**Strategies for Collective Minimalist Mobile Robots** Chris Melhuish, 2001-04-11 Many might think that the robot industry is not ready yet to build an abstract painter with a political theory Perhaps Melhuish engineering U of the West of England agrees because what he talks about instead is the idea of getting a whole lot of dumb robots to work together to accomplish something smart The inspiration for the approach are social insects which are limited individually yet can as a group achieve remarkable feats He presents minimalist strategies for controlling and coordinating such a system in the domains of moving through the environment creating work gangs of a desired size and acting on the environment Distributed in the US by ASME c Book News Inc *Strategies for Collective Minimalist Mobile Robots* Christopher Roger Melhuish, 1999 **Climbing and Walking Robots and the Supporting Technologies for Mobile Machines** G.
