## Strike Hard:

*June Fourth* Jeremy Brown, 2021-04-01 The Tiananmen protests and Beijing massacre of 1989 were a major turning point in recent Chinese history In this new analysis of 1989 Jeremy Brown tells the vivid stories of participants and victims exploring the nationwide scope of the democracy movement and the brutal crackdown that crushed it At each critical juncture in the spring of 1989 demonstrators and decision makers agonized over difficult choices and saw how events could have unfolded differently The alternative paths that participants imagined confirm that bloodshed was neither inevitable nor necessary Using a wide range of previously untapped sources and examining how ordinary citizens throughout China experienced the crackdown after the massacre this ambitious social history sheds fresh light on events that continue to reverberate in China to this day

*Communities, Crime and Social Capital in Contemporary China* Lena Zhong, 2013-05-13 This book explores the theoretical and empirical dimensions of community crime prevention in China examining in particular the role of social capital in a rapidly modernizing economic social and political context In doing so it provides a vivid picture of contemporary crime and crime control in China as well as analyzing the very particular Chinese approach to community crime prevention looking at such social institutions as the household registration system the neighbourhood committee the work unit and the public security bureau The particular focus of this book is on BLSCC Building Little Safe and Civilized Communities in the city of Shenshen which has been undergoing rapid change The book looks at two contrasting communities within the city looking at their different characteristics and the differing ways in which social capital operates in relation to crime and crime prevention As well as shedding light on the hitherto largely hidden subject of crime prevention in China this book also makes an important contribution to wider debates about social capital and its potential an invaluable study based on unique research

**China's War on Terrorism** Martin I. Wayne, 2007-11-06 This book examines the success of China's counterinsurgency policies in fighting Islamic terrorism in its internal war in the Xinjiang province and draws lessons for the West in its war against global Jihadism

KidWorld the Role Playing Game , The Presbyterian Magazine Cortlandt Van Rensselaer, 1858

*The Next Frontier* David T Johnson, Franklin E Zimring, 2009-02-02 Today two thirds of the world's nations have abolished the death penalty either officially or in practice due mainly to the campaign to end state executions led by Western European nations Will this success spread to Asia where over 95 percent of executions now occur Do Asian values and traditions support capital punishment or will development and democratization end executions in the world's most rapidly developing region David T Johnson an expert on law and society in Asia and Franklin E Zimring a senior authority on capital punishment combine detailed case studies of the death penalty in Asian nations with cross national comparisons to identify the critical factors for the future of Asian death penalty policy The clear trend is away from reliance on state execution and many nations with death penalties in their criminal codes rarely use it Only the hard line authoritarian regimes of China Vietnam Singapore and North Korea execute with any frequency and when authoritarian states experience democratic reforms the rate of executions drops sharply as in Taiwan and South Korea Debunking the myth of Asian values Johnson and Zimring demonstrate that politics rather than culture or tradition is the major obstacle to the end of executions Carefully researched and full of valuable lessons *The Next Frontier* is the authoritative resource on the death penalty in Asia for scholars policymakers and advocates around the world

*New Crime in China* Ronald Keith, Zhiqiu Lin, 2005-12-16 Examining the crimes that have recently been of the greatest concern in China the authors assess the imbalance between public order and human rights in the way the Chinese legal system deals with crime The issue of crime is of particular importance both because current social

upheaval in China has greatly contributed to the increase of new crimes and because there is increasing international interest in Chinese law following the country's accession to the World Trade Organization This is an in depth study on contemporary Chinese law reform presenting a fascinating portrait of a society and legal system grappling with vast social change

**Righteous Revolutionaries** Jeffrey A. Javed, 2022-09-07 Righteous Revolutionaries illustrates how states appeal to popular morality shared understandings of right and wrong to forge new group identities and mobilize violence against perceived threats to their authority Jeffrey A Javed examines the Chinese Communist Party's mass mobilization of violence during its land reform campaign in the early 1950s one of the most violent and successful state building efforts in history Using an array of novel archival documentary and quantitative historical data this book illustrates that China's land reform campaign was not just about economic redistribution but rather part of a larger brutally violent state building effort to delegitimize the new party state's internal rivals and establish its moral authority Righteous Revolutionaries argues that the Chinese Party state simultaneously removed perceived threats to its authority at the grassroots and bolstered its legitimacy through a process called moral mobilization This mobilization process created a moral boundary that designated a virtuous ingroup of the masses and a demonized outgroup of class enemies mobilized the masses to participate in violence against this broadly defined outgroup and strengthened this symbolic boundary by making the masses complicit in state violence Righteous Revolutionaries shows how we can find traces of moral mobilization in China today under Xi Jinping's rule In an era where states and politicians regularly weaponize moral emotions to foment intergroup conflict and violence understanding the dynamics of violent mobilization and state authority are more relevant than ever before

**Force and Contention in Contemporary China** Ralph A. Thaxton, Jr, 2016-08-04 Why is contemporary China such a politically contentious place Relying on the memories of the survivors of the worst catastrophe of Maoist rule and documenting the rise of resistance and protest at the grassroots level this book explains how the terror hunger and loss of the socialist past influences the way in which people in the deep countryside see and resist state power in the reform era up to the present day repression of the People's Republic of China central government Ralph A Thaxton Jr provides us with a worm's eye view of an unknown China a China that cannot easily or fully be understood through made in the academy theories and frameworks of why and how rural people have engaged in contentious politics This book is a truly unique and disturbing look at how rural people relate to an authoritarian political system in a country that aspires to become a stable world power

**Law, Policy, and Practice on China's Periphery** Pitman B. Potter, 2010-09-13 This book is a comprehensive study of China's legal and political governance of the ethnic regions of China especially Inner Mongolia Tibet and Xinjiang and analyses its implication for Hong Kong and Taiwan

Xinjiang and China's Rise in Central Asia - A History Michael E. Clarke, 2011-03-08 The recent conflict between indigenous Uyghurs and Han Chinese demonstrates that Xinjiang is a major trouble spot for China with Uyghur demands for increased autonomy and where Beijing's policy is to more firmly integrate the province within China

This book provides an account of how China's evolving integrationist policies in Xinjiang have influenced its foreign policy in Central Asia since the establishment of the People's Republic in 1949 and how the policy of integration is related to China's concern for security and its pursuit of increased power and influence in Central Asia. The book traces the development of Xinjiang from the collapse of the Qing empire in the early twentieth century to the present and argues that there is a largely complementary relationship between China's Xinjiang Central Asia and grand strategy derived interests. This pattern of interests informs and shapes China's diplomacy in Central Asia and its approach to the governance of Xinjiang. Michael E. Clarke shows how China's concerns and policies although pursued with vigour in recent decades are of long standing and how domestic problems and policies in Xinjiang have for a long time been closely bound up with wider international relations issues.

**Routledge Handbook of International Criminology** Cindy J. Smith, Sheldon X. Zhang, Rosemary Barberet, 2011-05-03. The Routledge Handbook of International Criminology brings together the latest thinking and findings from a diverse group of both senior and promising young scholars from around the globe. This collaborative project articulates a new way of thinking about criminology that extends existing perspectives in understanding crime and social control across borders, jurisdictions and cultures and facilitates the development of an overarching framework that is truly international. The book is divided into three parts in which three distinct yet overlapping types of crime are analyzed: international crime, transnational crime and national crime. Each of these perspectives is then articulated through a number of chapters which cover theory and methods, international and transnational crime analyses and case studies of criminology and criminal justice in relevant nations. In addition, questions placed at the end of each chapter encourage greater reflection on the issues raised and will encourage young scholars to move the field of inquiry forward. This handbook is an excellent reference tool for undergraduate and graduate students with particular interests in research methods, international criminology and making comparisons across countries.

*Punishment in Contemporary China* Enshen Li, 2018-06-28. Punishment in contemporary China has experienced dramatic shifts over the last seven decades or so. This book focuses on the evolution, development and change of punishment in the Maoist (1949-1977), reform (1978-2001) and post-reform eras (2002-present) of China to understand the shaping and transformation of punishment within the context of a range of socio-cultural changes across different historical periods. It aims to fill the gap of existing research by developing a distinctive theoretical framework for the China's penalty, exploring it as a separate and complex legal-social system to observe the impact of social foundations, political, economic, genesis, cultural significance and meanings have exerted on penal form, discourse and force in contemporary China. It sheds light on the sociology of punishment in this socialist Party state by investigating law reform, penal policy, social control, crime prevention and sentencing as interconnected elements in the criminal justice and penal system. This book will be of great interest to those who study Chinese criminal law, penal and policing system as well as to law academics, criminologists and sociologists whose research interests lie in the fields of comparative criminology and criminal

justice      *Confronting Capital Punishment in Asia* Roger Hood, Surya Deva, 2013-11-07 With the strengthening focus worldwide on human rights there has been a rapid increase in recent years in the number of countries that have completely abolished the death penalty This is in recognition that it is a violation of the right to life and the right to be free from cruel inhuman and degrading punishment There has simultaneously been pressure on countries that still retain capital punishment to ensure that they at least apply the United Nations minimum human rights safeguards established to protect the rights of those facing the death penalty This book shows that the majority of Asian countries have been particularly resistant to the abolitionist movement and tardy in accepting their responsibility to uphold the safeguards The essays contained in this volume provide an in depth analysis of changes in the scope and application of the death penalty in Asia with a focus on China India Japan and Singapore They explain the extent to which these nations still fail to accept capital punishment as a human rights issue identify impediments to reform and explore the prospects that Asian countries will eventually embrace the goal of worldwide abolition of capital punishment      *Uyghur Women Activists in the Diaspora* Susan J.
