Hand, 2023-04-28 Distilling baby's first tear into the eye of a blind man to make him see Plucking herbs upward for emetics and downward for purgatives Stroking one's goiter with a dead man's hand to make the growth shrivel away these are not beliefs and customs found among primitive peoples in remote parts of the world but are examples of hundreds of items of magical medicine found in Professor Hand's remarkable collection of essays dealing with this neglected field in twentieth century Europe and America Fantasy and imagination still have free reign in people's lives more than any of us will admit In a time when science is preeminent irrational thinking can lay hold on the mind of man as much as in olden times Folk medicine has expanded in recent years to include holistic medicine and other forms of alternative medicine but little attention has been paid to magical medicine Despite the benefits of medical science in an advance culture the magical medicine of Europe and America has clung to an unusually rich and original body of magical lore that lies at the base of its folk medical thought Ethnomedicine in the inner cities of America can be better understood by practitioners who know something about folk medicine and especially if they know some of the basics of magical medicine This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed
