**Flight MH370 - The Mystery** Nigel Cawthorne,2014-05-15 On the 8th of March at 00 41 Malaysia Airlines Flight MH370 took off from Kuala Lumpur International Airport At 01 19 the pilot bid air traffic control good night Two minutes later the plane and its 227 passengers vanished from the skies To date no trace of the aircraft has been found Experienced author and journalist Nigel Cawthorne has researched the case with incredible thoroughness revealing the most compelling explanations behind the mystery which has gripped the world **Travel Tales Collections: Airplane Stories** Michael Brein, Ph.D.,2015-04-20 The Travel Tales Collection Airplane Stories No 9 April 2015 is part of Michael Brein s Collections travel tales series and contains among the best travel stories from Michael s huge collection of travel tales that he has gathered in interviews with nearly 1 750 world travelers and adventurers during his four decades of travel to more than 125

countries throughout the world Travel Tales Collections are groups of very interesting similar travel stories of a kind on a variety of very specific travel subjects themes or countries such as close calls great escapes pickpocketing scams safety and security in travel Paris Morocco Mexico and so on Eventually several hundred Collections on all sorts of specific travel subjects themes and countries will be available on all the major eReaders An airline story is in the news today And so it goes There s hardly a day now that an airline incident of some sort or another is not in the news We re taking a lot closer look at air travel these days than ever before Therefore as regards the psychology of travel we should take a much closer look at what actually happens on airplanes And so in The Travel Psychologist Travel Tales Series that s exactly what I do Air travel life stories include the full range of the human air travel experience from pre boarding incidents to arrivals from the cabin to the loo from the public and private lives of airline personnel as well as passengers from the pilots to the stewards to you from that which makes us laugh to that which makes us cry as well as unfortunately to that which creates abject fear and terror in the skies Air travel is now more in the public eye than ever before Thus it is no wonder now that regarding the experience of traveling in the skies like any other aspect of travel we are not only more circumspect than ever before we are on closer view now much more aware of how air travel is now seen to elicit the full range of the human experience And in this one particular unique microcosmic window of scrutiny we see that air travel is but one unique travel environment in a cornucopia of many others and one that is neither unimportant insignificant indistinct nor independent with respect to the overall experience of travel Love it hate it or simply endure it the lure of traveling in the skies whether as just a means to a place or as an end in and of itself the activity of flying per se airplane travel stories not only endure they are on the increase Whether you ve survived a crash been bombed by terrorists been part and parcel of other scares and frights been harassed upon departure or on arrival or even laughed yourself stupid on a flight your tales are memorable and it is my personal mission that some of them are repeated here Introduction to Travel Tales of Airplanes Terror in the Skies Part 1 Travel Tales of Airplanes Terror in the Skies is divided into two parts simply because there is so much material Part 1 appears here in the current Travel Tales Collection issue No 9 Apr 2015 and serves as a general introduction to this subject matter Part 2 The unabridged expanded forthcoming ebook Travel Tales of Airplanes Terror in the Skies part of The Travel Psychologist Travel Tales Series is a larger volume and includes both Parts 1 and 2 The travel stories in Part 1 consist mainly of the personal air travel tales of Michael Brein me the author plus those of a few other contributors The travel stories in Part 2 are largely the air travel stories of world travelers and adventurers whom I ve encountered and interviewed all throughout my travels over the last four decades to 125 countries Mostly your own air travel will typically be exciting interesting and without incident but odd things can and do happen to you at almost any turn along the way in your travels and air travel is no exception Unfortunately the restricted constricted and microcosmic environment of the airplane lends itself sometimes to a variety of episodes illustrating the vagaries of the human temperament and behavior that rear their ugliness on airplanes from time to time whereby air

passengers and crew sometimes act and behave in ways that are often atypical and different from how we normally would behave at home I hope only peaceful and laughable events happen to you in your air travels I sincerely hope that the negative travel tales of airplanes do not happen to you in your own travels If something interesting happens to you in your air travels you deserve to also be in these pages Got an interesting travel tale for The Travel Psychologist Travel Tales Series Please contact Michael Brein at michaelbrein gmail com Note Some stories may be repeated in other eBooks in the series depending on the countries and subjects covered

**MH370 The Secret Files - At Last...The Truth Behind the Greatest Aviation Mystery of All Time** Nigel Cawthorne,2016-03-03 ON 8 MARCH 2014 MALAYSIA AIRLINES FLIGHT 370 TOOK OFF FROM KUALA LUMPUR INTERNATIONAL AIRPORT BOUND FOR BEIJING

LESS THAN AN HOUR AFTER TAKEOFF SOMEWHERE OVER THE SOUTH CHINA SEA THE PLANE SIMPLY VANISHED ONE EYEWITNESS SAW A BURNING PLANE CRASH INTO THE SEA But confusing radar signals tracked an aircraft taking an erratic course across the Malaysian peninsula then on to the Andaman Sea Did it crash there Or did it fly on to land safely in disputed lands of Central Asia or the top secret CIA black site on Diego Garcia Data from the Rolls Royce engines tracked by Inmarsat was said to indicate that it might have ditched in the furthest reaches of the South Indian Ocean We know more about the surface of the moon than the bottom of the sea there And the weather and currents are so bad it may never be found Convenient Two years later the Australians are still searching at the cost of billions and have found nothing But was the search in such a remote place part of a cover up to distract the world s attention because the US Navy had in fact shot the plane down A huge plane along with 227 passengers and 12 crew cannot simply have vanished The Worldwide Web is a buzz with conspiracy theories Was the disappearance of MH370 related to the downing of MH17 over the Ukraine four months later Some have suggested that it was the same plane Or is the loss of MH370 more akin to the crash of Germanwings Flight 9525 after deranged pilot Andreas Lubitz deliberately flew the plane into the side of a mountain in the Alps killing all on board Since the invention of radio radar satellite navigation and the internet the world has become a smaller place The answer must be out there Or perhaps hidden within the pages of the secret files      The Open Court ,1924
