Territorial Management Of Ethnic Conflict:

The Territorial Management of Ethnic Conflict John Coakley, 2004-08-02 The object of this book is to look at the manner in which states attempt to cope with ethnic conflict through territorial approaches This revised edition has new chapters covering Northern Ireland South Africa and Yugoslavia

Special Issue on the Territorial Management of Ethnic Conflict John Coakley, 1993

The Dilemmas of Ethnic Policy John Gaffar La Guerre, 2017-01-03 The Dilemmas of Ethnic Policy A Global Perspective argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power Ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources This book examines the experiences of five countries with a history of ethnic conflict former Yugoslavia Bosnia Herzegovina Guyana Trinidad and Tobago and the United States It finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences Often supposed solutions confuse cause and effect and in fact worsen ethnic conflict Attempts to address identity issues by pandering to them often led to further ethnic demands This book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups

Ethnic Conflict in Developing Societies Ann Marie Bissessar, 2017-06-14 This book examines the experience of post colonial territories and their attempts to manage ethnic communities within their countries The study focuses on Trinidad and Tobago Guyana Suriname and Fiji This project looks at the mechanisms which vary from legislation to political structures systems and institutions that have been introduced to allow for greater integration by these communities and assesses their strengths and weaknesses

The Routledge Handbook of Ethnic Conflict Karl Cordell, Stefan Wolff, 2016-01-22 A definitive global survey of the interaction of ethnicity nationalism and politics this handbook blends rigorous theoretically grounded analysis with empirically rich illustrations to provide a state of the art overview of the contemporary debates on one of the most pervasive international security challenges today Fully updated for the second edition the book includes a new section which offers detailed analyses of contemporary cases of conflict such as in Ukraine Kosovo the African Great Lakes region and in the Kurdish areas across the Middle East thus providing accessible examples that bridge the gap between theory and practice The contributors offer a 360 degree perspective on ethnic conflict from the theoretical foundations of nationalism and ethnicity to the causes and consequences of ethnic conflict and to the various strategies adopted in response to it Without privileging any specific explanation of why ethnic conflict happens at a particular place and time or why attempts at preventing or settling it might fail or succeed The Routledge Handbook of Ethnic Conflict enables readers to gain a better insight into such defining moments in post Cold War international history as the disintegration of the Soviet Union and Yugoslavia and their respective consequences the genocide in Rwanda and the relative success of conflict settlement efforts in Northern Ireland By contributing to understanding the varied and multiple causes of ethnic conflicts and to learning from the successes and

failures of their prevention and settlement the Handbook makes a powerful case that ethnic conflicts are neither unavoidable nor unresolvable but rather that they require careful analysis and thoughtful and measured responses

Federalism and Ethnic Conflict Regulation in India and Pakistan K. Adeney, 2016-01-12 Katharine Adeney demonstrates that institutional design is the most important explanatory variable in understanding the different intensity and types of conflict in the two countries rather than the role of religion Adeney examines the extent to which previous constitutional choices explain current day conflicts

Managing and Settling Ethnic Conflicts NA NA, 2016-09-27 Interest in the study of ethnic conflict has grown over the past decade This is partly due to its re emergence in Central and Eastern Europe after the collapse of communism as well as its prolonged and violent manifestation in Sri Lanka East Timor Ethiopia Eritrea the Middle East Corsica and the Spanish part of the Basque country Moreover events in Kosovo and East Timor prompted the international community to engage in controversial and often difficult peace making and peacekeeping operations This collection seeks to explore the issues surrounding this type of conflict Following a theoretical introduction recognized experts in ethnopolitics provide in depth case studies covering each of the major approaches to conflict management and settlement in different geographic regions The conclusion summarizes the findings and assesses future prospects Thus a comprehensive picture of the state of the discipline emerges alongside an overview of current ethnic conflicts worldwide

Pathways from Ethnic Conflict John Coakley, 2013-09-13 The book begins with an agenda setting introduction which will provide an overview of the central question being addressed such as the circumstances associated with the move towards a political settlement the parameters of this settlement and the factors that have assisted in bringing it about The remaining contributions will focus on a range of cases selected for their diversity and their capacity to highlight the full gamut of political approaches to conflict resolution The cases vary in the intensity of the conflict from Belgium where it is potential rather than actual to Sri Lanka where it has come to a recent violent conclusion in the geopolitical relationship between the competing groups from Cyprus where they are sharply segregated geographically to Northern Ireland where they are intermingled in the extent to which a stable constitutional accommodation has been reached ranging from the Basque Country with a large range of unresolved problems to South Africa which has achieved a significant level of institutional stability This book ranges over the world s major geopolitical zones including Asia the Middle East Africa and Europe and will be of interest to practitioners in the field of international security This book was published as a special issue of Nationalism and Ethnic Politics

The United Nations as a Dispute Settlement System Connie Peck, 2023-09-14 This text reviews the preventive diplomacy of the United Nations suggesting that the Security Council is not well suited to the task What is needed it argues is a less political and more professional approach namely a larger and more autonomous role for the Secretary General and the development of a greater specialist capacity within the Secretariat The work gives appropriate weight to the importance of peace building both before and after conflict as an integral part of conflict prevention and the United Nations role therein

Nationalism

Philip Spencer, Howard Wollman, 2002-07-09 Spencer and Wollman seek to challenge fixed notions of national identity ethnicity and culture to more fully explore and understand the contemporary complexities of citizenship and the genuine potential for a cosmopolitan democracy International Mediation in Civil Wars Timothy D Sisk, 2009-01-08 This book evaluates the role of international mediators in bringing civil wars to an end and makes the case for powerful peacemaking using incentives and sanctions to leverage parties into peace As internal violence within countries is a hugely significant threat to international peace in the post Cold War era the question of how these wars end has become an urgent research and policy question This volume explores a critical aspect of peacemaking that has yet to be sufficiently evaluated the turbulent period beyond the onset of formal or open negotiations to end civil wars and the clinching of an initially sustainable negotiated settlement The book argues that the transnational flow of weapons resources and ideas means that when civil wars today end they are more likely to do so at the negotiating table than on the battlefield It uses bargaining theory to develop an analytical framework to evaluate peace processes moving from stalemate in wars to negotiated settlement and it rigorously analyses the experiences of five cases of negotiated transitions from war and the role of international mediators South Africa Liberia Burundi Kashmir and Sri Lanka **Cyprus and its Conflicts** Vaia Doudaki, Nico Carpentier, 2017-11-01 The Mediterranean island of Cyprus is the site of enduring political military and economic conflict This interdisciplinary collection takes Cyprus as a geographical cultural and political point of reference for understanding how conflict is mediated represented reconstructed experienced and transformed Through methodologically diverse case studies of a wide range of topics including public art urban spaces and print broadcast and digital media it assembles an impressively multifaceted perspective one that provides broad insights into the complex interplay of culture conflict and identity *The International Spread of Ethnic Conflict* David A. Lake, Donald Rothchild, 2020-10-06 The wave of ethnic conflict that has recently swept across parts of Eastern Europe the former Soviet Union and Africa has led many political observers to fear that these conflicts are contagious Initial outbreaks in such places as Bosnia Chechnya and Rwanda if not contained appear capable of setting off epidemics of catastrophic proportions In this volume David Lake and Donald Rothchild have organized an ambitious sophisticated exploration of both the origins and spread of ethnic conflict one that will be useful to policymakers and theorists alike The editors and contributors argue that ethnic conflict is not caused directly by intergroup differences or centuries old feuds and that the collapse of the Soviet Union did not simply uncork ethnic passions long suppressed They look instead at how anxieties over security competition for resources breakdown in communication with the government and the inability to make enduring commitments lead ethnic groups into conflict and they consider the strategic interactions that underlie ethnic conflict and its effective management How why and when do ethnic conflicts either diffuse by precipitating similar conflicts elsewhere or escalate by bringing in outside parties How can such transnational ethnic conflicts best be managed Following an introduction by the editors which lays a strong theoretical foundation for approaching these questions

Timur Kuran Stuart Hill Donald Rothchild Colin Cameron Will H Moore and David R Davis examine the diffusion of ideas across national borders and ethnic alliances Without disputing that conflict can spread James D Fearon Stephen M Saideman Sandra Halperin and Paula Garb argue that ethnic conflict today is primarily a local phenomenon and that it is breaking out in many places simultaneously for similar but largely independent reasons Stephen D Krasner Daniel T Froats Cynthia S Kaplan Edmond J Keller Bruce W Jentleson and I William Zartman focus on the management of transnational ethnic conflicts and emphasize the importance of domestic confidence building measures international intervention and preventive diplomacy

Confronting Ethnic Conflict Jennifer L. De Maio, 2009-01-01 Confronting Ethnic Conflict critically assesses the role of external intervention in managing selected ethnic conflicts in Africa Given the pervasive threat of ethnic conflict and the growing incidence of internal wars spilling across borders understanding the impact of third party intervention on conflict prevention durable peaceful governance and amicable social relations becomes a critical exercise for any scholar of conflict management The purpose of this project is to determine whether intervention strategies undertaken by international regional and subregional actors can be devised or improved so as to maximize the likelihood of successful conflict management in the case of internal conflicts particularly ethnic conflicts As the literature and empirical evidence suggest third party intervention does not always prevent or end violence De Maio contends that external involvement is more likely to lead to effective conflict management if it works to alter the perceptions of the antagonists and ensures that the parties truly own the peace This book focuses on four cases in detail the Somali crisis from 1988 to 1992 the Burundi conflict from 1995 to 2003 the protracted conflict in Sudan from 1983 to 2005 and the 1994 KwaZulu Natal civil conflict in South Africa The cases were selected because their varying outcomes and different types of third party involvement suggest that insights can be gained into the conditions that determine successful third party intervention

Religion and Violence Jeffrey Ian Ross, 2015-03-04 First Published in 2015 Daily newspaper headlines talk radio and cable television broadcasts and Internet news web sites continuously highlight the relationship between religion and violence These media contain stories about such diverse incidents as suicide attacks by Islamic fundamentalists in Afghanistan Iraq Israel Pakistan and elsewhere and assassinations of doctors who perform abortions by white American Christian true believers in the United States How does one make sense of the role of religion in violence and of perpetrators of violence who cite religion as a motivation This encyclopedia includes a wide range of entries biographies of key figures historical events religious groups countries and regions where religion and violence have intersected and practices rituals and processes of religious violence

The Griqua Conundrum Linda Waldman, 2007 This book offers a reconceptualisation of indigenous people and their political involvement It demonstrates the deep intertwining of constructions of indigenism and identity with national social and political histories and argues that differences and fractures within the indigenous movement between leaders spokespeople and ordinary men and women shape the nature of indigenous politics both nationally and internationally South Africa s

resident population of Griqua provide the context for this exploration of indigenous mobilisation politics and ethnic identity. The Griqua people have long sought and only recently acquired official recognition within their country of birth. Using qualitative research methodologies and an anthropological approach, this book documents negotiation between Griqua leaders, organisers and government officials and in so doing details a complex process of mediation and interaction generally overlooked in the discourse of indigenous identity. This exploration of identity is essential to understanding post-apartheid South African history, politics and society. In addressing the marginalisation of Griqua followers and examining the meaning of being Griqua for those quieter, poorer people who live in the small town of Griquatown and who are relatively isolated from the Indigenous People's Forum and the United Nations, the book also examines the hidden dimensions of political and indigenous mobilisation.

Ethnonationalism in the Contemporary World Daniele Conversi, 2004. Essential reading for anyone interested in problems associated with ethnicity and nationalism; it offers a guide to understanding the ethnonational forces that underpin much of recent terrorist activity.

Politics of Ethnic Accommodation Lenhard Hamza, 2022-01-04. This book uses a unique and innovative way to show the benefits and perils of decentralization as a mechanism to solve internal ethnic conflicts. It explores how administrative, fiscal and political dimensions of decentralization have affected the process of ethnic minorities' accommodation in Kosovo. It provides analysis and answers on how decentralization has reduced the chances of a conflict. It also critically examines the impact of the agreement for establishing the Association of Serb Majority Municipalities on decentralization and the overall governance system of Kosovo. Lenhard Hamza is an independent political scientist engaged in international development cooperation. He uses his fieldwork to research and create new ways of thinking on Decentralization and Local Governance in theory and practice.

Managing Diversity Linda Cardinal, Nicholas Brown, 2007-10-15. Australia, Canada and Ireland are all engaged in questions of multiculturalism and in the politics of recognition and reconciliation; the opportunities and pressures of geographic regionalism; shifts in political agendas associated with the impact of neo-liberalism and moves to frame political agendas less at the macro level of state intervention and more at the level of community partnership and empowerment. In related but distinct ways, each state is being challenged to devise policies and offer outcomes that address an unfolding and unsteady synthesis of issues relating to citizenship, the role of nation-states in a borderless world and the management of economic change while preserving an enabling sense of national identity and social cohesion. Analyzing issues ranging from urban planning and the provision of broadcasting services for minority languages to principled debates over basic rights and entitlements, these essays offer penetrating summaries of each political culture while also prompting comparative reflection on the broad theme of democracy and difference. Analyzing issues ranging from urban planning and the provision of broadcasting services for minority languages to principled debates over basic rights and entitlements, these essays offer penetrating summaries of the political cultures of Australia, Canada and Ireland. Published in English.

Democratizing the Hegemonic State Ilan Peleg, 2007-07-23. This

book provides a new comprehensive analytical framework for the examination of majority minority relations in deeply divided societies Hegemonic states in which one ethnic group completely dominates all others will continue to face enormous pressures to transform because they are out of step with the new emerging global governing code that emphasizes democracy and equal rights Refusal to change would lead such states to lose international legitimacy and face increasing civil strife instability and violence Through systematic theoretical analysis and careful empirical study of 14 key cases Peleg examines the options open to polities with diverse populations Challenging the conventional wisdom of many liberal democrats Peleg maintains that the preferred solution for a traditional hegemonic polity is not merely to grant equal rights to individuals but also to incorporate significant group rights via mega constitutional transformation
