motives actions and constraints that informed decision making by the various politicians who bore the principal responsibility for drafting the Treaty of Versailles

Peacemaking, Peacekeeping and Coalition Warfare Fariborz L. Mokhtari, 1994 Strategic Change and Naval Roles Maritime Strategic Issues Workshop, 1993 **Towards A Nuclear-weapon-free World - Proceedings Of The Forty-fifth Pugwash Conference On Science And World Affairs** Joseph Rotblat, Michiji Konuma, 1997-07-01 In this volume scientists write on the desirability and feasibility of eliminating nuclear weapons including reflections 50 years after the destruction of Hiroshima and Nagasaki by atomic bombs The following topics are discussed strategies for preventing the proliferation of weapons of mass destruction ways and means to monitor and control the arms trade the need for global governance specific aspects of security in the Asia Pacific region and interactions between the problems of meeting the world's energy demand reducing environmental pollution and promoting sustainable development

Peacemaking, Peacekeeping, and Coalition Warfare Fariborz Levaye Mokhtari, 1994 **Strategic Review**, 1993 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **Air Force Journal of Logistics**, 1994 *Afghanistan and the Future of Warfare: Implications for Army and Defense Policy*, 2002 The defense debate tends to treat Afghanistan as either a revolution or a fluke either the Afghan Model of special operations forces SOF plus precision munitions plus an indigenous ally is a widely applicable template for American defense planning or it is a nonreplicable product of local idiosyncrasies In fact it is neither The Afghan campaign of last fall and winter was actually much closer to a typical 20th century mid intensity conflict albeit one with unusually heavy fire support for one side And this view has very different implications than either proponents or skeptics of the Afghan Model now claim Afghan Model skeptics often point to Afghanistan's unusual culture of defection or the Taliban's poor skill or motivation as grounds for doubting the war's relevance to the future Afghanistan's culture is certainly unusual and there were many defections The great bulk however occurred after the military tide had turned not before hand They were effects not causes The Afghan Taliban were surely unskilled and ill motivated The non Afghan al Qaeda however have proven resolute and capable fighters Their host's collapse was not attributable to any al Qaeda shortage of commitment or training Afghan Model proponents by contrast credit precision weapons with annihilating enemies at a distance before they could close with our commandos or indigenous allies Hence the model's broad utility with SOF directed bombs doing the real killing even ragtag local militias will suffice as allies All they need do is screen U S commandos from the occasional hostile survivor and occupy the abandoned ground thereafter Yet the actual fighting in Afghanistan involved substantial close combat Al Qaeda counterattackers closed unseen to pointblank range of friendly forces in battles at Highway 4 and Sayed Slim Kalay
