The Good Wars Greatest Hits World War II And American Remembering:

American Media and the Memory of World War II Debra Ramsay, 2015-02-11 For three generations of Americans World War II has been a touchstone for the understanding of conflict and of America's role in global affairs But if World War II helped shape the perception of war for Americans American media in turn shape the understanding and memory of World War II Concentrating on key popular films television series and digital games from the last two decades this book explores the critical influence World War II continues to exert on a generation of Americans born over thirty years after the conflict ended It explains how the war was configured in the media of the wartime generation and how it came to be repurposed by their progeny the Baby Boomers In doing so it identifies the framework underpinning the mediation of World War II memory in the current generation's media and develops a model that provides insight into the strategies of representation that shape the American perspective of war in general Reagan's "Boys" and the Children of the Greatest Generation Jonathan M. Bullinger, 2019-10-10 During the 1980s and 1990s aging Baby Boomer parents constructed a particular type of memory as they attempted to laud their own parents wartime accomplishments with the label The Greatest Generation This book is the first to tell the entire story of this particular type of U S World War II memory begun by U S President Ronald Reagan in 1984 and promoted the same year by newscaster Tom Brokaw The story continues in 1994 when it was given academic credence by historian Stephen E Ambrose a sensory realism and ideal American character by director Steven Spielberg and actor Tom Hanks sloganized by Tom Brokaw in 1998 and later interpreted in light of 9 11 and new wars The Columbia Companion to American History on Film Peter C. Rollins, 2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as The Birth of a Nation 1915 Roots 1977 Apocalypse Now 1979 and Saving Private Ryan 1998 how much is entertainment and how much is rooted in historical fact In The Columbia Companion to American History on Film more than seventy scholars consider the gap between history and Hollywood They examine how filmmakers have presented and interpreted the most important events topics eras and figures in the American past often comparing the film versions of events with the interpretations of the best historians who have explored the topic Divided into eight broad categories Eras Wars and Other Major Events Notable People Groups Institutions and Movements Places Themes and Topics and Myths and Heroes the volume features extensive cross references a filmography of discussed and relevant films notes and a bibliography of selected historical works on each subject The Columbia Companion to American History on Film is also an important resource for teachers with extensive information for research or for course development appropriate for both high school and college students Though each essay reflects the unique body of film and print works covering the subject at hand every essay addresses several fundamental questions What are the key films on this topic What sources did the filmmaker use and how did the film deviate or remain true to its sources How have film

interpretations of a particular historical topic changed and what sorts of factors technological social political historiographical have affected their evolution Have filmmakers altered the historical record with a view to enhancing drama or to enhance the truth of their putative message **Atrocity, Deviance, and Submarine Warfare** Nachman

Ben-Yehuda,2013-07-15 In an era of changing ethics the submarine has inaugurated a new type of unrestricted naval warfare

Militarization and the American Century David Fitzgerald,2022-01-13 Taking American mobilization in WWII as its departure point this book offers a concise but comprehensive introduction to the history of militarization in the United States since 1940 Exploring the ways in which war and the preparation for war have shaped and affected the United States during The American Century Fitzgerald demonstrates how militarization has moulded relations between the US and the rest of the world Providing a timely synthesis of key scholarship in a rapidly developing field this book shows how national security concerns have affected issues as diverse as the development of the welfare state infrastructure spending gender relations and notions of citizenship It also examines the way in which war is treated in the American imagination how it has been depicted throughout this era why its consequences have been made largely invisible and how Americans have often considered themselves to be reluctant warriors In integrating domestic histories with international and transnational topics such as the American empire of bases and the experience of American service personnel overseas the author outlines the ways in which American militarization had and still has global consequences Of interest to scholars researchers and students of military history war studies US foreign relations and policy this book addresses a burgeoning and dynamic field from which parallels and comparisons can be drawn for the modern day Interpreting Naval History at Museums and Historic Sites

Benjamin J. Hruska,2016-08-09 Interpreting Naval History at Museums and Historic Sites demonstrates the broad appeal of naval themed commemoration centering on military aspects from both times of war and peace Transcending place and time naval history is shaped into public forums for modern day consumption These occurrences are not limited to just recent history as can be seen in the celebration of man s long history of transforming bodies of water from barriers into opportunities In addition with the modern day nation state naval history is not just limited to areas near large bodies of water as seen with landlocked states in the United States sharing in a proud naval tradition Examples of this included in the book are USS Arizona BB 39 and USS Missouri BB 63 Naval history is just one avenue with sites marking the history of immigration engineering technology and architecture Naval history also extends into lighthouses and port facility construction which are the background of a host of U S Generals in the U S Army with the Army Corps of Engineers which includes the Robert E Lee Using an international approach the book illustrates the intersection of the historical understanding of one s place and naval traditions Locating the boundaries one finds both the depth and breath of the topics linking and dividing water and man **Sacrifice and Modern War Literature** Alex Houen,Jan-Melissa

Schramm,2018-06-17 Sacrifice and Modern War Literature is the first book to explore how writers from the early nineteenth

century to the present have addressed the intimacy of sacrifice and war. It has been common for critics to argue that after the First World War many of the cultural and religious values associated with sacrifice have been increasingly rejected by writers and others. However, this volume shows that literature has continued to address how different conceptions of sacrifice have been invoked in times of war to convert losses into gains or ideals. While those conceptions have sometimes been rooted in a secular rationalism that values lost lives in terms of political or national victories, spiritual and religious conceptions of sacrifice are also still in evidence, as with the martyrdom operations of jihadis fighting against the war on terror. Each chapter presents fresh insights into the literature of a particular conflict, and the contributions explore major war writers including Wordsworth, Kipling, Ford Madox Ford, and Elizabeth Bowen, as well as lesser-known authors such as Dora Sigerson, Richard Aldington, Thomas Kinsella, and Nadeem Aslam. The volume covers multiple genres, including novels, poetry, particularly elegy and lyric, memoirs, and some films. The contributions address a rich array of topics related to wartime sacrifice, including scapegoating, martyrdom, religious faith, tragedy, heroism, altruism, bare life, atonement, and redemption.

The Warrior Image Andrew J. Huebner, 2011-12-01. Images of war saturated American culture between the 1940s and the 1970s as U.S. troops marched off to battle in World War II, the Korean War, and the Vietnam War. Exploring representations of servicemen in the popular press, government propaganda, museum exhibits, literature, film, and television, Andrew Huebner traces the evolution of a storied American icon, the combat soldier. Huebner challenges the pervasive assumption that Vietnam brought drastic changes in portrayals of the American warrior, with the jaded serviceman of the 1960s and 1970s shown in stark contrast to the patriotic citizen soldier of World War II. In fact, Huebner shows cracks began to appear in sentimental images of the military late in World War II and were particularly apparent during the Korean conflict. Journalists, filmmakers, novelists, and poets increasingly portrayed the steep costs of combat, depicting soldiers who were harmed rather than hardened by war, isolated from rather than supported by their military leadership and American society. Across all three wars, Huebner argues, the warrior image conveyed a growing cynicism about armed conflict, the federal government, and Cold War militarization.

Encyclopedia of Military Science G. Kurt Piehler, 2013-07-24. The Encyclopedia of Military Science provides a comprehensive ready reference on the organization, traditions, training, purpose, and functions of today's military. Entries in this four-volume work include coverage of the duties, responsibilities, and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political, social, legal, economic, and technological factors. A large component is devoted to issues of leadership, group dynamics, motivation, problem solving, and decision making in the military context. Finally, this work also covers recent American military history since the end of the Cold War, with a special emphasis on peacekeeping and peacemaking operations, the First Persian Gulf War, the events surrounding 9/11, and the wars in Afghanistan and Iraq, and how the military has been changing in relation to these events. War Heroes Anymore **Conditions of Violence** Christian Gerlach, 2024-11-04 Mass violence comes not only from states but also from people By analyzing mass violence as social interaction through survivor accounts and other sources this book presents understudied agents aims and practices of direct violence and ways of action of those under persecution Sound history examining the noises of mass violence and persecution is particularly telling about such practices This volume shows that violence can become socially hegemonic and some people claim a freedom to kill as a political right To scrutinize indirect violence which is often imperialist in character and claims many victims the book proposes the concept of conditions of violence These conditions are produced by definable groups of actors and foreseeably harm definable groups which differs from the anonymous and static structural violence This is exemplified in a case study concerning famines in World War II and another on COVID 19 as mass violence Less global in character other case studies in this volume deal with Rwanda Bangladesh East Pakistan and the Soviet Union *Allies in Memory* Sam Edwards, 2015-03-02 A fresh perspective on World War II commemoration that identifies the central place of war memory in post 1945 transatlantic relations [Air University Library Index to Military Periodicals](#) ,1998 *Coming Out of War* Janis P. Stout, 2016-09-15 While emphasizing aesthetic continuity between the wars Stout stresses that the poetry that emerged from each displays a greater variety than is usually recognized Jacket **Extreme Exoticism** W. Anthony Sheppard, 2019-09-16 To what extent can music be employed to shape one culture s understanding of another In the American imagination Japan has represented the most alien nation for over 150 years This perceived difference has inspired fantasies of both desire and repulsion through which Japanese culture has profoundly impacted the arts and industry of the U S While the influence of Japan on American and European painting architecture design theater and literature has been celebrated in numerous books and exhibitions the role of music has been virtually ignored until now W Anthony Sheppard s *Extreme Exoticism* offers a detailed documentation and wide ranging investigation of music s role in shaping American perceptions of the Japanese the influence of Japanese music on American composers and the place of Japanese Americans in American musical life Presenting numerous American encounters with and representations of Japanese music and Japan this book reveals how music functions in exotic representation across a variety of genres and media and how Japanese music has at various times served as a sign of modernist experimentation a sounding board for defining American music and a tool for reshaping conceptions of race and gender From the Tin Pan Alley songs of the Russo Japanese war period to Weezer s *Pinkerton* album music has continued to inscribe Japan as the land of extreme exoticism **Class and the Making of American Literature** Andrew Lawson, 2014-03-14 This book refocuses current understandings of American Literature from the revolutionary period to the present day through an analytical accounting of class reestablishing a foundation for discussions of class in American culture American Studies scholars have explored the ways in which American society operates through inequality and modes of social control focusing primarily on issues of status group identities involving race ethnicity gender sexuality and disability The essays in this volume focus on

both the historically changing experience of class and its continuing hold on American life The collection visits popular as well as canonical literature recognizing that class is constructed in and mediated by the affective and the sensational It analyzes class division class difference and class identity in American culture enabling readers to grasp why class matters as well as the economic social and political matter of class Redefining the field of American literary cultural studies and asking it to rethink its preoccupation with race and gender as primary determinants of identity contributors explore the disciplining of the laboring body and of the emotions the political role of the novel in contesting the limits of class power and authority and the role of the modern consumer culture in both blurring and sharpening class divisions *Forthcoming Books* Rose Army,1998-04 **The North Carolina Historical Review** ,1999 **The War of 1812** Donald R Hickey,2012-01-15 This comprehensive and authoritative history of the War of 1812 thoroughly revised for the 200th anniversary of the historic conflict is a myth shattering study that will inform and entertain students historians and general readers alike Donald R Hickey explores the military diplomatic and domestic history of our second war with Great Britain bringing the study up to date with recent scholarship on all aspects of the war from the Gulf of Mexico to Canada The newly expanded The War of 1812 A Forgotten Conflict Bicentennial Edition includes additional information on the British forces American Indians and military operations such as the importance of logistics and the use and capabilities of weaponry Hickey explains how the war promoted American nationalism and manifest destiny stimulated peacetime defense spending and enhanced America s reputation abroad He also shows that the war sparked bloody conflicts between pro war Republican and anti war Federalist neighbors dealt a crippling blow to American Indians and solidified the United States s antipathy toward the British Book of the Month Club and History Book Club selections and received one of the two 1990 Best Book Awards from the American Military Institute Italian Quarterly Carlo Luigi Golino,2007 **The American Experience in World War II: Remembering and representing the Second World War** Walter L. Hixson,2003
