surface countless ordinary everyday Germans actively resisted Hitler Some passed industrial secrets to Allied spies Some forged passports to help Jews escape the Reich For others resistance was as simple as writing a letter denouncing the rigidity of Nazi law No matter how small the act the danger was the same any display of defiance was met with arrest interrogation torture and even death Defying Hitler follows the underground network of Germans who believed standing against the Fuhrer to be more important than their own survival Their bravery is astonishing a schoolgirl beheaded by the Gestapo for distributing anti Nazi fliers a German American teacher who smuggled military intel to Soviet agents becoming the only American woman executed by the Nazis a pacifist philosopher murdered for his role in a plot against Hitler a young idealist who joined the SS to document their crimes only to end up to his horror an accomplice to the Holocaust This remarkable account illuminates their struggles yielding an accessible narrative history with the pace and excitement of a thriller

Santos,2009-01-01 This book examines how repertoires of speech and action that are often considered to be mutually exclusive those of church and state clash or unite during the postdisaster period as local communities and cities struggle to establish a stable collective identity Based on an analysis of forty in depth interviews with disaster response participants and

over 325 print media sources this study explores first the extent to which ministers and citizens challenge statist narratives in order to publicly relay theological views second the cultural processes by which local places are nationalized and theologized and third the ecclesiological convictions necessary to peaceably advance the work of Christ's body after disasters

Pacifism, Just War, and Tyrannicide David M. Gides, 2012-03-02 Dietrich Bonhoeffer's perplexing and controversial shift from admitted pacifism to tyrannicide has been the source of scholarly and popular inspiration and criticism How could an admitted Christian pacifist be involved in a plot to assassinate a political figure Is there a way to understand and explain this phenomenon comprehensive enough to encompass all relevant data One that takes into account the nuances of Bonhoeffer's theology and all of the elements of his complex historical and personal contexts This study attempts to offer an explanation by linking Bonhoeffer's political thinking and action with his understanding of the church world relationship and by evaluating the changes in that thought action dyad as his life progressed What emerges is a portrait of a bold and visionary thinker and political agent whose church world theology while discontinuous is consistent enough to be authentic and yet flexible enough to meet the extraordinary challenges presented by Nazism and its intrusion into the churches Gides suggests that it is actually Bonhoeffer's malleable church world thinking that ultimately distinguishes him from his theological and ecclesial contemporaries and even from the mass of German church persons and citizenry it allowed him to confront evil by reaching beyond the constraints of traditional Lutheran thinking

Radical Discipleship

Jennifer M. McBride, 2016-12-15 Reminiscent of Bonhoeffer's Discipleship Jennifer McBride's *Radical Discipleship* utilizes the liturgical seasons as a framework for engaging the social evils of mass incarceration capital punishment and homelessness arguing that to be faithful to the gospel Christians must become disciples of not simply believers in Jesus The book arises out of McBride's extensive experience teaching theology in a women's prison while participating in a residential Christian activist and worshipping community Arguing that disciples must take responsibility for the social evils that bar beloved community Martin Luther King's term for a just social order the promised kingdom of God McBride calls for a dual commitment to the works of mercy and the struggle for justice This work seeks to form readers into an understanding of the social and political character of the good news proclaimed in the Gospels Organically connecting liturgy with activism and theological reflection McBride argues that discipleship requires that privileged Christians place their bodies in spaces of social struggle and distress to reduce the distance between themselves and those who suffer injustice and stand in solidarity with those whom society deems guilty despises and rejects which makes discipleship radical as Christians take seriously the Jesus of the
