Balintawak Rad Maningas,2015-04-08 The most popular form of indigenous self defense in the Philippines continues to be Balintawak eskrima and for good reason The martial art was created by Anciong Bacon and he taught the fighting technique to Ted Buot In this guidebook author Rad Maningas shares what he learned while training with Buot from 1979 to 2006 During those sessions no other students were present and the author learned the tradition techniques and history of Balintawak Now he passes down those teachings to other students and aspiring students so that they can appreciate and use this simple looking beautiful and effective form of self defense Buot taught the technique just as it was taught to him by Anciong which is believed by many to be the purist line of Balintawak The style differs from other forms of eskrima in key ways including relying on the left hand to lead Whether you are a beginner or advanced eskrimador this guidebook will help improve your eskrima and take it to another level **Pro-Systems: Combatives Volume One** Joseph Truncale,2015-03-14

Seeds of Mobilization Joan E. Cho,2024-02-13 South Korea is sometimes held as a dream case of modernization theory a testament to how economic development leads to democracy Seeds of Mobilization takes a closer look at the history of South Korea to show that Korea s advance to democracy was not linear Instead while Korea s national economy grew dramatically under the regimes of Park Chung Hee 1961 79 and Chun Doo Hwan 1980 88 the political system

first became increasingly authoritarian Because modernization was founded on industrial complexes and tertiary education these structures initially helped bolster the authoritarian regimes In the long run however these structures later facilitated the anti regime protests by various social movement groups most importantly workers and students that ultimately brought democracy to the country By using original subnational protest event datasets government publications oral interviews and publications from labor and student movement organizations Joan E Cho takes a long view of democratization that incorporates the decades before and after South Korea s democratic transition She demonstrates that Korea s democratization resulted from a combination of factors from below and from above and that authoritarian development itself was a hidden root cause of democratic development in South Korea Seeds of Mobilization shows how socioeconomic development did not create a steady pressure toward democracy but acted as a double edged sword that initially stabilized autocratic regimes before destabilizing them over time
