Strategies Of Expertise In Technical Controversies A Study Of Wood Energy Development:

Strategies of Expertise in Technical Controversies Frederick Frankena, 1992 This work discusses the development of wood for electric power in response to the energy crisis Frankena studies the role and impact of technical expertise using an in depth case study and a comparative review of wood fired power plant controversies in the United States Knowledge, Power, and Participation in Environmental Policy Analysis Rob Hoppe, 2018-01-16 This volume probes practical dilemmas and competing research perspectives in environmental policy analysis Scholars working in different fields research traditions societies and policy domains offer significant insights into the processes and consequences of environmental policy making Part 1 Coping with Boundaries describes present day conflict between experts and greater public participation in environmental policy It shows that the institutionalization of increasingly complex environmental problems has led to a conflict between technocracy and democracy Part 2 The Transnational Challenge examines modes of cooperation between grassroots movements scientists and regional authorities in the United States and Canada These and other modes of cooperation laid the foundations for the Great Lakes Water Quality Agreement increased the effectiveness of air pollution treaties and increased climate change Part 3 Bio Hazards Policies and Paralysis deals with environmental problems closest to the everyday concerns of the public at large because they have immediate implications for food safety and other values Part 4 The Citizens Perspective focuses on citizen vis a vis environmental policy noting that in order to make policies work citizens must be willing and able to participate in policy making and cooperate in implementing environmental choices Part 5 Confronting Ordinary and Expert Knowledge explores opportunities and constraints affecting public participation in evaluation of science Part 6 Developments in Research Programming addresses such questions as whether scientists still have opportunities to do the research they want without being interrupted or disturbed by policy makers and other stakeholders Part 7 Policy Sciences Aspirations explores different avenues for improving environmental policy Volume twelve in the PSRA series should inspire further investigations of the relations among knowledge power and participation in environmental policy It will be of timely interest to environmentalists policy makers scholars and the general public

Routledge Handbook of Public Communication of Science and Technology Massimiano Bucchi, Brian Trench, 2014-06-20 Communicating science and technology is a high priority of many research and policy institutions a concern of many other private and public bodies and an established subject of training and education Over the past few decades the field has developed and expanded significantly both in terms of professional practice and in terms of research and reflection The Routledge Handbook of Public Communication of Science and Technology provides a state of the art review of this fast growing and increasingly important area through an examination of the research on the main actors issues and arenas involved In this brand new revised edition the book brings the reviews up to date and deepens the analysis As well as substantial reworking of many chapters it gives more attention to digital media and the global aspects of science

communication with the inclusion of four new chapters Several new contributors are added to leading mass communication scholars sociologists public relations practitioners science writers and others featured herein With key questions for further discussion highlighted in each chapter the handbook is a student friendly resource and its scope and expert contributors mean it is also ideal for both practitioners and professionals working in the field Combining the perspectives of different disciplines and of different geographical and cultural contexts this original text provides an interdisciplinary and global approach to the public communication of science and technology It is a valuable resource for students researchers educators and professionals in media and journalism sociology the history of science and science and technology **Scientists'**

Impact on Decision-making Peng Ru,2016-12-08 With the increasing influence of science and technology S T on socioeconomic life and public affairs there has been a growing demand for S T expertise in today s public decision making The National High Technology Research and Development Program 863 Program involving hundreds of S T experts marked the beginning of a new journey for China s high tech development This book discusses China s S T decision making mechanism with the 863 Program as the central case and scientist influence on public decision making as the focus More importantly it extracts three key elements to analyze the determinative factors behind that influence knowledge value and institutions and proposed a KIV framework of macro analysis The KIV being the first framework to generalize factors that could affect scientists influence on public decision making is of both theoretical significance and innovative value In addition by finding out those factors this book attempts to create a decision making environment conducive to scientists contribution of their knowledge Technoscience and Environmental Justice Gwen Ottinger,Benjamin R. Cohen,2011-09-02 Case studies exploring how experts encounters with environmental justice are changing technical and scientific practice Over the course of nearly thirty years the environmental justice movement has changed the politics of environmental activism and influenced environmental policy In the process it has turned the attention of environmental activists and regulatory agencies to issues of pollution toxics and human health as they affect ordinary people especially people of color This book argues that the environmental justice movement has also begun to transform science and engineering The chapters present case studies of technical experts encounters with environmental justice activists and issues exploring the transformative potential of these interactions Technoscience and Environmental Justice first examines the scientific practices and identities of technical experts who work with environmental justice organizations whether by becoming activists themselves or by sharing scientific information with communities It then explore scientists and engineers activities in such mainstream scientific institutions as regulatory agencies and universities where environmental justice concerns have been partially institutionalized as a response to environmental justice activism All of the chapters grapple with the difficulty of transformation that experts face but the studies also show how environmental justice activism has created opportunities for changing technical practices and in a few cases has even accomplished significant transformations Policy Studies Review Annual ,2001 New Technical Books
