Headquarters-subsidiary relationship governance in emerging markets of Central Eastern Europe J.S. Hendriks-Gusc, 2023-08-28 Multinational enterprises often seem to be on a roller coaster when managing their operations in transition economies especially because of the volatile business and political environment By combining agency and stewardship theory this book describes the subtle equilibrium between formal control and day to day coordination in the Headquarters Subsidiary HQ S governance relationship Using the Polish situation as an example it places HQ S governance in the context of a transitional economy while taking the cultural differences between the headquarters and subsidiary country into account This explorative empirical study shows that the use of strategic and operational control mechanisms work as a transparent platform on which coordination and attuning mechanisms can be build to deal with the day to day management challenges in a transition economy Creating flexibility and learning capabilities at the subsidiary level rather than maintaining a subsidiary in a state of dependence can clearly contribute to the success of international operations However it also reveals that there is no simple and uniform recipe for managing subsidiaries The road from governance to performance is not a one way street and alternative routes are available to accelerate performance This book is a valuable resource to all directors and managers of multinational enterprises as well as academic researchers who concern themselves with the study of multinational enterprises in transition economies
