proponents of those schools and the projects that they shaped Contributors also consider the role of technology especially the phonograph in the collection efforts Chapters organized by region cover such areas as Appalachia the West and Canada while others devoted to specialized topics from the cowboy tune and occupational song to the commercialization of folk music through song collections and anthologies *Ballad Collectors* investigates the larger role of the ballad in the development of American identity from the national appreciation of cowboy songs in popular culture to the use of Appalachian song forms in radio broadcasts to the role of dustbowl ballads in the urban folk revival of the 1950s and 1960s Finally this collection assesses the changing role of songs and song texts in the academic fields of folklore anthropology musicology and ethnomusicology Scholars and students of American cultural and social history as well as fans of North American folk and popular music will find *The Ballad Collectors of North America* a fascinating story of how the American folk tradition gained greater visibility fueling the revolutions that would follow in the writing and performance of American music *Round the*

Transformations Helen Schwartzman, 2012-12-06 Writing a book about play leads to wondering In writing this book I wondered first if it would be taken seriously and then if it might be too serious Eventually I realized that these concerns were cast in terms of the major dichotomy that I wished to question that is the very pervasive and very inaccurate division that Western cultures make between play and seriousness or play and work fantasy and reality and so forth The study of play provides researchers with a special arena for re thinking this opposition and in this book an attempt is made to do this by reviewing and evaluating studies of children's transformations their play in relation to the history of anthropologists transformations their theories While studying play I have wondered in the company of many individuals I would first like to thank my husband John Schwartzman for acting as both my strongest supporter and as an anthropological colleague my severest critic His sense of nonsense is always novel as well as instructive I am also very grateful to Linda Barbera Stein for her Sherlock Holmes style help in locating obscure references checking and cross checking information and patience and persistence in the face of what at times appeared to be bibliographic chaos I also owe special thanks to my teachers of anthropology Paul J Bohannon Johannes Fabian Edward T Hall and Roy Wagner whose various orientations have directly and indirectly influenced the approach presented in this book *Bulletin of the New York*
