and beyond houses of God in England in the tenth and eleventh centuries and it points to readers who had enough experience to select and find wisdom narrative pleasure and a diversity of other things within this or any book's contents **The**

poet of the eighth century Alcuin can be seen as a true hidden saint of the Church of the same stature and significance as his predecessor Bede His love of God and his grasp of Christian theology were rendered original in their creative impact by his gifts as a teacher and poet In his hands the very traditional theology that he inherited and to which he felt bound took new wings In that respect he must rank as one of the most notable and influential of Anglo Saxon Christians uniting English and continental Christianity in a unique manner which left a lasting legacy within the Catholic Church of Western Europe This book is intended for the general reader as well as for those studying teaching or researching this period of early medieval history and theology in schools and universities

Traditional Subjectivities Britt Mize, 2013-01-01 Why is Old English poetry so preoccupied with mental actions and perspectives giving readers access to minds of antagonists as freely as to those of protagonists Why are characters sometimes called into being for no apparent reason other than to embody a psychological state Britt Mize provides the first systematic investigation into these salient questions in Traditional Subjectivities Through close analysis of vernacular poems alongside the most informative analogues in Latin Old English prose and Old Saxon this work establishes an evidence based foundation for new thinking about the nature of Old English poetic composition including the poetics of mentality that it exhibits Mize synthesizes two previously disconnected bodies of theory the oral traditional theory of poetic composition and current linguistic work on conventional language to advance our understanding of how traditional phraseology makes meaning as well as illuminate the political and social dimensions of surviving texts through attention to Old English poets impulse to explore subjective perspectives
