Text The Genealogy Of An Antidisciplinary Object Post Contemporary Interventions:

Text John Mowitt, 1992 The concept of textuality in recent decades has come to designate a fundamentally contested terrain within a number of academic disciplines How it came to occupy this position is the subject of John Mowitt's book a critical genealogy of the social and intellectual conditions that contributed to the emergence of the textual object Beginning with the Tel Quel group in France in the sixties and seventies Mowitt's study details how a certain interdisciplinary crisis prompted academics to rethink the conditions of cultural interpretation Concentrating on three disciplinary projects literary analysis film studies and musicology Mowitt shows how textuality's emergence called into question not merely the relations among these disciplines but also the cultural logic of disciplinary reason as such At once an effort to define the text and to explore and extend the theory of textuality this book illustrates why the notion of interdisciplinary research has recently acquired such urgency At the same time by emphasizing the genealogical dimension of the textual object Mowitt raises the issues of its antidisciplinary character and by extension its immediate pertinence for the current debates over multiculturalism and Eurocentrism Innovative historically astute and theoretically informed this important book will be indispensable reading for all scholars in literary and cultural studies Composers on the Cultural Front Sally M.
