Government Controlled Enterprises Renato Mazzolini,1979 Monograph on foreign investment decision making activities of public enterprises in EC countries based on a survey of 123 firms analyses external and internal influences on strategic and policy formulation and covers financial policy the roles of top management government administrators trade union leaders etc Bibliography pp 383 to 391 diagrams references and statistical tables *Rise and Fall of Strategic Planning* Henry Mintzberg,1994-01-31 In this definitive and revealing history Henry Mintzberg the iconoclastic former president of the Strategic Management Society unmask the process that has mesmerized so many organizations since 1965 strategic planning One of our most brilliant and original management thinkers Mintzberg concludes that the term is an oxymoron that strategy cannot be planned because planning is about analysis and strategy is about synthesis That is why he asserts the process has failed so often and so dramatically Mintzberg traces the origins and history of strategic planning through its prominence and subsequent fall He argues that we must reconceive the process by which strategies are created by emphasizing informal learning and personal vision and the roles that can be played by planners Mintzberg proposes new and unusual definitions of planning and strategy and examines in novel and insightful ways the various models of strategic planning and the evidence of why they failed Reviewing the so called pitfalls of planning he shows how the process itself can destroy commitment narrow a company's vision discourage change and breed an atmosphere of politics In a harsh critique of many sacred cows he describes three basic fallacies of the process that discontinuities can be predicted that strategists can be detached from the

operations of the organization and that the process of strategy making itself can be formalized Mintzberg devotes a substantial section to the new role for planning plans and planners not inside the strategy making process but in support of it providing some of its inputs and sometimes programming its outputs as well as encouraging strategic thinking in general This book is required reading for anyone in an organization who is influenced by the planning or the strategy making processes *Strategy, Structure and Performance in a Transition Economy* Tobias Weigl, 2008-08-26 Based on the results of 177 survey responses Tobias Weigl shows that the simple transfer of managerial and organizational skills techniques values and culture from developed countries to Russia is a false assumption among academics and practitioners
