relevant to that genre Key features include Selected texts covering topics related to Japanese language society and culture encountered in the Japanese media from news reports to interviews book reviews short stories and editorials Word lists for challenging vocabulary and kanji provided throughout to aid comprehension and learning Pre reading activities to enable familiarity with the topic the text s background and words to be encountered in the reading passages Short grammar explanations of essential structures Questions to help comprehension raise awareness of genre features promote critical reading and to encourage the reader to think more deeply about the content Opportunities to write passages utilizing what has been learned by reading the text Vocabulary and grammar lists at the back of the book The Routledge Intermediate to Advanced Japanese Reader emphasizes reading as a purposeful social act which requires readers to make meaning of the text by considering the authors choices in language scripts vocabulary styles in the text The learners are guided to situate each text in society for example the author target audience social cultural background related to the subject in order to understand the social significance of reading and writing This book aims to help learners develop the ability to critically read and write in Japanese for their own social purposes It is suitable for both class use and independent study The Material of Poetry Gerald L. Bruns, 2005 Poetry is philosophically interesting writes Gerald L Bruns when it is innovative not just in its practices but before everything else in its poetics that is in its concepts or theories of itself In The Material of Poetry Bruns considers the possibility that anything under certain conditions may be made to count as a poem By spelling out such enabling conditions he gives us an engaging overview of some of the kinds of contemporary poetry that challenge our notions of what language is sound poetry visual or concrete poetry and found poetry Poetry s sense and meaning can hide in the spaces in which it is written and read says Bruns and so he urges us to become anthropologists to go afield in poetry s social historical and cultural settings From that perspective Bruns draws on works by such varied poets as Gertrude Stein Ezra Pound Steve McCaffery and Francis Ponge to argue for three seemingly competing points First poetry is made of language but is not a use of it That is poetry is made of words but not of what we use words to produce concepts narratives expressions of feeling and so on Second as the nine sound poems on the CD included with the book demonstrate poetry is not necessarily made of words but is rooted in and in fact already fully formed by sounds the human body can produce Finally poetry belongs to the world alongside ordinary things it cannot be confined to some aesthetic neutral or disengaged dimension of human culture Poetry without frontiers unmoored from expectations and sometimes even written in imaginary languages Bruns shows us why for the sake of all poetry we should embrace its anarchic vitalizing ways **Matter of North** Brent Wetters, Anthony Cushing, 2025-07-01 Documents and illuminates Glenn Gould s groundbreaking radio composition The Idea of North Matter of North collects essays and source material related to Glenn Gould s landmark 1967 radio documentary The Idea of North The most famous product other than his studio piano recordings of Gould s 1964 decision to abandon the concert stage for the recording studio it combines Gould s interests in the contrapuntal by the simultaneous layering of

speaking voices with philosophy and a life long fascination with the Canadian Arctic Because the documentary is a multivalent work the contributors approach the documentary from unique perspectives sociological philosophical music theoretical ethnomusicological each illuminating a salient aspect of the work The source material section includes for the first time the complete interview responses by Gould's five participants along with other important documentation

**Ghostlier Demarcations** Michael Davidson, 2023-11-10 Why do modern poets quote from dictionaries in their poems How has the tape recorder changed the poet's voice What has shopping to do with Gertrude Stein's aesthetics These and other questions form the core of *Ghostlier Demarcations* a study of modern poetry as a material medium One of today's most respected critics of twentieth century poetry and poetics Michael Davidson argues that literary materiality has been dominated by an ideology of modernism based on the ideal of the autonomous work of art which has hindered our ability to read poetry as a socially critical medium By focusing on writing as a palimpsest involving numerous layers of materiality from the holograph manuscript to the printed book Davidson exposes modern poetry's engagement with larger historical forces The palimpsest that results is less a poem than an arrested stage of writing in whose layers can be discerned ghostly traces of other texts This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1993 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997
