Kennedy, 2000 A pendant to two well received books by the same author on the departmental clubs during the early years of the Revolution this book is the product of thirty years of scholarly study including archival research in Paris and in more than seventy departments in France It focuses on the twenty eight months from May 1793 to August 1795 a period spanning the Federalist Revolt the Terror and the Thermidorian Reaction The Federalist Revolt in which many clubs were involved had momentous consequences for all of them and was in the local setting the principal cause of the Reign of Terror a period in which more than 5 300 communes had clubs that reached the zenith of their power and influence engaging in a myriad of political administrative judicial religious economic social and war related activities The book ends with their decline and final dissolution by a decree of the Convention in Paris *The Oxford History of the French Revolution*, 1990-07-26 This is the most authoritative comprehensive history of the French Revolution of 1789 Published to mark the bicentenary of its outbreak this survey draws on a generation of extensive research and scholarly debate to reappraise the most famous of all revolutions Opening with the accession of Louis XVI in 1774 the book

traces the history of France through revolution terror and counter revolution to the triumph of Napoleon in 1802 and analyses the impact of events both in France itself and the rest of Europe William Doyle shows how a movement which began with optimism and general enthusiasm soon became a tragedy not only for the ruling orders but for the millions of ordinary people all over Europe whose lives were disrupted by religious upheaval and civil and international war It was they who paid the price for the destruction of the old political order and the struggle to establish a new one based on the ideals of liberty and revolution in the face of widespread indifference and hostility

Nationality and Citizenship in Revolutionary France Michael Rapport, 2000-07-06 In 1789 the French Revolution opened with a cosmopolitan flourish and progressive observers across the world hailed a new era of international fraternity based on a new kind of politics Foreigners were welcomed to France to enrich the regenerated nation and to become citizens By the Terror of 1793 94 however this universalist promise had all but died Some foreigners in France were guillotined hundreds of others were jailed expelled watched closely and were obliged to carry special identity cards How and why foreigners were squeezed out of French social and political life and to what extent is the subject of this book Besides such issues as citizenship nationality passports and surveillance this study considers the

experience of specific types of foreigners like those who served in the French army in the clergy foreign radicals or patriots and those who contributed to French economic life The dramatic transformation in the fortunes of foreigners during the revolution reveals much about the origins of modern concepts of nationality and citizenship and the development of national identities In defining the limit of the nation the revolutionaries and foreigners alike faced difficulties which have particular resonance today

France, Britain, and the Struggle for the Revolutionary Western Mediterranean Joshua Meeks, 2017-01-23 This book investigates the conflict over control over the Western Mediterranean in the late eighteenth century The Western Mediterranean during the 1790s featured a constant struggle for control over the region While most histories point to military events such as the Italian Campaign as descriptive of this struggle between the two competing ideological forces of Revolutionary France and the Counter Revolutionary First Coalition led by Britain this book takes a different approach Rather than looking at the struggle between ideologies this book looks at the struggle within those ideologies arguing that the Western Mediterranean states were not simply the battlefields or the prizes of the struggle but were active participants with goals of autonomy or neutrality The focus stretches beyond conflict between France and Britain into the adaptation of ideology for different uses in Tuscany Toulon Algiers Spain and especially Corsica

Marseilles Bill Scott,1973 **Urban Rivalries in the French Revolution** Ted W. Margadant,2021-05-11 The reordering of France into a new hierarchy of administrative and judicial regions in 1791 unleashed an intense rivalry among small towns for seats of authority while raising vital issues for the vast majority of the French population Here Ted Margadant tells a lively story of the process of politicization magistrates lawyers merchants and other townspeople who petitioned the National Assembly not only boasted of their own communities and denigrated rival towns but also adopted revolutionary slogans and disseminated new political ideas and practices throughout the countryside The history of this movement offers a unique vantage point for analyzing the regional context of town life and the political dynamics of bourgeois leadership during the French Revolution Margadant explores the institutional crisis of the old regime that brought about the reordering considers the rhetoric and politics of space in the first year of the Revolution and examines the fate of small towns whose districts and law courts were suppressed Combining descriptive narrative with statistical analysis and computer mapping he reveals the important consequences of the new hierarchy for the urban development of France in the post Revolutionary era *The Jacobin Republic 1792-1794* Marc Bouloiseau,1983-11-17 The Jacobin Republic was the most difficult and dangerous phase of the Revolution when events begun in 1789 reached their climax The Republic was brief barely two years but it put up a victorious struggle against the armies of the European Coalition and against the forces of the counter revolution Gothic Fiction and the Invention of Terrorism Joseph Crawford,2013-09-12 Choice Outstanding Academic Title 2014 This book examines the connections between the growth of terror fiction the genre now known as Gothic in the late eighteenth century and the simultaneous appearance of the conceptual origins of terrorism as a category of political action In the 1790s Crawford argues four inter connected bodies of writing arose in Britain the historical mythology of the French Revolution the political rhetoric of terrorism the genre of political conspiracy theory and the literary genre of Gothic fiction known at the time as the terrorist novel writing All four bodies of writing drew heavily upon one another in order to articulate their shared sense of the radical and monstrous otherness of the extremes of human evil a sense which was quite new to the eighteenth century but has remained central to the ways in which we have thought and written about evil and violence ever since *The French Revolution and the People* David Andress,2006-08-23 The French Revolution of 1789 was the central event of modern history For the first time a major nation fell prey to political and then social revolution with civil war and the Reign of Terror following the execution of Louis XVI in January 1793 Although the Revolution started with the resistance of a minority to absolutist government it soon spread to involve the whole nation including the men and women who made up by far the largest part of it the peasantry as well as towns and craftsmen the poor and those living on the margins of society The French Revolution and the People is a portrait of the common people of France in the towns and in the countryside in Paris and Lyon in the Vendee Brittany Provence Popular grievances and reactions affected the events and outcome of the Revolution at all stages and in turn everyone in France was affected by the Revolution The French Revolution and the People is a vivid story of

conflict violence and death but there were winners as well as losers and not all the suffering was in vain as the injustices of the Ancien Regime were thrown off **Constructing Paris in the Age of Revolution** A. Potofsky, 2009-10-29 Examining the social and political history of workers and entrepreneurs engaged in constructing the French capital from 1763 1815 this book argues that Paris construction was a core sector in which archaic and innovative practices were symbiotically used by guilds the state and enterprises to launch the commercial revolution in France
