The Striking Cabbies of Cairo and Other Stories John T. Chalcraft,2004-01-01 Challenges existing views of crafts and service workers in Egypt in the nineteenth and early twentieth centuries The Ashgate Companion to the History of Textile Workers, 1650–2000 Els Hiemstra-Kuperus,2016-04-01 This impressive collection offers the first systematic global and comparative history of textile workers over the course of 350 years This period covers the major changes in wool and cotton production and the global picture from pre industrial times through to the twentieth century After an introduction the first part of the book is divided into twenty national studies on textile production over the period 1650 2000 To make them useful tools for international comparisons each national overview is based on a consistent framework that defines the topics and issues to be treated in each chapter The countries described have been selected to included the major historic producers of woollen and cotton fabrics and the diversity of global experience and include not only European nations but also Argentina Brazil China Egypt India Japan Mexico Turkey Uruguay and the USA The second part of the book consists of ten comparative papers on topics including globalization and trade organization of production space identity workplace institutions production relations gender ethnicity and the textile firm These are based on the national overviews and additional literature and will help apply current interdisciplinary and cultural concerns to a subject traditionally viewed largely through a social and economic history lens Whilst offering a unique reference source for anyone interested in the history of a particular country s textile industry the true strength of this project lies in its capacity of international comparison By providing global comparative studies of key textile industries and workers both geographically and thematically this book provides a comprehensive and contemporary analysis of a major element of the world s economy This allows historians to challenge many of the received ideas about globalization for instance highlighting how global competition for lower production costs is by no means a uniquely modern issue and has b **An Incurable Past** Mériam N. A History of the Modern Middle East Betty S.

Anderson,2016-04-20 A History of the Modern Middle East offers a comprehensive assessment of the region stretching from the fourteenth century and the founding of the Ottoman and Safavid empires through to the present day protests and upheavals The textbook focuses on Turkey Iran and the Arab countries of the Middle East as well as areas often left out of Middle East history such as the Balkans and the changing roles that Western forces have played in the region for centuries to discuss the larger contexts and influences on the region s cultural and political development Enriched by the perspectives of workers and professionals urban merchants and provincial notables slaves students women and peasants as well as political leaders the book maps the complex social interrelationships and provides a pivotal understanding of the shifting shapes of governance and trajectories of social change in the Middle East Extensively illustrated with drawings photographs and maps this text skillfully integrates a diverse range of actors and influences to construct a narrative that is at once sophisticated and lucid A History of the Modern Middle East highlights the region s complexity and variation countering easy assumptions about the Middle East those who governed and those they governed the rulers rebels and rogues who shaped a region

The Arab Imago Stephen Sheehi,2021-08-10 The first history of indigenous photography in the Middle East The birth of photography coincided with the expansion of European imperialism in the Middle East and some of the medium s earliest images are Orientalist pictures taken by Europeans in such places as Cairo and Jerusalem photographs that have long shaped and distorted the Western visual imagination of the region But the Middle East had many of its own photographers collectors and patrons In this book Stephen Sheehi presents a groundbreaking new account of early photography in the Arab world The Arab Imago concentrates primarily on studio portraits by Arab and Armenian photographers in the late Ottoman Empire Examining previously known studios such as Abdullah Fr res Pascal S bah Garabed Krikorian and Khalil Raad the book also provides the first account of other pioneers such as Georges and Louis Sabounji the Kova Brothers Muhammad Sadiq Bey and Ibrahim Rif at Pasha as well as the first detailed look at early photographs of the annual pilgrimage to Mecca In addition the book explores indigenous photography manuals and albums newspapers scientific journals and fiction Featuring extensive previously unpublished images The Arab Imago shows how native photography played an essential role in the creation of modern Arab societies in Egypt Palestine Syria and Lebanon before the First World War At the same time the book overturns Eurocentric and Orientalist understandings of indigenous photography and challenges previous histories of the medium

Subalterns and Social Protest

Stephanie Cronin,2012-09-10 The articles in this collection provide an alternative view of Middle Eastern history by focusing on the oppressed and the excluded offering a challenge to the usual

elite narratives The collection is unique in its historical depth ranging from the medieval period to the present and its geographical reach including Iran the Ottoman Empire Turkey the Balkans the Arab Middle East and North Africa The first to focus on the oppressed and the excluded and their differing strategies of survival of negotiation and of protest and resistance the book covers both major social classes and sectors the working class the peasantry the urban poor women marginal groups such as gypsies and slaves Based on perspectives drawn from the work of the great European social historians and particularly inspired by Antonio Gramsci the collection seeks to restore a sense of historical agency to subaltern classes in the region and to uncover the politics of the people **Media of the Masses** Andrew Simon,2022-04-19

Media of the Masses investigates the social life of an everyday technology the cassette tape to offer a multisensory history of modern Egypt Over the 1970s and 1980s cassettes became a ubiquitous presence in Egyptian homes and stores Audiocassette technology gave an opening to ordinary individuals from singers to smugglers to challenge state controlled Egyptian media Enabling an unprecedented number of people to participate in the creation of culture and circulation of content cassette players and tapes soon informed broader cultural political and economic developments and defined modern Egyptian households Drawing on a wide array of audio visual and textual sources that exist outside the Egyptian National Archives Andrew Simon provides a new entry point into understanding everyday life and culture Cassettes and cassette players he demonstrates did not simply join other twentieth century mass media like records and radio they were the media of the masses Comprised of little more than magnetic reels in plastic cases cassettes empowered cultural consumers to become cultural producers long before the advent of the Internet Positioned at the productive crossroads of social history cultural anthropology and media and sound studies *Media of the Masses* ultimately shows how the most ordinary things may yield the most surprising insights *The Lived Nile* Jennifer L. Derr,2019-07-30

In October 1902 the reservoir of the first Aswan Dam filled and Egypt's relationship with the Nile River forever changed Flooding villages of historical northern Nubia and filling the irrigation canals that flowed from the river the perennial Nile not only reshaped agriculture and the environment but also Egypt's colonial economy and forms of subjectivity Jennifer L Derr follows the engineers capitalists political authorities and laborers who built a new Nile River through the nineteenth and early twentieth centuries The river helped to shape the future of technocratic knowledge and the bodies of those who inhabited rural communities were transformed through the environmental intimacies of their daily lives At the root of this investigation lies the notion that the Nile is not a singular entity but a realm of practice and a set of temporally spatially and materially specific relations that structured experiences of colonial economy From the microscopic to the regional the local to the imperial *The Lived Nile* recounts the history and centrality of the environment to questions of politics knowledge and the lived experience of the human body itself *Iran's Influence* Elaheh Rostami-Povey,2010-08-26 There is a saying in Arabic me and my brother against my cousin and me and my cousin against the outsider Iran's Influence is the first comprehensive analysis of the role that Iran plays both in Middle

Eastern and global politics Expert Iranian author Elaheh Rostami Povey provides a much needed account of one of the Middle East's most controversial and misunderstood countries Based on several years of original research carried out in Iran and across the Middle East this insightful guide presents not only a fascinating introduction to the country but also essential new ideas to help the reader understand the Middle East

The Power and the People Charles Tripp, 2013-02-25 This book is about power The power wielded over others by absolute monarchs tyrannical totalitarian regimes and military occupiers and the power of the people who resist and deny their rulers claims to that authority by whatever means The extraordinary events in the Middle East in 2011 offered a vivid example of how non violent demonstration can topple seemingly invincible rulers This book considers the ways in which the people have united to unseat their oppressors and fight against the status quo and probes the relationship between power and forms of resistance It also examines how common experiences of violence and repression create new collective identities This brilliant yet unsettling book affords a panoramic view of the twentieth and twenty first century Middle East through occupation oppression and political resistance

The Eastern Mediterranean and the Making of Global Radicalism, 1860-1914 Ilham Khuri-Makdisi, 2013-08-03 In this groundbreaking book Ilham Khuri Makdisi establishes the existence of a special radical trajectory spanning four continents and linking Beirut Cairo and Alexandria between 1860 and 1914 She shows that socialist and anarchist ideas were regularly discussed disseminated and reworked among intellectuals workers dramatists Egyptians Ottoman Syrians ethnic Italians Greeks and many others in these cities In situating the Middle East within the context of world history Khuri Makdisi challenges nationalist and elite narratives of Mediterranean and Middle Eastern history as well as Eurocentric ideas about global radical movements The book demonstrates that these radical trajectories played a fundamental role in shaping societies throughout the world and offers a powerful rethinking of Ottoman intellectual and social history

Ordinary Egyptians Ziad Fahmy, 2011-05-31 Examines how popular media and culture provided ordinary Egyptians with a framework to construct and negotiate a modern national identity

Lord Cromer Roger Owen, 2004 In the heyday of Empire just before the First World War Lord Cromer was second only to Lord Curzon in fame and public esteem In the days when Cairo and Calcutta represented the twin poles of British power in Asia and Africa Cromer's commanding presence seemed to radiate the essential spirit of imperial rule In this first modern biography Roger Owen charts the life of the man revered by the British and hated by today's Egyptians the real ruler of Egypt for nearly a quarter of a century A member of the famous City banking family of Baring Brothers Cromer in his youth seemed to be distinguished mainly by lack of academic ability and a taste for the fashionable pursuits of his day His first military posting to Corfu was welcomed by him on account of the excellent shooting to be had in the region Roger Owen shows how almost imperceptibly his commitment to public service grew due in part at least to his relationship with Ethel Errington who after long delay became his first wife From the island outposts of the old British Empire to India the jewel in its crown and finally to the new Empire in Africa Cromer represented the might of

Britain's Empire Few imperial administrators had either his range of experience or his long practice of ruling different non-European peoples at a time when the whole notion of Empire itself entered more and more into the metropolitan political debate. Roger Owen makes extensive use of Cromer's official correspondence, family papers, memoirs, and the personal letters of his friends and colleagues to explore all aspects of Cromer's life in imperial government. He examines his innovative role in international finance and his energetic re-engagement with Britain's troubled political life following his formal retirement in 1907. Finally, he assesses the sometimes bitter legacy of imperial rule left by Cromer. Street Sounds Ziad

Fahmy, 2020-08-25 As the twentieth century roared on, transformative technologies from trains, trams, and automobiles to radios and loudspeakers fundamentally changed the sounds of the Egyptian streets. The cacophony of everyday life grew louder, and the Egyptian press featured editorials calling for the regulation of not only mechanized and amplified sounds but also the voices of street vendors, the music of wedding processions, and even the traditional funerary wails. Ziad Fahmy offers the first historical examination of the changing soundscapes of urban Egypt, highlighting the mundane sounds of street life while listening to the voices of ordinary people as they struggle with state authorities for ownership of the streets. Interweaving infrastructural, cultural, and social history, Fahmy analyzes the sounds of modernity using sounded sources as an analytical tool for examining the past. Street Sounds also reveals a political dimension of noise by demonstrating how the growing middle classes used sound to distinguish themselves from the Egyptian masses. This book contextualizes sound layering historical analysis with a sensory dimension, bringing us closer to the Egyptian streets as lived and embodied by everyday people. Composing Egypt Hoda A. Yousef, 2016-06-22

In this innovative history of reading and writing, Hoda Yousef explores how the idea of literacy and its practices fundamentally altered the social fabric of Egypt at the turn of the twentieth century. She traces how nationalists, Islamic modernists, bureaucrats, journalists, and early feminists sought to reform reading habits, writing styles, and the Arabic language itself in their hopes that the right kind of literacy practices would create the right kind of Egyptians. The impact of new reading and writing practices went well beyond the elites and the newly literate of Egyptian society, and this book reveals the increasingly ubiquitous reading and writing practices of literate, illiterate, and semi-literate Egyptians alike. Students who wrote petitions, women who frequented scribes, and communities who gathered to hear a newspaper read aloud all used various literacies to participate in social exchanges and civic negotiations regarding the most important issues of their day. Composing Egypt illustrates how reading and writing practices became not only an object of social reform but also a central medium for public exchange. Wide segments of society could engage with new ideas about nationalism, education, gender, and ultimately what it meant to be part of modern Egypt. **How**

Commerce Became Legal Omar Youssef Cheta, 2025-09-30 When Egypt's markets opened to private capital in the 1840s, a new infrastructure of commercial laws and institutions emerged. Egypt became the site of profound legal experimentation, and the resulting commercial sphere reflected the political contestations among the governors of Egypt, European consulates,

Ottoman rulers and a growing number of private entrepreneurs both foreign and local *How Commerce Became Legal* explores the legal and business practices that resulted from this fusion of Ottoman French and Islamic legal concepts and governed commerce in Egypt Focusing on the decades between the formalization of Cairo's practical autonomy within the Ottoman Empire in the 1840s and its incorporation into the British Empire in the 1880s Omar Cheta considers how modern laws redefined the commercial sphere shaping a mode of market governance that would persist for decades to come He highlights the demarcation of a new law defined commercial realm separate from the land regime and from civil or family centered exchanges and reconstructs these changes through both legal codes and state orders as well as individual merchant voices preserved in court documents As this book documents both individual experiences and structural explanations it offers a rare perspective on the scope and reach of market governance over the mid nineteenth century revealing changes simultaneously from within and without state institutions
