Strategy Defence Australian Essays:

Strategy & Defence Desmond Ball, 1982-01-01 **War, Strategy and History** Daniel Marston, Tamara Leahy, 2016-05-31 This is a collection of essays in honour of eminent Professor Robert O'Neill. Each chapter was written by prominent academics and practitioners who have had a professional connection with Professor O'Neill during his long and distinguished career. The overarching themes running throughout the book are war strategy and history. All the essays are shaped by the role that Professor O'Neill has played over the last 50 years in the debates in Australia, Europe and the US. This book covers not only Professor O'Neill's impressive career but also the evolution of strategy in practice and of strategic studies as an internationally recognised academic discipline.

Australia's Defence Strategy Adam Lockyer, 2017-01-30 How would we know a good defence strategy if we saw one? The Asian Century is challenging many of the traditional assumptions at the heart of Australian defence policy and strategy. Defence scholars have risen to the challenge of these transformational times and have collectively produced a smorgasbord of alternatives for policy makers. The problem is that these recommendations all point in very different directions. How should we evaluate these options? Adam Lockyer tackles this question and develops a novel conceptual framework for evaluating defence strategies. By doing so, this book breaks new theoretical ground and makes an important contribution to our understanding of strategy in general and defence strategy in particular. Lockyer then applies this analytical tool to the leading arguments in Australia's defence debate and finds that there is still substantial work to be done. Lockyer concludes by proposing a new Australian defence strategy for a contested Asia that would pass the test for a good defence strategy. The result is essential reading for anyone interested in strategy or the future of Australian defence policy.

Quarterly Essay 13 Sending Them Home Robert Manne, David Corlett, 2003-12-01 In the first Quarterly Essay of 2004, Robert Manne tells the stories of individual asylum seekers and finds in their experience the seeds of a devastating critique. Balancing sorrow and pity with a controlled anger, Manne develops a sustained argument about what could and should be done for the nine thousand refugees who remain in limbo on temporary protection visas. *Sending Them Home* also contains a groundbreaking account of conditions in the offshore processing camps on Nauru whose operations have until now been shrouded in secrecy and a damning forensic investigation of the recent efforts to return frequently against their will many of those who sought our protection and whose countries remain in turmoil. Combining ethical reflection and acute political analysis, this essay initiates a new phase in the refugee debate. No one ought to pretend that the unanticipated arrival of the Iraqis, Afghans and Iranians did not pose real problems for Australia. However, these problems arose not because these people were not genuine refugees. They arose rather precisely because the overwhelming majority of them were. Robert Manne *Sending Them Home*.

The Routledge Handbook of Civil-Military Relations Florina Cristiana Matei, Carolyn Halladay, Thomas C. Bruneau, 2021-11-01 This second edition of *The Routledge Handbook of Civil Military Relations* offers a wide-ranging, internationally focused overview of the field of civil military

relations The armed forces are central actors in most societies and are involved in many different roles Amongst other activities they engage in peace operations support the police in fighting crime support civilian authorities in dealing with natural disasters and fight against terrorists and in internal conflicts The existing literature on this subject is limited in its discussion of warfighting and thus does not do justice to the variety of roles This second edition not only fills this important lacuna but offers an up to date comparative analysis and provides a conceptual framework to analyze how strategies can realistically be implemented Amalgamating ideas from key thinkers in the field the book is organized into three main thematic parts Part I Civil Military Relations in Non Democratic States and Illiberal Democracies Part II Civil Military Relations in New Democracies Part III Civil Military Relations in Established Democracies This handbook will be essential reading for students and practitioners in the fields of civil military relations defense studies war and conflict studies international security and IR in general

Quarterly Essay 14 Mission Impossible Paul McGeough, 2004-06-01 In the second Quarterly Essay of 2004 Paul McGeough offers a dramatic account of why Iraq remains in chaos despite desperate American efforts to create a model democracy in the Middle East According to McGeough Iraq to this day remains a tribal society It cannot be governed without the cooperation of the true powers in the land the tribal and religious sheikhs Those who have ruled Iraq in the past including Saddam Hussein and the British before him understood this fact The Americans by contrast seem to have missed the point In Mission Impossible Paul McGeough enters the world of key Iraqi tribal and religious leaders There are vivid portraits of the sheikhs role in the fall and capture of Saddam as well as their part in the growing insurgency There are glimpses too of a history that once involved Lawrence of Arabia and Gertrude Bell and which pre dates Islam stretching back thousands of years Combining reportage and analysis in brilliant fashion this groundbreaking essay is well timed to coincide with the next major phase in Iraq s troubled history Throughout the history of their region the sheikhs have been the powerbrokers deciding who would reign between the great rivers the Tigris and the Euphrates Paul McGeough Mission Impossible

"Enhancing" the Australian-U.S. Defense Relationship Thomas-Durell Young, 1997

Notwithstanding the end of U S basing in the Philippines a revised defense framework with Japan and starts and stops in Chinese American military contacts U S security relationships in the Pacific have enjoyed remarkable continuity since the end of the Cold War The United States has promoted thus far successfully its role as the region s stabilizing power to justify at home and abroad a sustained Pacific rim presence and engagement Whether this role has staying power for the coming decade is another matter The frictions of basing in Japan and Korea as well as the anticipated transformation in North Korea are but two of a number of emerging challenges to the current U S posture Concern about future directions of Chinese or for that matter Japanese military power might or might not be sufficient to smooth such frictions The early 21st century could see a reordering of things Out from the shadow of the Cold War most Pacific nations are reassessing their defense postures Australia is no exception Among the closest of U S allies Australia shares a number of concerns about potential change in the

western Pacific balance It is thus natural that the two countries look to their own cooperative defense relationship for hedges against an uncertain future That is the genesis of the current study by Dr Thomas Durrell Young Based on his extensive knowledge of Australian security affairs and recent in country field work he examines prospects for enhancing existing bilateral security ties He does so with a sense for the feasible offering both guiding principles and practicable approaches that take careful account of the interests of both nations

Asian Security Handbook William M. Carpenter, David G. Wiencek, James R. Lilley, 2019-06-19 Featuring 19 individual country profiles this volume seeks to shed light on the key political and security factors and geo political trends in the Asia Pacific region that bear monitoring and that will have greater significance in the post Cold War environment

Strategy and Ethnic Conflict Laure Paquette, 2002-02-28 Ethnic conflict now presents the thorniest problems for military and civilian strategists of all stripes This book presents a new general theory of strategy encompassing studies of the relationship between values interest and strategy as these relate to ethnic conflicts It focuses on the relationship between values and strategy building a theory on the hypothesis that national values influence national strategy Paquette s research reveals that national values influence national strategy through three mechanisms cognition appreciation and evaluation Each mechanism and indeed the whole value focused approach to strategic thinking is described using a network of interrelated statements Paquette develops a methodology specific to the issues of international security and ethnic considerations She tests this theory extensively for internal consistency before applying it to a single historical case French decision making on national strategy between 1955 and 1970 however because of its generality this same theory could easily be applied to other cases As with any theory it is possible to vary successively or simultaneously assumptions or conditions and to derive new predictions This process of deriving variations has the potential to help in the training of strategists both military and civilian

Quarterly Essay 21 What's Left? Clive Hamilton, 2006-03-01 In the first Quarterly Essay of 2006 Clive Hamilton throws out a challenge to Australia s party of social democracy to both its true believers and right wing machine men Will it be business as usual and creeping atrophy or will the Labor Party find a new way of talking to individualistic affluent Australia According to Hamilton Labor and the Left must acknowledge that the social democracy of old with its strong unions public ownership of assets and distinct social classes is dead Prosperity more than poverty is the dominant characteristic of Australia today Given this should governments confine themselves to stoking the fires of the economy and protecting the interests of wealth creators Or is there room for a political program that embodies new ideals but can also withstand economic scare tactics This is an original and provocative account of our present political juncture by a man of the Left who accuses the Left of irrelevance Any new progressive politics Hamilton argues will need to tap into the anxieties and aspirations of the nation find new ways to talk about morality and thereby address deeper human needs The Australian Labor Party has served its historical purpose

and will wither and die as the progressive force of Australian politics Clive Hamilton *What's Left* Strategic Plans, Joint Doctrine, and Antipodean Insights Douglas C. Lovelace Jr., This is the second in an analytical series on joint issues It follows the authors U S Department of Defense Strategic Planning The Missing Nexus in which they articulated the need for more formal joint strategic plans This essay examines the effect such plans would have on joint doctrine development and illustrates the potential benefits evident in Australian defense planning Doctrine and planning share an iterative development process The common view is that doctrine persists over a broader time frame than planning and that the latter draws on the former for context syntax even format In truth the very process of planning shapes new ways of military action As the environment for that action changes planners address new challenges and create the demand for better methods of organizing employing and supporting forces Evolutionary occasionally revolutionary doctrinal changes result The authors of this monograph explore the relationship between strategic planning and doctrine at the joint level They enter the current debate over the scope and authority of joint doctrine from a joint strategic planning perspective In their view joint doctrine must have roots and those roots have to be planted firmly in the strategic concepts and plans developed to carry out the National Military Strategy Without the fertile groundwork of strategic plans the body of joint doctrine will struggle for viability Sleepwalk to War Hugh White, 2022-06-27 Is the US Australia alliance now based on a fantasy In this gripping essay Hugh White explores Australia's fateful choice to back the United States to the hilt in opposing China What led both sides of politics to align with the US so absolutely Is this a case of sleepwalking to war What tests might the new government face White assesses America's credibility and commitment by examining AUKUS the Quad Trump and Biden He discusses what the Ukraine conflict tells us about the future And he argues that the US can neither contain China nor win a war over Taiwan So where does this leave our future security and prosperity in Asia Is there a better way to navigate the disruption caused by China's rise This is a powerful and original essay by Australia's leading strategic thinker Canberra's rhetoric helps raise the risk of the worst outcome for Australia a war between China and America in which we are likely to be involved Over the past decade and without any serious discussion Australian governments have come to believe that America should go to war with China if necessary to preserve US primacy in Asia and that Australia should as a matter of course go to war with it Hugh White *Sleepwalk to War* *Australian national bibliography*, 1961 **Strategic Defenses** Desmond Ball, 1986 *Strategic Cousins* John Charles Blaxland, 2006 Australia and Canada may have different security strategies reflecting contrasting domestic circumstances but John Blaxland shows that common interests have led their forces to work together for over a century *Strategic Cousins* examines the role of the professional armed forces of these geographically distant nations through a comparison of their historical experiences with expeditionary land forces Blaxland traces the shift from ties with the British Empire which led Canadian and Australian forces to fight in the Boer War the two World Wars and Korea to their contribution alongside the United States in Afghanistan Using late twentieth century concepts of policy military

strategy operations and tactics he reveals that Canada and Australia have had remarkably comparable experiences while supporting their key allies Although the two nations have at times chosen divergent courses their paths since the end of the Cold War have largely converged and closer collaboration could increase their influence and effectiveness and benefit their allies

Australia's Defence Peter Dean, Brendan Taylor, Stephan Frühling, 2014-07-18 Almost half a century ago the Australian National University's TB Millar penned a seminal book on Australian defence policy in the lead up to the Vietnam War Today Australia's defence forces are returning from long conflicts overseas while the rise of China and the economic integration in the Indo Pacific presents a complex mix of challenges and opportunities Drawing inspiration from Millar's original volume *Australia's Defence Towards a New Era* brings together leading experts to examine the domestic and international context of Australia's defence policy Australian strategy and the size and state of our armed forces As the country heads towards a new era this book provides an in depth overview and key insights into the past present and future of Australia's defence

Quarterly Essay 62 Firing Line James Brown, 2016-06-13 Going to war may be the gravest decision a nation and its leaders make At the moment Australia is at war with the Islamic State We also live in a region that has become much more volatile as China asserts itself and America seeks to hold the line What is it like to go to war How do we decide to go to war Where might we go to war in the future Will we get that decision right In this vivid urgent essay James Brown looks to history strategy and his own experience to explore these questions He examines the legacy of the Iraq War and argues that it has prevented a clear view of Australia's future conflicts He looks at how we plug into the US war machine now that American troops are based in Darwin And he sheds fascinating light on the extraordinary concentration of war powers in the hands of the Prime Minister and how this might go wrong This powerful essay argues that we have not yet begun to think through the choices that may confront us in years ahead When you live in a country like ours the dirty business of war is a stranger That is the blessed legacy of a place where soldiers are rarely seen and then only on parade Where war means Anzac Day and Anzac Days are all the same There are few moments in modern Australia when you might pause to ask the most consequential of questions What is it that we are willing to fight for James Brown *Firing Line* James Brown is a fine writer clear and persuasive and capable of adroit tactical moves

Weekend Australian Brown's survey of this complicated landscape yields some striking phrases and arresting moments He is a natural and precise writer with a vivid sense of place

Quarterly Essay 39 Power Shift Hugh White, 2010-08-30 In *Power Shift* Hugh White considers Australia's future between Beijing and Washington As the power balance shifts and China's influence grows what might this mean for our nation Throughout our history we have counted first on British then on American primacy in Asia Now the rise of China as an economic powerhouse challenges US dominance and raises questions for Australia that go well beyond diplomacy and trade questions about our place in the world our loyalties and our long term security Will China replace the US as regional leader If so we will be dealing with an undemocratic and vastly more powerful nation Will China wield its

power differently from the US If so should we continue to support America and so divide Asia between our biggest ally and our biggest trading partner How to define the national interest in the Asian century This visionary essay considers the shape of the world to come and the implications for Australia as it seeks to carve out a place in the new world order This year China overtook Japan to become the world's second biggest economy It is already bigger relative to the US than the Soviet Union ever was during the Cold War A Chinese challenge to American power in Asia is no longer a future possibility but a current reality Few issues are more important to Australia's future than how this plays out You would not know it to listen to our leaders Hugh White Power Shift
