Territory Function By Friedmann John Weaver Clyde:

Territory and Function John Friedmann, Clyde Weaver, 1979
Rudy Weissenbacher, 2020-01-29 This book revisits the forgotten history of the European Dependency School in the 1970s and 1980s explores core periphery relations in the European integration process and the crises of the contemporary European Union from a dependency perspective and draws lessons for alternative development paths Was disintegration of the European Union foretold With the benefit of hindsight the critical analysis of the European integration process by researchers from the European Dependency School is most timely The current framework of the European Union seems to be haunted by issues that had been very familiar to the researchers of the European Dependency School such as a lack of a common and balanced industrial policy How do the situations compare What lessons can be learnt for alternative development policies in contemporary Europe Weissenbacher tackles these issues which are of relevance to all interested in political economy political science development studies and regional development

Dwellers in the Land Kirkpatrick Sale, 2000 Imagine a world structured around ecological and cultural diversity rather than national and political parameters In response to present and impending ecological and economic crises Kirkpatrick Sale offers a definitive introduction to the unique concept of bioregionalism an alternative way of organizing society to create smaller scale more ecologically sound individually responsive communities with renewable economies and cultures He emphasizes among many other factors the concept of regionalism through natural population division settlement near and stewardship of watershed areas and the importance of communal ownership of and responsibility for the land *Dwellers in the Land* focuses on the realistic development of these bioregionally focused communities and the places where they are established to create a society that is both ecologically sustainable and satisfying to its inhabitants

Coordinating Research and Management to Enhance Protected Areas David Harmon,1994

Planning Regional Futures John Harrison,Daniel Galland,Mark Tewdwr-Jones,2021-09-30 Planning Regional Futures is an intellectual call to engage planners to critically explore what planning is and should be in how cities and regions are planned This is in a context where planning is seen to face powerful challenges professionally intellectually and practically in ways arguably not seen before planning is no longer solely the domain of professional planners but opened up to a diverse group of actors the link between the study of cities and regions which traditionally had a disciplinary home in planning schools and the like steadily eroded as research increasingly takes place in interdisciplinary research institutes the advent of real time modelling posing fundamental challenges for the type of long term perspective that planning has traditionally afforded regional planning and its mixed record of achievement and the link between region and planning becoming decoupled as alternative regional and other spatial approaches to planning have emerged This book takes up the intellectual and practical challenge of planning regional futures moving beyond the narrow confines of existing debate and providing a forum for debating what planning is and should be for in how we plan cities and regions The chapters in this book were originally published as a special issue of Regional Studies

The Spatial Organization Of New Land Settlement In Latin America Jacob O Maos,2019-07-11 Land settlement in Latin America has become a subject of growing concern as governments renew efforts to develop agrarian potential and to relieve the pressure on overpopulated rural and urban areas In this book land settlement is viewed as the development of resources both human and natural The spatial organization of land settlement is examined in light of social and spatial patterns that may complement economic activities lead to viable communities and facilitate the provision of social and cultural amenities The farm family is seen as the basic socioeconomic unit and the family farmstead as the basic spatial nucleus

Beyond Beijing Dali L. Yang,2012-10-12 This book offers a balanced assessment of the dynamics and consequences of the decentralization of power and resources in post Mao China The author argues that decentralization has increased tensions amongst ethnic groups and unleashed much competition and emulation among local governments This book is an authoritative study of an issue that will remain highly visible on China s political agenda for the foreseeable future

The Government of Emergency Stephen J. Collier,Andrew Lakoff,2021-11-30 In the middle decades of the twentieth century in the

wake of economic depression war and in the midst of the Cold War an array of technical experts and government officials developed a substantial body of expertise to contain and manage the disruptions to American society caused by unprecedented threats Today the tools invented by these mid twentieth century administrative reformers are largely taken for granted assimilated into the everyday workings of government As Stephen Collier and Andrew Lakoff argue in this book the American government s current practices of disaster management can be traced back to this era Collier and Lakoff argue that an understanding of the history of this initial formation of the emergency state is essential to an appreciation of the distinctive ways that the U S government deals with crises and emergencies or fails to deal with them today This book focuses on historical episodes in emergency or disaster planning and management Some of these episodes are well known and have often been studied while others are little remembered today The significance of these planners and managers is not that they were responsible for momentous technical innovations or that all their schemes were realized successfully Their true significance lies in the fact that they formulated a way of understanding and governing emergencies that has come to be taken for granted

Rural Settlement Structure And African Development Marilyn Silberfein, 2019-09-16 This volume is the result of a group of researchers applying their insights and experience to a common theme All the authors are concerned with rural development in Africa and all have

focused on the connection between the development process and the arrangement of people and their built environment in rural space Both anthropologists and geographers have contributed to the dialogue on this subject and representatives of the two disciplines are included in this volume The members of this group have never all been in the same place at the same time and so have utilized various electronic modes of communication to link their locations around the world Two conferences were organized however among a subset of the whole in order to generate a group discussion One of these meetings was a symposium on African rural development held at Temple University while a second was organized at the African Studies Association Meetings in Toronto Both opportunities helped raise issues that found their way into individual chapters The audience in each case further stimulated our thinking The City and the Grassroots Manuel Castells, 1983

Community Architect Kristin E.
