Midlarsky, 2000 Essays reflecting the most recent theoretically and empirically oriented research on international warfare *Terror on the High Seas* Yonah

Alexander, Tyler Richardson, 2009-09-03 A provocative new look at an important security topic examines terrorist threats and attacks on shipping and ports and provides strategies for safety Terror on the High Seas From Piracy to Strategic Challenge is a provocative look at maritime security and the steps that must be taken if terrorist threats are to be nullified From the Achille Lauro hijacking to the bombing of the USS Cole to attacks on shipping channels terrorists have employed a variety of tactics both successful and unsuccessful These have included the smuggling of arms and plots to bomb shipyards as well as attacks on Merchant Marine ships maritime offices fuel storage facilities and Navy personnel ships and facilities on shore and in port This book constitutes the first research effort after the unprecedented attacks of September 11 2001 to provide government industry and the academic and policy communities with a major resource on potential threats to the maritime environment Assuming that past tactics as well as a variety of other unconventional attacks will be utilized by both domestic and international groups well into the 21st century the book sagely outlines the response needed from government and industry to meet the coming challenges **Securing the Insecure States in Britain and Europe** Musa Khan

Jalalzai, 2017-11-10 **Failed States and the Origins of Violence** Tiffiany Howard, 2016-04-15 What makes a terrorist Is an individual inherently predisposed to be attracted to political violence or does exposure to a certain environment desensitize them in such a way that violence represents a viable mode for addressing political grievances Identifying state failure as the impetus for political violence this book addresses these questions and focuses on why existing extremist groups find failed states so attractive Utilizing global barometer data Tiffiany Howard examines the underpinnings of individual support for political violence and argues that an insidious pattern of deprivation within failed states drives ordinary citizens to engage in and support extreme acts of political violence A rigorous examination of four regions plagued by a combination of failed states and political violence Sub Saharan Africa The Middle East and North Africa Southeast and South Asia and Latin America this text draws parallels to arrive at a single conclusion that failed states are a natural breeding ground for terrorism and political violence Intelligence in Vex Musa Khan Jalalzai, 2018-11-29

Most discussions on electronic media and intellectual forums about the effects of globalization on national security focus on violent threats Notwithstanding the plethora of books journals and research papers on national and international security there is an iota research work on issue of interconnectedness The interconnectedness of violent threats and their mounting effect pose grave dangers to the aptitude of a state to professionally secure its territorial integrity Technological evolution and aggrandized interlinkage of our world in general and specifically information technology has affected people and society in different ways Daily life of every man and woman has become influenced by these challenges The twenty first century appeared with different class of National Security threats After the first decade world leaders research scholars journalists politicians and security experts grasped that the world has become the most dangerous place The avoidance of war was the primary objective of superpowers but with the end of the Cold War emergence of Takfiri Jihadism extremism and terrorism prompted many unmatched challenges

Home grown extremism and radicalization continues to expose a significant threat to the National Security of the EU and Britain The risks from state based threats have both grown and diversified The unmethodical and impulsive use of a military grade nerve agent on British soil is the worse unlawful act of bioterrorists **Terrorism** Richard Allan,1990 SCOTT copy 1 from the John Holmes Library collection *Terrorism, 1992-1995* Edward F. Mickolus,Susan L. Simmons,1997 This is the author s fifth chronology on international terrorism The volumes cover the period from 1968 through 1995 and provide the most comprehensive picture of international terrorist activities ever published As with the last four volumes this one also contains a bibliography on the key literature on the topic Terrorism in the period covered by this volume 1992 to 1995 followed many of the trends seen in the previous two decades While most people recall the spectacular events those were infrequent due in part to the security cooperation of like minded governments Most terrorist events were low level bombings with few casualties But the period saw the advent of a new type of terrorist non group Composed of small loosely organized bands of zealots with widespread contacts they have made combatting terrorism all the more difficult Given the problems of tracing groups and uncovering patterns this volume will be invaluable for scholars and researchers involved with contemporary nationalism fundamentalist groups and international terrorism *Terrorism, 2002-2004* Edward F. Mickolus,Susan L. Simmons,2006 *Terrorism, 1980-1990* Amos Lakos,1991-10-15 C.J. the Americas ,1991 *Foreign Affairs* ,1991 *Conversion of the Defense Industry in the Former Soviet Union* Thierry Malleret,1992 **United Nations Juridical Yearbook** United Nations,1990 Annual Report Institute for East-West Security Studies,1990 America and the World ,1990 **Monetary and Banking Reform in Postcommunist Economies** Institute for East-West Security Studies.
