**Strike Craft** Antony Preston, 1982 Military Ships Patrol Boats *International Stereotypers' and Electrotypers' Union Journal*, 1926 **Mars Station Mission. 2057-2061 AD. Archeologist Genesis.** Gregory Alan McKown, Welcome to the future Here is a story that started with the time of Noah and is what could not be discerned except by archeologist uncovering the ancient story It is not told as such because the various religious communities would not allow the TRUTH TO BE TOLD This goes into past generations and surpasses even our own generation into the future and we all stand in the shadow of history ignorant of the reality when the truth of evidence is staring you straight in the face It is an ancient society that has the patience to live in a distance from mankind while the story of our own identity becomes a struggle listed in my other work with the outcome waiting for the revealing of alien life that was our progenitors on Earth The surprising revelation of this story that is yet to be fulfilled could just as well be the prophecy of Nostradamus explained before the events are to happen in time **The Garment Worker**, 1927 **Deep Space Warfare** John C. Wright, 2019-11-08 Since the Cold War outer space has become of strategic importance for nations looking to seize the ultimate high ground World powers establishing a presence there must consider among other things how they will conduct warfare in orbit Leaders must dispense with Buck Rogers notions about operations in space and realize that policies there will have serious ramifications for geopolitics How should nations view space How should they fight there What would space warfare look like and how should strategists approach it Offering critical observations regarding this unique theater of international relations a military professional explores the strategic implications as human affairs move beyond Earth's atmosphere *Action Stations* William R. Forstchen, 2017-03-07 THEY PLANNED ON A NICE WAR There had been a century of peace and the politicians of Earth and its colonies were running on platforms of cutting wasteful military spending all while Earth's military tried to keep aging and obsolete ships flying and battle ready And while the swords rusted war clouds gathered on the horizon Contact had been made with the Kilrathi a warrior race feline in appearance and deadly in combat Yet even though they had annihilated or enslaved scores of other races throughout the galaxy and had attacked human colonies on the border worlds the government was not taking them seriously thinking that the Fleet could handle them with ease Commander Winston Turner knew that the government was moving toward a declaration of war against the Kilrathi in response to demands from the border worlds He also knew that the Fleet would be forced to operate under Plan Orange Five limited action and punitive responses only He only hoped that mankind would recognize its mistake before it was too late **Mars Station Mission. 4244-4248 AD. Archeologist Nemesis.** Gregory Alan McKown, Welcome to the future Here is a story that started with the time of Noah and is what could not be discerned except by archeologist uncovering the ancient story It is not told as such because the various religious communities would not allow the TRUTH TO BE TOLD This goes into past generations and surpasses even our own generation into the future and we all stand in the shadow of history ignorant of the reality when the
