**Learn about families.** Talk with or collect surveys from families. Ask about family composition, language, values, traditions, and concerns to help you understand and connect with families and students on a more personal level and build on students' competencies.

**Engage families in SEL.** Engage families in understanding the purpose of SEL and how it supports academic learning. Involve families in generating SEL goals for their children so that they can help their children meet these goals outside of the classroom.

**Affirm diverse backgrounds and traditions.** Have students share and listen to others' experiences and values. This builds empathy and affirms the strengths of diversity in the classroom.

**Use effective discipline practices.** Reduce and prevent the use of exclusionary discipline in your classroom. Teach students skills that help them take responsibility for their actions and manage their behavior in alignment with your SEL program.

**Don't forget your own social and emotional assets and needs.** Educators can experience stress from supporting students' social and emotional needs, managing behavior, and navigating student trauma. Regularly reflect on how you can leverage your assets to support SEL in your classroom and seek guidance and support from peers as needs arise.

*Equity Warriors* George S. Perry (Jr.), George S. Perry, Jr., Joan Richardson, 2022-01-14 Equity leadership is a complex and often perilous endeavor particularly in our current era of political polarization The fundamental and paradoxical challenge is advancing equity in a system that was never designed to serve all children Deep systemic change will happen only when educators and their community partners understand how the interlocking systems in education operate and learn how to crack the codes that have perpetuated those systems A number of books on equity leadership focus on single improvement strategies such as equity audits equitable grading practices and cultural competence However there are few guides to navigating the complex barriers to implementing deep rooted change The proposed title is unique in that it honors the complexity of such change but at the same time equips leaders with actionable strategic moves to advance an equity agenda And while knowing these moves is

important knowing when to make the moves is critical The moves are non linear interconnected and sometimes overlapping possibly ambiguous and always situational
