Germany, 2011-08-15 In the 1960s and

1970s New Orleans experienced one of the greatest transformations in its history. Its people replaced Jim Crow, fought a War on Poverty, and emerged with glittering skyscrapers, professional football, and a building so large it had to be called the Superdome. New Orleans after the Promises looks back at that era to explore how a few thousand locals tried to bring the Great Society to Dixie. With faith in God and American progress, they believed that they could conquer poverty, confront racism, establish civic order, and expand the economy. At a time when liberalism seemed to be on the wane nationally, black and white citizens in New Orleans cautiously partnered with each other and with the federal government to expand liberalism in the South. As Kent Germany examines how the civil rights, antipoverty, and therapeutic initiatives of the Great Society dovetailed with the struggles of black New Orleanians for full citizenship, he defines an emerging public-private governing apparatus that he calls the Soft State, a delicate arrangement involving constituencies as varied as old-money civic leaders and Black Power proponents who came together to sort out the meanings of such new federal programs as Community Action, Head Start, and Model Cities. While those diverse groups struggled violently on occasion to influence the process of racial inclusion and the direction of economic growth, they dramatically transformed public life in one of America's oldest cities. While many wonder now what kind of city will emerge after Katrina, New Orleans after the Promises offers a detailed portrait of the complex city that developed after its last epic reconstruction.

Delivered from Evil Ron Franscell, 2011-01-01. A 12-year-old boy cowers in his closet while a lunatic killer slaughters his family; a nursing student unwittingly opens her home to the serial killer on her front porch; an 11-year-old girl drifts alone at sea on a flimsy cork raft for almost four days after a mass murderer kills her vacationing family aboard a chartered yacht; a brave firefighter suddenly finds himself in the crosshairs of a racist sniper almost nine stories above the ground. And astonishingly, they all survived. From Howard Unruh's 1949 shooting rampage through a quiet New Jersey neighborhood to Louisiana serial killer Derrick Todd Lee's reign of terror in 2002, the corpses piled up, and few lived to tell the horror. Now award-winning journalist Ron Franscell explores the wounded hearts and minds of the ordinary people these monsters couldn't kill. His mesmerizing accounts crackle with gritty details that put the reader in the midst of the carnage and offer a front-row seat on the complex, painful process of surviving the rest of their haunted lives. In intimate, gripping prose, Franscell takes the reader on a pulse-pounding dash through the murky intersection of pure evil and the potency of the human spirit. This journey into the darkest corners of the American crime scene is a penetrating work of literary journalism by a writer hailed as one of the most powerful new voices in true crime.

Courtroom Carnival S. L. Alexander, 2011-10-13. The outrageous antics of ten of Louisiana's high-profile legal celebrities on both sides of the courtroom are the focus of this fascinating book. Editor S. L. Alexander brings together communications and legal experts Jennifer John, Block Erin, Bremer Lyn, Koppel Glenn, Watts and Charles Zewe to delve into the legal foibles and follies that plague Louisiana's legal system. After an introduction to the intricacies of Louisiana's courtroom customs, each chapter provides a concise history of a colorful personality from former

four term governor and convicted felon Edwin Edwards's outlandish antics to wealthy entrepreneur Chicken King Al Copeland's many peccadilloes. Included are characters from both sides of the law such as TV reporter Richard Angelico, Jefferson Parish Sheriff Harry Lee known as the Chinese Cowboy, DA Harry Connick Sr known as much for his singing as his courtroom performances and many more. Courtroom Carnival Famous New Orleans Trials presents a fascinating and educational read from the overview of what makes the courtrooms of Louisiana so unique to the exposés of the bizarre characters on both sides of the bench.

Louisiana History Florence M. Jumonville, 2002-08-30 From the accounts of 18th century travelers to the interpretations of 21st century historians, Jumonville lists more than 6,800 books, chapters, articles, theses, dissertations, and government documents that describe the rich history of America's 18th state. Here are references to sources on the Louisiana Purchase, the Battle of New Orleans, Carnival, and Cajuns. Less explored topics such as the rebellion of 1768, the changing roles of women, and civic development are also covered. It is a sweeping guide to the publications that best illuminate the land, the people, and the multifaceted history of the Pelican State. Arranged according to discipline and time period, chapters cover such topics as the environment, the Civil War, and Reconstruction, social and cultural history, the people of Louisiana, local parish and sectional histories, and New Orleans. It also lists major historical sites and repositories of primary materials. As the only comprehensive bibliography of the secondary sources about the state, *Louisiana History* is an invaluable resource for scholars and researchers.

Sunbelt Cities Richard M. Bernard, Bradley Robert Rice, 2014-06-23 Between 1940 and 1980, the Sunbelt region of the United States grew in population by 112 percent, while the older, graying Northeast and Midwest together grew by only 42 percent. Phoenix expanded by an astonishing 1,138 percent. San Diego, Houston, Dallas, Fort Worth, Tampa, Miami, and Atlanta quadrupled in size. Even a Sunbelt laggard such as New Orleans more than doubled its population. *Sunbelt Cities* brings together a collection of outstanding original essays on the growth and late twentieth century political development of the major metropolitan areas below the thirty-seventh parallel. The cities surveyed are Albuquerque, Atlanta, Dallas, Fort Worth, Houston, Los Angeles, Miami, New Orleans, Oklahoma City, Phoenix, San Antonio, San Diego, and Tampa. Each author examines the economic and social causes of postwar population growth in the city under consideration and the resulting changes in its political climate. Major causes of growth, such as changing economic conditions, industrial recruitment, lifestyle preferences, and climate, are discussed. Particular attention is paid to the role of the federal government, especially the Pentagon, in encouraging development in the Sunbelt. Describing characteristic political developments of many of these cities, the authors note shifting political alliances, the ouster of machines, and business elites from political power, and the rise of minority and neighborhood groups in local politics. *Sunbelt Cities* is the first full-scale scholarly examination of the region popularly conceived as the Sunbelt. As one of the first works to thoroughly examine a wide range of cities within the region, it has served as a standard reference on the area for some time.

Under a Black Star Amari Johnson, 2025-06-24 Uncovering the spirit of freedom and self determination in New Orleans In Under a Black Star Amari Johnson explores what he defines as the maroon impulse among the BlackStar Community in the Algiers neighborhood of New Orleans This community sought autonomy for Black people facing systemic marginalization through denied employment insufficient education and a housing crisis following Hurricane Katrina establishing initiatives such as Kamali Academy a homeschool collective and BlackStar Books and Caff a bookstore and gathering place Instead of appealing to the city they built the community they desired by employing legacies of marronage disengagement flight and reengagement An active participant in the physical and ideological development of these autonomous spaces Johnson provides nuanced insights into the community s work toward liberation and self determination Demonstrating that marronage is a cultural tradition throughout the African Diaspora he focuses on the transtemporal maroon process to show how it is central to the pursuit of autonomy community and freedom From the swamps of southeastern Louisiana across urban obstacles and into BlackStar s creative spaces Johnson s path leads him to ask How did the New Orleans community mobilize the tradition of marronage to create autonomous spaces amid gentrification What forms might the maroon impulse take in the twenty first century This dynamic ethnographic memoir ultimately illuminates marronage as a potent form of

liberatory potential offering strategies for similar communities across the country and around the world **Louisiana** Bennett H. Wall, John C. Stephen Prince, 2021-02-10 For a brief moment in the summer of 1900 Robert Charles was arguably the most infamous black man in the United States After an altercation with police on a New Orleans street Charles killed two police officers and fled During a manhunt that extended for days violent white mobs roamed the city assaulting African Americans and killing at least half a dozen When authorities located Charles he held off a crowd of thousands for hours before being shot to death The notorious episode was reported nationwide years later fabled jazz pianist Jelly Roll Morton recalled memorializing Charles in song Yet today Charles is almost entirely invisible in the traditional historical record So who was Robert Charles really An outlaw A black freedom fighter And how can we reconstruct his story In this fascinating work K Stephen Prince sheds fresh light on both the history of the Robert Charles riots and the practice of history writing itself He reveals evidence of intentional erasures both in the ways the riot and its aftermath were chronicled and in the ways stories were silenced or purposefully obscured But Prince also excavates long hidden facts from the narratives passed down by white and black New Orleanians over more than a century In so doing he probes the possibilities and limitations of the historical imagination The Lampshade Mark Jacobson, 2010-09-14 Few growing up in the aftermath of World War II will ever forget the horrifying reports that Nazi concentration camp doctors had removed the skin of prisoners to make common everyday lampshades In The Lampshade bestselling journalist Mark Jacobson tells the story of how he came into possession of one of these awful objects and of his search to establish the origin and larger meaning of what can only be described as an icon of terror Jacobson's mind bending historical moral and philosophical journey into the recent past and his own soul begins in Hurricane Katrina ravaged New Orleans It is only months after the storm with America's most romantic city still in tatters when Skip Henderson an old friend of Jacobson's purchases an item at a rummage sale a very strange looking and oddly textured lampshade When he asks what it's made of the seller a man covered with jailhouse tattoos replies That's made from the skin of Jews The price 35 A few days later Henderson sends the lampshade to Jacobson saying You're the journalist you find out

what it is The lampshade couldn't possibly be real could it But it is DNA analysis proves it This revelation sends Jacobson halfway around the world to Yad Vashem in Jerusalem and to the Buchenwald concentration camp in Germany where the lampshades were supposedly made on the order of the infamous Bitch of Buchenwald Ilse Koch From the time he grew up in Queens New York in the 1950s Jacobson has heard stories about the human skin lampshade and knew it to be the ultimate symbol of Nazi cruelty Now he has one of these things in his house with a DNA report to prove it and almost everything he finds out about it is contradictory mysterious shot through with legend and specious information Through interviews with forensic experts famous Holocaust scholars and deniers Buchenwald survivors and liberators and New Orleans thieves and cops Jacobson gradually comes to see the lampshade as a ghostly illuminator of his own existential status as a Jew and to understand exactly what that means in the context of human responsibility One question looms as his search goes on what to do with the lampshade this unsettling thing that used to be someone It is a difficult dilemma to be sure but far from the last one since once a lampshade of human skin enters your life it is very very hard to forget
