Self-Management in Chronic Illness Jose Frantz,Laura Schopp,Anthea Rhoda,2021-04-20 Self management is a term that was used as early as the 1960s when it was applied during the rehabilitation of chronically ill children Subsequently self management was applied as formalized programs for a variety of populations and health issues In reflecting on self management it is important to note that it would be difficult for individuals not to be aware of their specific health behaviors which could include unhealthy behaviors As self management has evolved essential skills identified include behavioral modeling decision making planning social persuasion locating accessing and utilizing resources assisting individuals to form partnerships with their health care providers and taking action These are key skills that would benefit health professional educators clinicians and patients This book consisting of three parts provides insights into the aspects of self management as it relates to its definition and application It highlights how self management can be applied to various long term health conditions for different populations or target groups and in different contexts The text provides an overview of self management and the rationale for its applications by illustrating its use in specific clinical conditions and in different sub populations and target groups Academics can use the book as a textbook when teaching postgraduate and undergraduate students about self management as a technique to facilitate community reintegration for individuals living with long term conditions It can also be used by clinicians to enhance their management of individuals with long term conditions Furthermore researchers can use the text to expand and support their research in this area **Evidence-Based**

Programming for Older Adults Marcia G. Ory,Matthew Lee Smith,2015-06-17 There is increased world wide concern about the impact of multiple chronic conditions especially among the rapidly aging population Simultaneously over the past decade there has been an emergence of state wide and national initiatives to reduce the burden of chronic conditions that draw upon the translation of evidence based programs EPB into community practice Yet little has been written about the national and international implementation dissemination and sustainability of such programs This Research Topic features articles about EBPs for older adults including a range of articles that focus on the infrastructure needed to widely disseminate EBP as well as individual participant impacts on physical mental and social aspects of health and well being Using a pragmatic research perspective this Research Topic will advance knowledge that aims to enhance practice inform policy and build systems of support and delivery in regard to the reach effectiveness adoption implementation and

maintenance of evidence based interventions for older adults The focus is on knowledge transfer rather than knowledge generation but with a dual emphasis on the dissemination and sustainability of EBP that have been tested and shown effective as well as the adaptation of practice based interventions into evidence based programs This Research Topic draws upon grand scale efforts to deliver these programs and include both U S as well as international examples Commentaries discuss processes in the development and measurement of EBP and reflect perspectives from program developers and major national and regional funders of EBP as well as professionals and practitioners in the field The full length articles focus on four major programmatic areas 1 chronic disease self management programs 2 fall prevention programs 3 general wellness and physical activity programs and 4 mental health programs Additionally articles are included to discuss cross cutting issues related to building partnerships and the research infrastructure for the implementation evaluation and dissemination of evidence based programming The intent of this Research Topic is to enhance practice inform policy and build systems of support and delivery for EBP It is written for a diverse audience and contains practical implications and recommendations for introducing delivering and sustaining EBP in a multitude of settings
