The Moral Distress Syndrome Affecting Physicians Eldo Frezza, MD, MBA, FACS, 2020-09-24 The rise of suicide and burnout among physicians has brought a new disease to the healthcare provider which we previously thought only affected the soldier moral distress syndrome second only to moral injury In this book we introduce the concept of moral distress syndrome which includes any or all of the following depression PTSD risk of suicide divorce emotional detachment and the inability to build healthy relationships and empathy While veterans can report to veteran hospitals for treatment the physician cannot find treatment or support without fear of losing their license their hospital privileges and their job Therefore they are stuck dealing with the issue themselves along with their family or their circle of friends To raise decisive awareness of the problems related to moral distress we wrote this book This book is designed around physicians talking to other physicians about their moral distresses in a safe space It brings all the aspects of the moral distress syndrome in a format familiar to the physician grand rounds with a magistral lecture where the audience asks the question and directly participates on the subject The reader will feel like part of the audience and may want to ask their own questions as the book progresses The format of the book is divided into three parts In the first part the research data and a crude number of problems are given moral distress syndrome PTSD burnout suicide divorce rates emotional detachment legal distress syndrome physicians leaving medicine and the feeling of being a hamster in a wheel In the second part we embellish on real life experiences of physicians to highlight the pain and depth of the moral distress they feel We share stories around the character their family love life divorce etc to show the individual person behind the doctor In the third part we focus on society and physician suffering and the birth of moral distress This part focuses on the physician's empathy as a way to point out his problems weaknesses and issues and find possible solutions for him and other physicians facing the same issues At the end of the third part we discuss how it is the responsibility of physicians patients and society as a whole to heal in the face of moral injury as recommended by the American Medical Association We finish with the search for good friends and safe spaces the cornerstones for the healing process Structure of the Chapters To make it easier to follow the material at the beginning of each chapter we outline the points discussed as a speaker outlines the material summarizing it in the first slide of each topic We hope that this way the readers can focus on the issues quickly throughout the book This book is formatted as a business novel and therefore the characters and situations are drawn from liberally As well as reading like a novel the reader can read each chapter separately and still understand the points
