Text, Context and the Johannine Community David A. Lamb, 2014-04-24 Text Context and the Johannine Community adopts a new approach to the social context of the Johannine writings by drawing on modern sociolinguistic theory Sociolinguistics emphasizes language as a social phenomenon which can be analysed with reference not only to its broad context of culture but also through the use of register analysis to its narrower context of situation The Johannine writings have increasingly been seen as the product of a distinct Johannine Community depicted by some scholars as a sectarian group opposed both to wider Jewish society and to other Christian groups This model has largely been constructed on historical critical grounds yet given our lack of reliable external information about the origin of the Johannine writings a more fruitful approach may be to examine their lexico grammatical and discourse features to determine what these imply about interpersonal relationships This study compares selected narrative asides from the Gospel of John with a passage section from 1 John and with the two shorter Johannine Epistles It concludes that register analysis of these texts does not support the idea of a close knit sectarian group

Text, Context, Concepts Cornelia Zelinsky-Wibbelt, 2011-05-02 The common aim of the contributions to this volume is to shed light on the communication of conceptual structures The papers investigate how speakers rely on the same cognitive dispositions in three different areas of transfer in the lexicalization of metonymies and metaphors in intercultural communication and in expert lay communication

ARTIFACT, TEXT, CONTEXT Li Tang, Dietmar W. Winkler, 2020-01-01 This volume is a collection of papers highlighting recent researches on Syriac Christianity in China and Central Asia The topics range from artifacts to texts and their historical contexts covering the period from the 7th to the 18th century As the studies on Syriac Christianity in China and Central advance focus has shifted from a general historical survey and textual translation to a more micro and meticulous study of specific concepts and terms and particular names of persons and places

Translation Chakib Bnini, 2016-12-14 This book derives empirical evidence for the didactic value of translating texts in context through an experiment involving final year undergraduate students who study translation as a basic component of their curriculum. A number of theoretical frameworks are invoked here most notably those of the discourse model elaborated by Hatim and Mason 1990 1997 and House's text analysis model 1997. Furthermore the study conducted draws on Hatim's multi stage curriculum translation design 2000 consisting of various stages representing an increasing degree of evaluativeness and difficulty.

Information Context: Nature, Impact, and Role Fabio Crestani, Ian Ruthven, 2005-05-20 CoLIS 5 was the fifth in the series of international conferences whose general aim is to provide a broad forum for critically exploring and analyzing research in areas such as computer science, information science and library science. CoLIS examines the historical, theoretical, empirical and technical issues relating to our understanding and use of information promoting an interdisciplinary approach to research. CoLIS seeks to provide a broad platform for the examination of context as it relates to our theoretical, empirical and technical development of information centered disciplines. The theme for CoLIS 5 was the nature, impact and role of context within information centered research. Context is a complex, dynamic and multi-dimensional concept that influences both humans and machines how they behave individually and how they interact with each other. In CoLIS 5 we took an interdisciplinary approach to the issue of context to help us understand and the theoretical approaches to modelling and understanding context incorporate contextual reasoning within technology and develop a shared framework for promoting the exploration of context.

The Christian Observer, 1873

Launching Liberalism Michael P. Zuckert, 2002 In this volume prominent political theorist Michael Zuckert presents an important and pathbreaking set of meditations on the thought of John Locke. In more than a dozen provocative essays many appearing in print for the first time Zuckert explores the complexity of Locke's engagement with his philosophical and theological predecessors, his profound influence on later liberal thinkers and his amazing success in transforming the political understanding of the Anglo American world. At the same time he also demonstrates Locke's continuing relevance in current debates involving such prominent thinkers as Rawls and MacIntyre. Zuckert's careful reconsideration of Locke's role as launcher of liberalism involves a sustained engagement with the hermeneutical issues surrounding Locke, an innovator who faced special rhetorical needs in addressing his contemporaries and the future. It also involves highlighting the novelty of Locke's position by examining his stance toward the philosophical and religious traditions in place when he wrote. Zuckert argues that neither of the dominant ways of understanding Locke's relations to his predecessors and contemporaries is adequate: he is not well seen as a follower of any orthodoxy nor of any anti orthodoxy of his day, either philosophical or theological. He found a path to innovation that was philosophically radical but which was also

able to connect with prevailing and accepted traditions That allowed him to exercise a practical influence in history rarely if ever matched by any other philosopher Zuckert illustrates that influence by showing how William Blackstone used Lockean philosophy to reshape the common law and how the Americans of the eighteenth century used Lockean philosophy to reshape Whig political thought Zuckert argues that Locke s philosophy has continuing philosophic and political force a proposition he demonstrates by arguing that Locke presents a form of political philosophy superior to that of the liberal theorists of our day and that he has solid rejoinders to contemporary critics of liberalism **What Is "Communication Context"?** Anne White Harrington and Priscilla S. Rogers,1988 Language, Text and Context Michael Toolan,2016-11-18 First published in 1992 this wide ranging collection of essays focuses on the principle of contextualisation as it applies to the interpretation description theorising and reading of literary and non literary texts The collection aims to reveal the interdependencies between theory analysis text and context by challenging the myth that stylistics entails a fundamental separation of text from context linguistic description from descriptive interpretation or language from situation The essays cover a historically diverse set of texts from Puttenham to Colemanballs and a number of language sensitive topics such as post modernism irony newspaper representations gender and narrative **The American Ecclesiastical Review** Herman Joseph Heuser,1940 Proceedings of the Aristotelian Society for the Systematic Study of Philosophy Aristotelian Society (Great Britain),1924 List of members in each volume California.
