Strikes Bombs Bullets:

Bombs, Bullets and Bread Michael Kemp, 2018-09-06 During the late 19th and early 20th centuries a wave of political violence swept across the globe causing widespread alarm Described by the media of the day as propaganda of the deed assassinations bombings and assaults carried out by anarchists both individuals and conspirators were intended to incite revolution and established the precedents of modern terrorism Much has been written about these actions and the responses to them yet little attention has been given to the actors themselves Drawing on wide range of sources the author profiles numerous insurgents their deeds and their motives

Carrier Strike Eric Hammel, 2020-12-21 CARRIER STRIKE The Battle of the Santa Cruz Islands October 1942 By Eric Hammel The Battle of the Santa Cruz Islands a strategic naval action in the bitter Guadalcanal Campaign was history s fourth carrier versus carrier naval battle Though technically a Japanese victory the battle proved to be the Empire of Japan s last serious attempt to win the Pacific War by means of an all out carrier confrontation Only one other carrier battle occurred in the Pacific War in June 1944 in the Philippine Sea By then however the U S Navy s Fast Carrier Task Force was operational and Japan s dwindling fleet of carriers was outnumbered and completely outclassed Though hundreds of Japanese naval aviators perished in the great Marianas Turkey Shoot of June 19 20 1944 it was during the first four carrier battles in the six month period from early May through late October 1942 that the fate of Japan s small elite naval air arm was sealed It was at Coral Sea in May that Japan s juggernaut across the Pacific was blunted It was at Midway in June that Japan s great carrier fleet was cut down to manageable size And it was at Eastern Solomons in August and Santa Cruz in October that Japan s last best carrier air groups were ground to dust After their technical victory at Santa Cruz the Japanese withdrew their carriers from the South Pacific and were never able to use them again as a strategically decisive weapon Of the four Japanese aircraft carriers that participated in the Santa Cruz battle only one survived the war Following Santa Cruz and the subsequent series of air and surface engagements known as the Naval Battle of Guadalcanal the Imperial Navy s Combined Fleet never again attempted a meaningful strategic showdown with the U S Pacific Fleet Though several subsequent surface actions in the Solomons were clearly Japanese victories their results were short lived After November 1942 Japan could not again muster the staying power or the willpower to wage a strategic war with her navy Once the veteran carrier air groups had been shredded at Eastern Solomons and Santa Cruz Japanese carriers ceased to be a strategic weapon The Santa Cruz clash was deemed a Japanese victory because U S naval forces withdrew from the battlefield That is how victory and defeat are strictly determined But on the broader strategic level the U S Navy won at Santa Cruz because it was able to achieve its strategic goal of holding the line and buying time Japan was unable to achieve her strategic goal of defeating the U S Pacific Fleet in a final decisive all or nothing battle The technical victory cost Japan any serious hope she had of winning the Pacific naval war The victory at Santa Cruz cost Japan her last best hope to win the war in the Pacific Once again author historian Eric Hammel brings to the reading public an exciting

narrative filled with the latest information and written in the edge of the seat style that his readers have enjoyed for nearly two decades in nearly thirty acclaimed military history books As was the case with its companion volume *Carrier Clash* this new book is based upon American and Japanese battle reports and the recollections of many airmen and seamen who took part

Lightning Strike Donald A. Davis, 2025-09-23 This is the story of the fighter mission that changed World War II It is the true story of the man behind Pearl Harbor Admiral Isoroku Yamamoto and the courageous young American fliers who flew the million to one suicide mission that shot him down Yamamoto was a cigar smoking poker playing English speaking Harvard educated expert on America and that intimate knowledge served him well as architect of the Japanese attack on Pearl Harbor For the next sixteen months this military genius beloved by the Japanese people lived up to his prediction that he would run wild in the Pacific Ocean He was unable however to deal the fatal blow needed to knock America out of the war and the shaken United States began its march to victory on the bloody island of Guadalcanal Donald A Davis meticulously tracks Yamamoto's eventual rendezvous with death After American code breakers learned that the admiral would be vulnerable for a few hours a desperate attempt was launched to bring him down What was essentially a suicide mission fell to a handful of colorful and expendable U S Army pilots from Guadalcanal's battered Cactus Air Force Mississippian John Mitchell after flunking the West Point entrance exam entered the army as a buck private Though not a natural as an aviator he eventually became the highest scoring army ace on Guadalcanal and the leader of the Yamamoto attack Rex Barber grew up in the Oregon countryside and was the oldest surviving son in a tightly knit churchgoing family A few weeks shy of his college graduation in 1940 the quiet Barber enlisted in the U S Army I'm going to be President of the United States Tom Lanphier once told a friend Lanphier was the son of a legendary fighter squadron commander and a dazzling storyteller He viewed his chance at hero status as the start of a promising political career December 7 1941 found Besby Holmes on a Pearl Harbor airstrip firing his 45 handgun at Japanese fighters He couldn't get airborne in time to make a serious difference but his chance would come Tall and darkly handsome Ray Hine used the call sign Heathcliffe because he resembled the brooding hero of *Wuthering Heights* He was transferred to Guadalcanal just in time to participate in the Yamamoto mission a mission from which he would never return Davis paints unforgettable personal portraits of men in combat and unravels a military mystery that has been covered up at the highest levels of government since the end of the war

The Dawn of Carrier Strike David Hobbs, 2019-07-30 A biography of a British pilot set against the backdrop of the Royal Navy's fight to regain control of its aviation after the First World War The establishment of the RAF came at a cost and it was the Royal Navy that paid the price In 1918 it had been pre-eminent in the technology and tactics of employing aircraft at sea but once it lost control of its own air power it struggled to make the RAF prioritize naval interests in the process losing ground to the rival naval air forces of Japan and the United States This book documents that struggle through the cash-strapped 1920s and 30s culminating in the Navy regaining control of its aviation in 1937 but too late to properly prepare for the impending war However despite the lack of resources British naval flying had made progress especially in the advancement of carrier strike doctrine These developments are neatly illustrated by the experiences of Lieutenant William Lucy who was to become Britain's first accredited air ace of the war and to lead the world's first successful dive bombing of a major warship Making extensive use of the family archive this book also reproduces many previously unseen photographs from Lucy's album showing many aspects of life in the Fleet Air Arm up to the end of the Norway campaign The inter-war concentration on carrier strike would be spectacularly vindicated during World War II and it was the Royal Navy that had led the way
