Strategies Of Democratization:

Strategies Of Democratization Tatu Vanhanen, 2013-04-03 First Published in 1992 The purpose of this book is to examine the strategies used in the struggle for democracy and the problems of democratization in different parts of the world This examination is based on the idea that the conscious choices of people and their leaders matter and that better knowledge of successful and unsuccessful strategies might help people to adopt more rational strategies in the struggle for democracy This book originated in the international cooperation of political scientists interested in the problems of democratization Strategies of Democratization Tatu Vanhanen, 1992 First Published in 1992 Routledge is an imprint of Taylor Francis an informa company **Civil Society in Democratization** Peter Burnell, Peter Calvert, 2004-03-01 This title brings together competing theories of civil society with critical studies of the role of civil society in diverse situations and the way in which it has been promoted as the key to democratization The combination of contemporary theory and practical applications provides valuable reading for students of civil society and contemporary social and political change and its policy implications for Africa Asia Europe and Latin America Democracy Promotion and the Challenges of Illiberal Regional Powers Nelli Babayan, Thomas Risse, 2017-10-02 This book examines Western efforts at democracy promotion reactions by illiberal challengers and regional powers and political and societal conditions in target states It is argued that Western powers are not unequivocally committed to the promotion of democracy and human rights while non democratic regional powers cannot simply be described as autocracy supporters This volume examines in detail the challenges by three illiberal regional powers China Russia and Saudi Arabia to Western US and EU efforts at democracy promotion The contributions specifically analyze their actions in Ethiopia and Angola in the case of China Georgia and Ukraine in the case of Russia and Tunisia in the case of Saudi Arabia Democratic powers such as the US or the EU usually prefer stability over human rights and democracy If democratic movements threaten stability in a region neither the US nor the EU supports them As to illiberal powers they are generally not that different from their democratic counterparts They also prefer stability over turmoil Neither Russia nor China nor Saudi Arabia explicitly promote autocracy Instead they seek to suppress democratic movements in their periphery the minute these groups threaten their security interests or are perceived to endanger their regime survival This was previously published as a special issue of Democratization Global Perspectives on US Democratization Efforts Sally Burt, Daniel Añorve Añorve, 2016-08-19 This edited volume follows up from Global Perspectives on US Foreign Policy From the Outside In in providing unique perspectives on US foreign policy from citizens of countries affected This approach allows the voices of those less commonly heard to be presented as part of the broader debate about US democracy assistance policies around the globe Contributions from experts in the Middle East Africa the Americas and Eastern Europe are included to ensure the most pressing issues of international relations in our time are addressed This book should be read by anyone interested in the United States and global politics as it provides a fuller view of the world **The**

Feasibility of Democracy in Africa Claude Ake, 2000 The book outlines in a sweeping continental survey and with telling detail how the democratic commitment has transformed Africa's legacy of dictatorship military regimes and single party rule Yet at the same time as we are all democrats now Ake shows how cleverly conservative autocrats have stolen the democratic message and subverted its promise The danger of trivializing democracy into successive multi party elections where one narrow elite succeeds another is a real one in present day Africa and the book spells out the hazards that lie ahead for nascent democratic movements at the grassroots

Democratization in EU Foreign Policy Benedetta Berti, Kristina Mikulova, Nicu Popescu, 2015-09-16 New democracies are uniquely positioned to promote democratic values and have a competitive advantage in the global democracy assistance industry This book examines the attempts of one group of young democracies from Central and Eastern Europe CEE to channel this pro democracy agenda into both national and European foreign policy and development support It looks at how CEE is upstream changing the EU on crucial policy issues as part of the common foreign and security policy Furthermore it tracks the process whereby imported ideas and norms are recycled for further export downstream and how these concepts are received in countries outside of the EU including the post Soviet space the Western Balkans the Middle East and North Africa region and Central Asia This text will be of key interest to scholars students and practitioners of democratisation studies European Union studies comparative politics international relations international development European politics as well as area regional studies

The New Bosnian Mosaic Elissa Helms, 2016-02-17 Since the violent events of the Bosnian war and the revelations of ethnic cleansing that shocked the world in the early 1990s Bosnia has become a metaphor for the new ethnic nationalisms for the transformation of warfare in the post Cold War era and for new forms of peacekeeping and state building This book is unique in offering a re examination of the Bosnian case with a bottom up perspective It gathers together cultural anthropologists and other social scientists to consider the specificities of the Bosnian case However the book also raises broader questions what are the consequences of internecine violence and how should societies attempt to overcome them Are the uncertainties and the transformations of Bosnian post war society due entirely to the war or are they related to wider processes encompassing post communist Europe as a whole And are the difficulties experienced by international state building operations mainly due to distinctive features of the local societies or are they due to the policies promoted by the international community itself

The European Union's Democratization Agenda in the Mediterranean Michelle Pace, Peter Seeberg, 2013-09-13 Democracy promotion in the Middle East and North Africa MENA remains a central

pillar of the foreign policy the European Union EU Rather than concentrating on the relations between the incumbent authoritarian regimes and the opposition in the relevant countries and on the degree to which these relations are affected by EU efforts at promoting democracy human rights and the rule of law an outside in approach this collection of articles inverts the focus of such relationships and attempts to look at them inside out While some contributions also emphasise the outside in axis given that this continues to be analytically rewarding the overarching thrust of this book is to provide some empirical substance for the claim that EU policy making is not unidirectional and is influenced by the perceptions and actions of its targets Thus the focus is on domestic political changes on the ground in the MENA and how they link into what the EU is attempting to achieve in the region Finally the self representation of the EU and its lack of a clear regional role is discussed This book was published as a special issue of Democratization [Living Next to the Giant Le Hong Hiep,2017-03-09](#) This book examines how the interaction between political and economic factors under Doi Moi has shaped Vietnam s China policy and bilateral relations since the late 1980s After providing a historical background the book examines the conflicting effects that Doi Moi has generated on bilateral relations It demonstrates that Vietnam s economic considerations following the adoption of Doi Moi contributed decidedly to the Sino Vietnamese normalization in 1991 as well as the continuous improvements in bilateral ties ever since At the same time Vietnam s economic activities in the South China Sea and China s responses have intensified bilateral rivalry and put their ties under considerable strains The book goes on to argue that Doi Moi has indeed brought Vietnam newfound opportunities to develop a multi level omni directional hedging strategy against China Finally the book concludes by looking at the prospects of democratization in both countries and assessing the future trajectory of their relations under such circumstances As the most comprehensive and up to date survey of Vietnam s relations with China over the past thirty years the book is a useful reference source for academics policymakers students and anyone interested in contemporary Vietnam foreign policy in general and Vietnam China relations in particular

Grand Strategy from Truman to Trump Benjamin Miller, Ziv Rubinovitz, 2020-11-10 American foreign policy is the subject of extensive debate Many look to domestic factors as the driving forces of bad policies Benjamin Miller instead seeks to account for changes in US international strategy by developing a theory of grand strategy that captures the key security approaches available to US decision makers in times of war and peace Grand Strategy from Truman to Trump makes a crucial contribution to our understanding of competing grand strategies that accounts for objectives and means of security policy Miller puts forward a model that is widely applicable based on empirical evidence from post WWII to today and shows that external factors rather than internal concerns are the most determinative
