American Guides Wendy Griswold,2016-08-26 In the midst of the Great Depression Americans were nearly universally literate and they were hungry for the written word With an eye to this market and as a response to unemployment Roosevelt's Works Progress Administration created the Federal Writers Project They produced the Project's American Guides an impressively produced series that set out not only to direct travelers on which routes to take and what to see throughout the country but also to celebrate the distinctive characteristics of each individual state The series unintentionally diversified American literary culture's cast of characters promoting women minority and rural writers while it also institutionalized the innovative idea that American culture comes in state shaped boxes **Hecho en Tejas** Joe S. Graham,1997-04 When the early Spanish and Mexican colonists came to settle Texas they brought with them a rich culture the diversity of which is nowhere more evident than in the folk art and folk craft This first book length publication to focus on Texas Mexican material culture shows the richness of Tejano folk arts and crafts traditions *The First Texas News Barons* Patrick L. Cox,2009-04-20 Newspaper publishers played a crucial role in transforming Texas into a modern state By promoting expanded industrialization and urbanization as well as a more modern image of Texas as a southwestern rather than southern state news barons in the early decades of the twentieth century laid the groundwork for the enormous economic growth and social changes that followed World War II Yet their contribution to the modernization of Texas is largely unrecognized This book investigates how newspaper owners such as A H Belo and George B Dealey of the Dallas Morning News Edwin Kiest of the Dallas Times Herald William P Hobby and Oveta Culp Hobby of the Houston Post Jesse H Jones and Marcellus Foster of the Houston Chronicle and Amon G Carter Sr of the Fort Worth Star Telegram paved the way for the modern state of Texas Patrick Cox explores how these news barons identified the needs of the state and set out to attract the private investors and public funding that would boost the state's civic and military infrastructure oil and gas industries real estate market and agricultural production He shows how newspaper owners used events such as the Texas Centennial to promote tourism and create a uniquely Texan identity for the state To balance the record Cox also demonstrates that the news barons downplayed the interests of significant groups of Texans including minorities the poor and underemployed

union members and a majority of women

economy became more and more dependent upon slave labor and thus the stage was set for secession Dr Fornell describes with clarity the interrelated events the decisions and the conflicts that went into the development of Galveston and the Texas Gulf Coast during these years He portrays the people and their way of life He introduces us to some of the notables who helped to shape the destiny of Texas Sam Houston the old general Lorenzo Sherwood the golden tongued propounder of radical economic doctrines Willard Richardson Hamilton Stuart Ferdinand Flake and Edward Cushing the newspapermen whose writing both reflected and guided the thought of their fellow citizens Arthur Lynn the British consul whose observing and compassionate nature brought him onto the stage of Galveston history with striking frequency and whose voluminous letters provide a rich source for historical details and William Ballinger a minor player on the stage but one whose conscience and interests mirrored those of many other thoughtful Galvestonians Always present affecting and affected by virtually every aspect of life on the Coast the slave labor problem grew ever more acute as the expanding railroad system laid more and more of the land open for development Dr Fornell shows with keen insight how it eventually forced Texans into a position where conflict with the federal government was unavoidable and the decision to secede from the Union inevitable The late Earl W Fornell a native of Wisconsin held B A and M A degrees in political science from the New School for Social Research the M A degree in political history from Columbia University and the Ph D degree in political history from Rice University He taught at Columbia Amarillo College Rice and Lamar State College of Technology
