**The Next American Civil War** Lee Harris, 2010-05-11 The tea parties the guns at town hall meetings the protests against health care reform and the general unrest in America today have taken many people by surprise Some interpret it in terms of economic hard times but Lee Harris offers a different explanation Today s populist revolt is only the

latest installment of an ongoing cultural war that began long before the current economic crisis It is a rebellion against a self appointed intellectual elite whose attitude to the average American is Don t worry we know what is best for you For Harris the stakes in the current struggle are high Will America be ruled by ivory tower liberals or will it remain the land in which ordinary men and women are free to make their own choices and control their own destinies Throughout our history Americans have always challenged the definition of liberty and this has allowed us to progress as a society Harris argues that this debate is good and necessary and that we must take this new populist uprising seriously if we are to defend our founding principles A masterly and visionary work that weaves current events with philosophical investigation The Next American Civil War rethinks Americans most elemental ideas of freedom in order to enable the people of the United States to face the challenges of our times

**The Complete Rags of Time: A Season in Prison** Jack Cook,2012-07-18 The Complete Rags of Time A Season in Prison Parts 1 and 2 publishes for the first time all the prison narrative I wrote in the six month period January 1971 June 1971 after my release from Federal Prison in November 1970 Rags of Time A Season in Prison Beacon 1972 was only part 1 of the narrative It was published because it was complete in itself and Beacon wanted it out as quickly as possible Beacon had just published in book form for the first time The Pentagon Papers and desired I think a more human face to put on their antiwar efforts I think too they hoped I would promote both books on tour I disappointed them in that effort I was not ready for a book tour and would not participate in such a venture The manuscript has gathered dust over the decades for at the time I held out hope that Beacon would publish it But in the pre Watergate days when Rags was published mainstream reviewers would not pick it up It did receive some positive reviews in alternative press venues had a wide library circulation here and in Canada and was taught in college and university courses on both coasts Before I too turn to dust I feel it necessary not only to complete the record but to complete the story of my friends fellow prisoners of war who took their stand against the war to prison Now for all the victims of our war without end NSA surveillance the fascist Homeland Security apparatus and the unconscionable strip searches of the rights and bodies of old and young I feel the need to throw yet another book to the barricade

*The New World Order Ideology and Africa* Tatah Mentan,2010-10-05 The New World Order Ideology expressed in the form of neoliberal globalization has been used by numerous politicians scholars and media men through the ages It refers to a worldwide conspiracy to effect complete and total control over the planet through money farming This book examines the case of Africa put directly on the chopping board as client states by this ideology when less hampered by idealistic slogans as human rights raising living standards and democratization to better the achievement of the agenda of the money farmers whose goal is to establish government by loan operations The money farmers strategy as in credit card companies is to lend as much as the subject target can borrow and still pay fees charges and interest payments This means to encourage them to borrow loan after loan consolidate all other loans and keep lending up until the crop of foreign exchange seems in jeopardy The ideal from the Lending Agency viewpoint is to get an African country maxed out on

loans to the point that it actually operates all of its government and the nation on LOANS Once that goal is achieved you basically have a never ending crop of FOREIGN EXCHANGE from helpless and hopeless African governments and people Here is Tatah Mentan at his trenchant best      **The American Dance Festival** Jack Anderson,1987 The American Dance Festival has been a magnet drawing together diverse artists styles theories and dance training methods from this creative mix the ADF has emerged as the sponsor of performances by some of the greatest choreographers and dance companies of our time Jack Anderson traces the development of ADF from its beginnings in New England to its seasons at Duke University He displays the ADF for the multidimensional creature it is a center for performances a school for the best young dancers in the country and a provider of community and professional services      **Revision of the Federal Criminal Code** United States. An Old Lion Roars at Dementia J. Stewart Schneider J.D.,2022-08-31 There is no more precious experience than a human life with all its sharp elbows and soft spots Yet when one s life is complete we satisfy ourselves with a simple gravestone noting name and dates Nothing about that life s struggles nor yet its celebrations nothing of guidance to the coming generation This book not an autobiography represents the memories and thoughts of a senior man diagnosed with vascular dementia Dementia stirs up thoughts of nursing homes and residents staring blankly at the wall It may come to that for me but it hasn t yet and this book marks my last chance to roar at the disease which daily robs me of talents and memories May it guide you as well      *Stuff 'n' Nonsense* Harry H. Bash,2011-11 This compilation of my STUFF as George Carlin might have me refer to it includes ruminations essays and frankly spoofs that I wrote during the last decade of the twentieth century through the first decade of the twenty first Admittedly and predictably some of the items betray my long term affiliation with and dedication to the discipline of sociology Throughout my career I succeeded in ignoring Archibald MacLeish s warning not to commit a social science but I did manage to heed his other caution not to sit with statisticians Now in items some of which bear an affinity to sociology I am not above taking liberties that exceed the bounds imposed by professional sociological constraints Thus I commit value judgments I trifle with the ludicrous and I allow myself to be opinionated
